# NÄMMARÖ

## Sometimes it's good to be square

When we developed NÄMMARÖ, we asked ourselves: what's the best way to create really comfy and affordable outdoor furniture? We found one answer to the question in the design. By basing the whole series on a simple geometric shape, we managed to lower the manufacturing cost.

### **That's good news for your wallet**

"We want NÄMMARÖ to be easy to both take home and live with," says product developer Anders Adler. He and the development team found a part of the solution in a simple geometric shape - the square.

### **One look, many possibilities**

"We designed a frame that looks like a square with small legs," explains Anders. It's a shape that's used throughout the series, from chairs to tables.

"The frame gives NÄMMARÖ a uniform and contemporary look. It's also modular thinking that simplifies the production and lowers the cost. And since NÄMMARÖ doesn't have any curved shapes, the products are easy to pack in flat packages."

It contributes to a lower price and saves valuable space during transport - all the way from the factory to the

customer's home.

### **Create your own oasis**

In the NÄMMARÖ family, you find sun loungers and chairs for long and lazy days, sofas for many guests and tables for intimate dinners or big families.

"It's about finding what suits you and your needs. NÄMMARÖ creates possibilities - for both different outdoor spaces and wallets."

The furniture is relatively light, so you can easily move it if you need to make room for more guests or stow everything away when the outdoor season is over.

"It's one of those small but important things that makes the everyday life on your terrace or balcony more convenient," says Anders.

*"When we designed NÄMMARÖ, we wanted to create a family of modern outdoor furniture that can both blend in and stand out. The square frame used throughout the series contributes to a uniform look and ties the different products together. The soft honey colour ages with grace and is easy to match with things you already have at home and the greenery on your balcony or terrace."*

# How to furnish your outdoor space

You'll be spending time in your great outdoors in no time! Get started exploring the possibilities with these general tips. The next page has specific info for smaller and larger spaces. Remember the furniture and pieces we're talking about are those designed for outdoor use – and they're all in this buying guide. Sketch a floorplan with dimensions as a handy tool to figure out what fits. Then follow our helpful hints:

## Cushions

Cushions show off your personality. Mix and match colours, sizes and patterns on sofas and chairs for decorative touches and soft, supportive padding. Protect them in storage bags/box when not in use.

## Lighting

Lighting encourages being outdoors as much as possible in dark nights and seasons. It adds ambience and looks nice even when you're indoors.

## Shade and protection

If you need shade/protection from ultraviolet rays or if you want privacy: Look for parasols, canopies, nets, gazebos or privacy screens to suit your needs.

