## Bathroom series

### Design

Francis Cayotte &  
Eva Lijja Löwenhielm

### Good to know

Note! that ENHET doors, fronts and knobs/handles are sold separately. You can either plan your own combination or choose one of the pre-designed ENHET bathrooms. To see all the ENHET bathrooms go to page 7 with combinations.

### Safety

Furniture must be fixed to the wall with the enclosed wall fastener. Different wall materials require different types of fixing devices. Use fixing devices suitable for the walls in your home, sold separately. Secure that the walls in your bathroom can support the weight of the wash-stand, and if not, then use legs.

10

The ENHET bathroom series has a 10-year guarantee. Read more in the guarantee brochure.

### Plan less, live more

ENHET is easy to buy and equally easy to update if you need to, or simply feel like it. You can choose between ready-made combinations online and buy your favourite with a few clicks. All parts are easy to assemble, intuitively and without any special tools.

The playful design in different colours inspires you to adapt ENHET to reflect your personality. With a combination of closed cabinets and open shelves in stable metal frames you can display your favourite things and hide the rest. The ENHET bathroom units also come in different widths and depths, making them easy to adapt to a smaller space.

# How to plan

## What do you want to store?

Start by thinking what storage needs do you have in your bathroom. Think of the activities that happen in your bathroom like laundry, shower, clean and care. How many people use the bathroom and when is the rush hour usually. Based on these activities you can plan how many storage units you will need as well as decide if a drawer or a door solution will be best suited for your needs. Think of the wall space you have too in your bathroom as this will be perfect place for shelving units that take very little space but they create lots of storage capacity for all the clean and care products that find home in the bathroom.

## How much space do you have?

Decide on where you will place your vanity unit and start building your new bathroom around this space, see if you have enough wall space for an additional storage unit like a high cabinet or a shelving unit. Sketch out the space, measuring from the width and the height from the floor, if you have a narrow bathroom then the depth of your furniture will make a difference. For narrow bathrooms you can consider shallow ENHET cabinets. Take detailed measurements, note the shower area and all the space you might need for the piping that could affect your storage solution.

## Want a ready-made combination?

We have made it much easier to buy ENHET bathrooms be it IKEA.com or the store, we have created ready-made combinations that you can choose after you have considered what type of storage you need. These combinations are varied and have been designed to cover a wide storage functionality as well as style needs. Just browse the combinations in this buying guide on, page 12 . You can buy them here in the store or on [www.IKEA.co.uk](http://www.IKEA.co.uk).

Do you want to create your own solution? Use the additional information provided in this buying guide to follow these simple steps:

### 1. Pick a base cabinet

ENHET comes in open and closed frame solutions. The open base frames can work both under the wash-basin as a vanity unit and as an additional shelving unit next to the vanity. You can also choose between different wall shelves to build more storage space around your vanity unit maximising the storage possibilities.

The closed wooden-base material cabinets come with 2 functionality - either with a shelf, or 2 drawers, so depending on your preferences you can choose the functionality that works best in your bathroom. The uniqueness of these cabinets is that they work perfectly to be combined with the open frames of ENHET bathroom series so you can mix and match creating a unique solution that will be truly yours.

### 2. Choose the accessories

There are a wide range of accessories designed to be combined with ENHET open frames to add more functionality and versatility to your ENHET solution. Like the hooks and hook rail can create space for many towels to hang and dry all at the same time, or SKATTÅN container could become a perfect home for all your makeup brushes. With TAVELÅN trays you can store all your small items like hair pins, jewellery and the swivel shelf can become your favourite place to keep your nail polish bottles and the shaving kit for a quick and smooth access. For all the functions of ENHET accessories check page 19.

### 3. Choose the expression

Finally choose the colour and expression of your fronts. The possibilities are many you just need to pick the expression that fits best your style and bathroom making it look just great!

# SILVERGLANS LED lighting for ENHET – all parts

SILVERGLANS LED lighting kit is designed for the ENHET series. With this LED lighting strip, you enjoy both a functional light and a nice atmosphere in your ENHET bathroom – making the morning and evening routines calmer, safer and easier. You can use the lighting strip under or on top ENHET wall cabinets and open wall frames – or use it to create cosy light inside the open

wall frames. With RODRET wireless dimmer or STYRBAR remote control you can easily turn on, off and dim your lighting. By connecting this product to DIRIGERA hub, you get even more out of it and can also control it, together with other smart products, in the IKEA Home smart app.

**SILVERGLANS driver, 30W**, wireless control, approved for bathroom, white. Now it's really easy for anyone to use smart lighting. This driver allows you to connect your integrated lighting from IKEA – turn on, turn off and dim so you always have the right light and mood at home. You can connect up to 5 units to the transformer, as long as the total wattage does not exceed 30W.

104.747.72

**STYRBAR remote control.** With STYRBAR remote control, you can dim, turn on/off your lighting without a wired-in installation. The remote control has a maximum range of 10 meters when not blocked by any walls. Batteries are sold separately; 2 pcs AAA required. This product is part of our smart home range. Connect it, along with other smart products, to DIRIGERA hub and IKEA Home smart app for more features and functions. Only be used with IKEA Smart lighting products.

White 604.883.66

Stainless steel 004.680.45

**SILVERGLANS LED Lighting strip**, approved for bathroom: You can connect as many LED lighting strips as you like, as long as the total wattage of the products does not exceed the maximum wattage of the connected driver(s).

**DIRIGERA hub for smart product.** DIRIGERA hub is the heart of a smart home as it enables you to connect and control your smart products in the IKEA Home smart app. Add the DIRIGERA hub and IKEA Home smart app for control through Amazon Alexa, Apple Homekit or Hey Google. You can control your smart home using one or multiple mobile and tablet devices. DIRIGERA hub requires a Wi-Fi network and connects to your router with the provided cable.

White 505.034.09

**RODRET wireless dimmer.** With RODRET wireless dimmer, you can dim, turn on/off your lighting without a wired-in installation. You can add up to 10 LED light sources so that they all switch on, off or are dimmed at the same time. Batteries are sold separately. IKEA recommends LADDA rechargeable battery HR03 AAA 1.2V. 1 piece required. Can only be used with IKEA Smart lighting products. This product is part of our smart home range. Connect it, along with other smart products, to DIRIGERA hub and IKEA Home smart app for more features and functions.

# Complete your combination with lighting

## How to build

SILVERGLANS LED cabinet lighting is easy to install by yourself.

- When you start building your system, you must first consider the widths of your cabinets. E.g. for a cabinet with a width of 60 cm, you'll need the SILVERGLANS lighting strip 60 cm too.
- Choose the number of SILVERGLANS lighting strips that you need.
- Add the SILVERGLANS LED driver. You can connect up to 5 units to the driver, as long as the total wattage does not exceed 30W.
- SILVERGLANS driver needs to be connected to your wired-in electrical installation. In some countries electrical installation work may only be carried out by an authorized electrical contractor. Contact your local electricity authority for advice.

- Add RODRET wireless dimmer or STYRBAR remote control to dim your lighting. Pair the dimmer to the SILVERGLANS driver and the entire combination will dim at the same time.
- Add the DIRIGERA hub to control SILVERGLANS connected lighting from the IKEA Home smart app in different ways together with other smart product in your home.
