

Buying guide

TROFAST

Storage system

Design

Studio Copenhagen
Gustav Carlberg
Mia Lagerman

Material

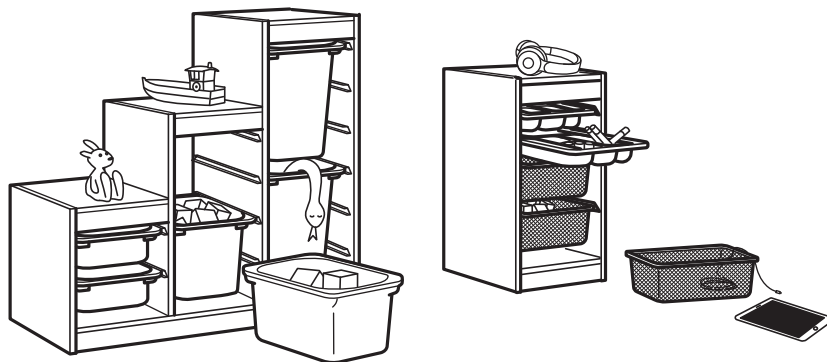

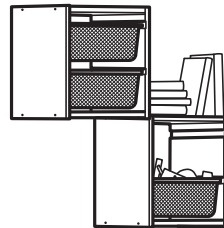

TROFAST frames and shelves are available in solid pine, white or grey foil. The storage boxes are made of plastic or metal mesh, while lids and guide rails are in plastic and trays are in recycled plastic.

Care

You can easily clean TROFAST frames, boxes and shelves with a cloth dampened in a mild cleaner, then simply wipe dry with a clean, dry cloth.

Safety

Children rarely do what you expect them to do. They climb, clamber and play with things in ways that are often difficult to foresee. To prevent the furniture from tipping over, always use the safety fittings supplied to secure all storage furniture that is more than 60 cm in height safely to the wall.

Flexible storage you can adapt to your needs

Children need room to play – and good storage for their toys and other things, so they can find what they're looking for and tidy up when they're done. That's why we made TROFAST – a flexible series of sturdy wooden frames and lightweight, removable boxes in plastic or in metal mesh, as well as trays in recycled plastic. Easy for your child to slide out, carry and put back again – all on their own.

TROFAST frames come in different finishes, shapes and sizes. And TROFAST boxes come in different colours, sizes and materials to suit your style and needs. Maybe boxes in metal mesh for the teenager's room, hallway or living room? Wherever you put your TROFAST items, there is plenty of room for storing and organising all types of toys and other things. There are even shelves that fit in the frames, so you can create open storage for books and display.

All the products (shown here) may not be available at the store. Please contact the staff or look at www.IKEA.com for more information. For more detailed product information, see the pricetag and the Internet. All units require assembly.

Combinations

Overall size: Width×Depth×Height.

All parts and prices

You can create your own storage solution to suit your space and your child's needs by freely combining different frames, boxes

and shelves. Remember to always secure furniture more than 60 cm high to the wall.