## Rugs and flooring

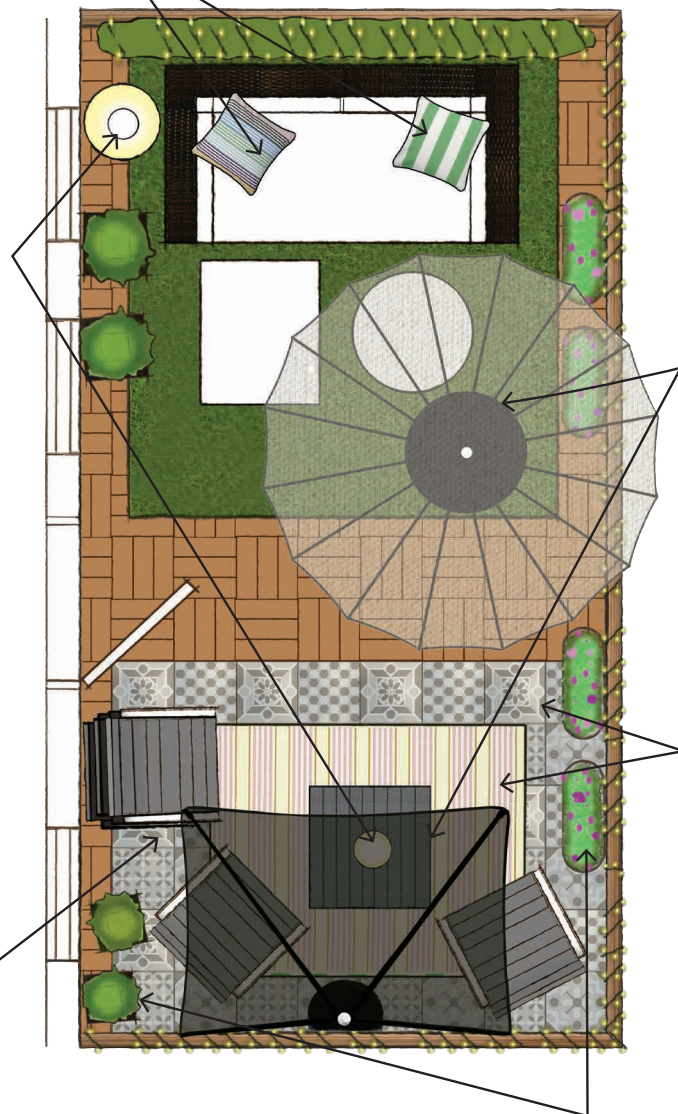

Rugs and flooring can change your space's look. They help make whatever "ground" you have more comfortable and your space easier to clean.

## Save time and space

If you use your space occasionally or if you want a nice space without investing much time and energy: Choose lightweight, stackable or foldable pieces that are easy to bring indoors. Protect them with water-proof covers if you can't store indoors.

## Plants and flowers

Plants and flowers bring nature closer to you. Artificial plants have the same effect if the weather (or your desire) isn't growing friendly.

## A small balcony where big dreams happen

Don't let a small outdoor space limit what you can do on your balcony. With clever storage and smart furniture all your big ideas can be brought to life – whatever your budget.

### A table with a view

This outdoor table with two folding chairs makes it easy to start setting the scene on your small balcony. The best bit? The low price means that extending your living space won't make a big dent in your wallet.

### A mini-vegetable garden

As well as helping to keep your balcony tidy, this shelving unit could be the answer to your growing dreams if you're itching to flex your green fingers. Simply add the protective cover to create a small greenhouse for nurturing things like herbs and small vegetables.

### All you need for added cool

Need some extra shade? This small parasol has been specifically designed to keep balconies cool and shady. Its unique design brings a modern look to the space and the base won't get in the way of any of your other furniture.

### Fantasy flooring

It's easy to give your balcony or your terrace a style refresh with this statement floor decking, that can be easily cut to fit any awkward spaces. With UV stabilisation to withstand prolonged exposure to sunlight and a fade resistant finish, it will last longer and stay looking fresh.

## Defining a clear dining area

A parasol over the dining area ties together your dining set nicely. Of course, it provides pleasant shade when the sun is out – but it's also quite nice leaving it up after sun-down for a canopy over your heads creating a cosy vibe.

### Seating for more than eating

Multi-use furniture is always a good choice for your outdoor area as they set you up for more than just one activity. This reclining chair works just as well for dining as for relaxing or sunbathing. It's foldable for easy storage too.

### Using plants as dividers

High plants in large pots are a smart way to divide your patio into rooms with clear separation. This makes it easier to have more than one thing going on at once – which is ideal for parties, for instance. The greenery also helps create a nice, lush atmosphere.

### Customised lounge set

Arrange and rearrange things to suit your patio perfectly. This outdoor sofa section lets you make a sofa any shape and size you want, as well as matching stand-alone easy chairs. Remove the backrest and it's a footstool. Remove the cushion and it's a side table.

### The handy bonus bench

A bench is always useful to have around in your outdoor space. It's perfect when you need extra seating for guests. Awaiting that, it makes a lovely flower bench that's great for hiding storage under as well.

# Outdoor comfort cushions

---

## Stay a while

Make it comfortable for long naps and even longer meals with our thick, padded cushions. In a variety of colours, they add an extra splash of style to your outdoor seating. Many have fade-resistant colour – thanks to how they're dyed – and are water-repellent, so you can shake off the water after a light, passing rain shower. Many of them have longer lives because you can flip and use both sides. Their ties and/or straps keep the chair cushions and pads firmly in place on the chair, too. And many cushions have removable, machine-washable covers for easy cleaning of melted ice cream.

