

Buying guide

# HEMNES

## Bathroom series

### Safety

Some of this furniture must be fixed to the wall with the enclosed wall fastener. Different wall materials require different types of fixing devices. Use fixing devices suitable for the walls in your home, sold separately.

### Care and cleaning

Wipe furniture clean with a cloth dampened in water or a non abrasive detergent, then wipe dry with a clean cloth.

The wash-basin and mixer tap should be wiped clean with a cloth dampened in water or a non abrasive detergent.

Wash-basins in ceramic are resistant to most chemicals, except for strong acids and strong alkalis.

Wash-basins made of crushed marble should not come in contact with ammonia, acids, strong detergents, hair dye or chlorine.

### Genuine character that lasts

HEMNES bathroom furniture has a straightforward, crafted look with Scandinavian appeal and modern function. The series includes wash-stands, mirrors, cabinets and shelving, in different dimensions, to make your bathroom functional and comfortable - no matter size. To enhance the traditional look and your own unique style, choose between a turn-of-the-century-inspired wash-basin with raised edges or an eye-catching solution with round countertop bowl.

All the products (shown here) may not be available at the store. Please contact the staff or look at [www.IKEA.com](http://www.IKEA.com) for more information. For more detailed product information, see the pricetag and the Internet. All units require assembly.

# How to plan

## What do you want to store?

Start by thinking what storage needs do you have in your bathroom. Think of the activities that happen in your bathroom like laundry, shower, clean and care. How many people use the bathroom and when is the rush hour usually. Based on these activities you can plan how many storage units that will best suit your needs. Think about the wall space you have available for a wash-stand and wash-basin, since this is the centre of most bathroom activities. The HEMNES series comprises wash-stands of different sizes and storage capacities. The drawers in HEMNES wash-stand are smooth running and pull out fully so you can easily see and reach what's inside. Pull-out stops prevent the drawers from being pulled out too far and falling, which is especially practical if you have children.

## Choose the expression

You can choose between open and regular wash-stands depending on your storage needs and preferences in your bathroom. IKEA wash-basins come in different sizes and you can choose a single or double wash-basin, depending on your needs and space. The wash-basins suitable for HEMNES are made in ceramic, which have a glazed finish and are easy to clean. If you choose HEMNES open wash-stand combine it with a counter-top wash-basin for the best functionality and looks. All wash-basins come with a water trap and strainer. The water trap is flexible and can be connected to both washing machines and dish-washers.

You can find a wide selection of wash-basin mixer taps at IKEA. Choose your tap based on function and design. All taps at IKEA have a flow regulator that uses less water but ensures that the water flow feels the same. Most of our taps have a special function – a cold start function that helps you save energy.

The last thing to decide is what to put above and around your wash-basin: mirror cabinet, high cabinet with mirror door, shelving unit, bench. The combination possibilities are endless. Make your choice based on your bathroom storage needs and space.

# How to combine

Here is a little guide to explain how you can put together your very own HEMNES bathroom solution. For all the parts and pieces see page 4. If you want to browse our ready-made solutions just check [IKEA.co.uk](http://IKEA.co.uk).