FRÖSÖN/DUVHOLMEN  
Chair cushion, outdoor, beige,

**Rs.1,200**

## JÄRPÖN/DUVHOLMEN and FRÖSÖN/DUVHOLMEN

Both the cushion covers of **FRÖSÖN** and **JÄRPÖN** are sold separately from DUVHOLMEN inner cushions. Why? To make life better, of course! You can change up your outdoor look just by changing the cover. It'll take some time for its colour to fade, because we dye the yarn in a way that makes colour last longer (and uses less water). You won't slide around on your seat either thanks to the fact that most of the FRÖSÖN covers have straps that keep the cushions in place and JÄRPÖN covers have anti-slip dots on the underside.

You can shake off water from a light rain, because **both** JÄRPÖN and FRÖSÖN are water repellent without the use of perfluorinated chemicals. If the cover's dirty, just wash it in the machine. And you can relax even more knowing that we make the cover fabric from a minimum of 90% recycled polyester, which reduces the use of new raw materials and lowers its environmental footprint.

In addition, JÄRPÖN cushion covers have a piping that makes them different in design. Each cover also has a padded inlay that increases your seating comfort.

## KUDDARNA

**KUDDARNA** chair cushions, seat/back cushions and back cushions add a traditional look to outdoor seating and have ties to stay firmly in place. They all have longer lives, since they can be turned over and used on both sides. Their fade-resistant fabric is dyed in a more sustainable way that also makes the colour last longer in the sun, too. This dope-dyeing process reduces consumption of water and dyestuff while

improving colour fastness compared to traditional dyeing techniques. The seat cushion has a removable, machine washable cover with anti-slip dots on the underside that keep the cushion in place.

Fabric: 100% polyester. Filling: Polyurethane foam. Hand wash.

# Parasols

---

## Add shade and privacy

Enjoying life outdoors means being exposed to all of nature's pros and cons – not to mention neighbours or city life in general. Parasols help shield you from the elements and provide ultraviolet (UV) protection. Some of our parasols are water repellent, so you're protected against a light, passing rain shower.

All our parasols have polyester fabric with UV protection. Here's what our different sun protection scales mean:

**Excellent protection 50+** fabric has a UPF (Ultraviolet Protection Factor) rating of 50+, which means it blocks 98% of the ultraviolet radiation.

**Very good protection 25+** fabric has a UPF (Ultraviolet Protection Factor) rating of 25+, which means it blocks 96% of the ultraviolet radiation.

**Good protection 15+** has a UPF (Ultraviolet Protection Factor) rating of 15+, which means it blocks 93% of the ultraviolet radiation.

**Please be aware;** The parasol do not provide protection against reflected or scattered solar ultraviolet radiation.

# Outdoor storage and organising

---

## Contain the clutter

Make more room to enjoy the outdoors. To hold anything from cushions and dishes to toys and sports equipment, little additions like hooks or a box can have as much of an impact as larger shelving units, cabinets, storage benches and trolleys. Open shelving units keep things readily accessible, while closed cabinets, storage benches (that double as seating) and box shield stuff from the elements. Storage can't hold the nice weather, but it can help you spend more time having fun.

## Light a cosy night

Just because the sun goes down doesn't mean the fun has to stop! Turn on the lights wherever you are and set the mood you want with outdoor lighting. We have lamps - pendant, table, floor - lighting chains and lanterns. Almost all of our SOLVINDEN lighting uses solar cells to transform sunlight into electricity, so they won't add to your bills and don't use untidy cables and plugs.

MÄLLSTEN and RUNNEN can even be combined to create your own unique look. Mix and match different colours and materials of RUNNEN and MÄLLSTEN – the possibilities are endless.

# Outdoor flooring

Step out onto your patio or balcony in style and comfort with our easy-to-lay, easy-to-disassemble outdoor flooring collection. Our floor decking can be used as an easy tool to upgrade any patio space and create an

area for lounging and dining. Some of our different floor decking options can even be combined together, if you wish to mix and match!

## Create your personal outdoor flooring

	ALTAPPEN	RUNNEN	RUNNEN edging strip, RUNNEN corner strip	MÄLLSTEN	UTLÄNGAN
Can be combined with:	ALTAPPEN	RUNNEN, MÄLLSTEN, UTLÄNGAN	RUNNEN, MÄLLSTEN, UTLÄNGAN	MÄLLSTEN, RUNNEN, UTLÄNGAN	UTLÄNGAN, MÄLLSTEN, RUNNEN
Size:	30x30 cm	30x30 cm	30x3 cm, 3x3 cm	30x30 cm	60x30 cm
Package quantity:	9 pieces	9 pieces	4 pieces (edging strip) 2 pieces (corner strip)	9 pieces bottom part + 9 pieces top part	5 pieces

## Calculate how many packages you need:

To calculate your outdoor area, multiply the length by the width.

**Example:** Width 3 m × 5 m = 15 m<sup>2</sup>

Calculate any areas to be subtracted from the total area, e.g. for pillars or corners.

### Example:

Corner width 0.5 m × length 1.0 m = 0.5 m<sup>2</sup>

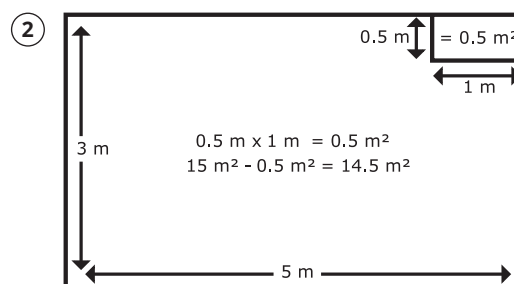

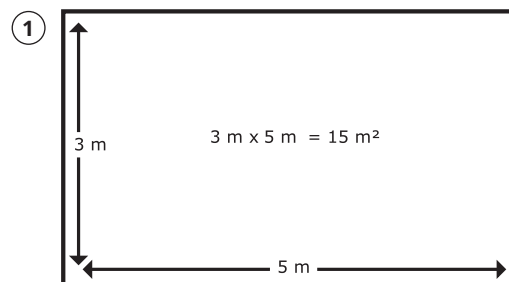

15 m<sup>2</sup> - 0.5 m<sup>2</sup> = 14.5 m<sup>2</sup>

Divide the sum by 0.81 for the square tiles and round up (to ensure enough floor decking):

### Example:

14.5 m<sup>2</sup> ÷ 0.81 = 17.90

**Rounded up to 18 packages.**

Here is a guide with ready-made calculations:

# Maintenance

---

## **Easy-care furniture materials**

Aluminium, plastic, plastic rattan and steel are maintenance-free outdoor furniture materials.

Just make sure to keep the pieces clean with a mild soapy solution. Cover or store them away at the end of the season in a cool, dry place like a garage, carport or basement – especially plastic and plastic rattan pieces that can crack in freezing temperatures.

## **Little-extra-care furniture materials**

Acacia, eucalyptus and other solid woods usually require a little care from time to time. Clean with a mild soapy solution, cover them when not in use and at the season's end, cover or store them away in a cool, dry place indoors. All our wooden outdoor furniture is pre-treated with stain or paint. We recommend re-staining to prevent cracking and extend its lifetime. How often you re-stain depends on location, usage and exposure to the elements. For example, furniture in open air needs re-staining when rain drops are absorbed instead of forming small beads. If painted furniture begins to flake or look worn, repaint or touch up with paint for outdoor use.

## **Care for parasols**

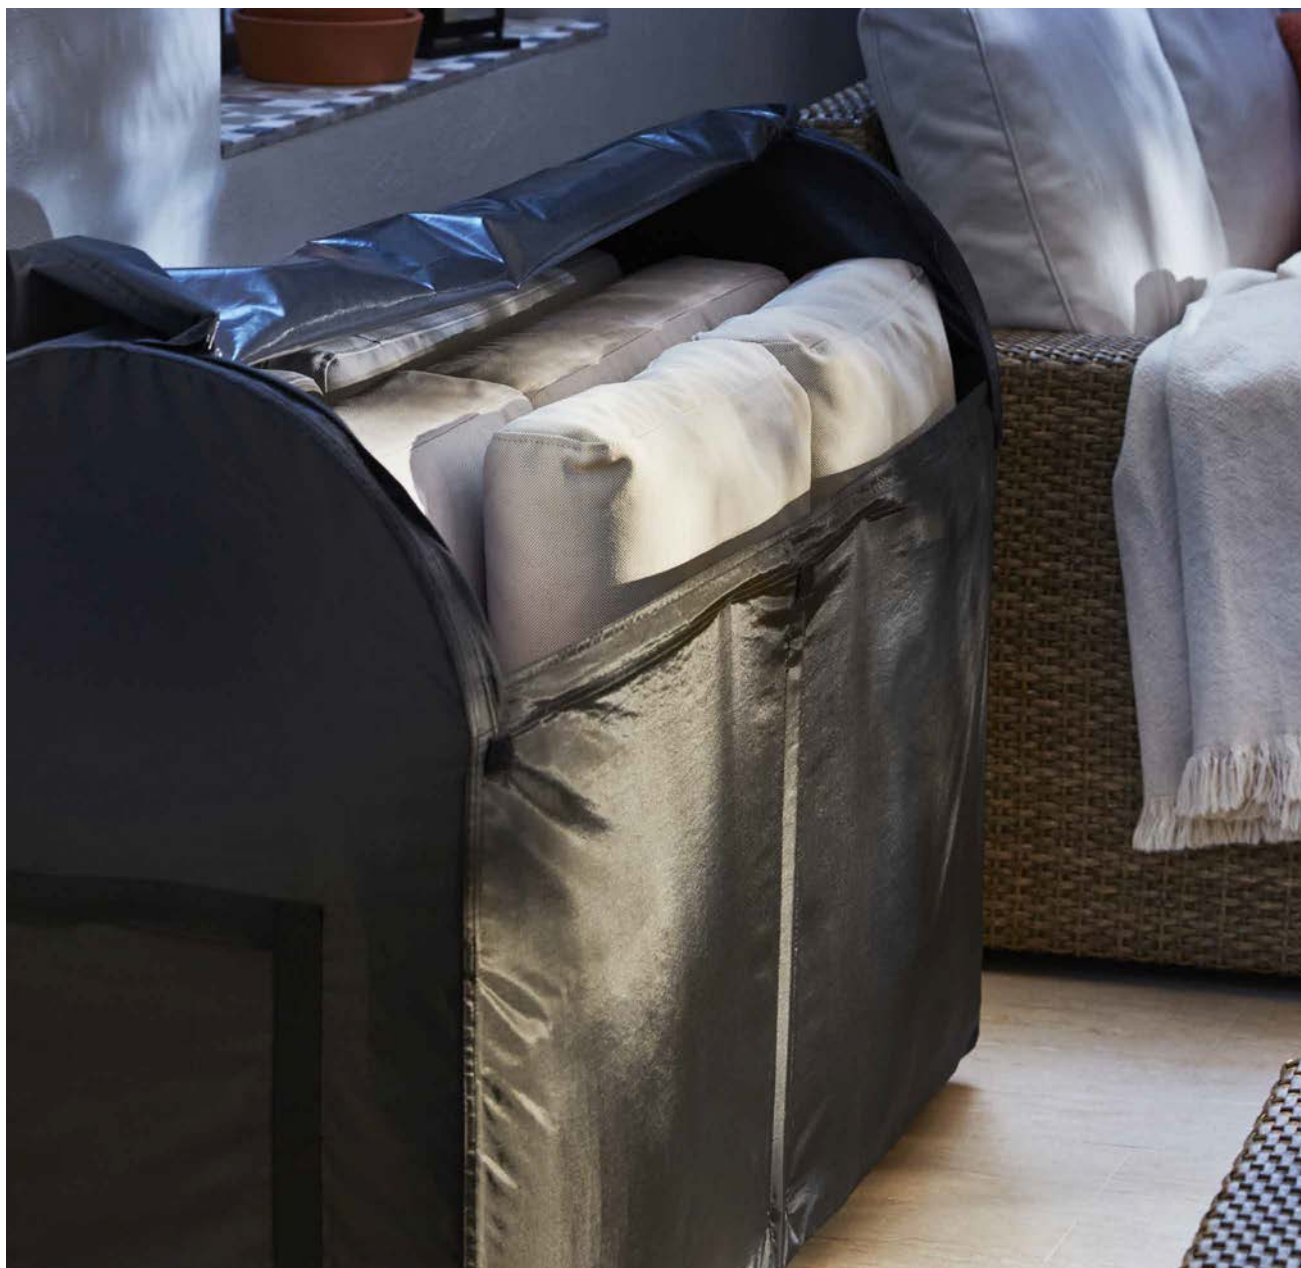

Fold your parasol when not in use, so it will be sturdier against wind. Parasols typically need a thorough cleaning only once a year. Follow the wash label. We recommend protection from dirt, dust, pollen and rain with a cover and storing it in a cool, dry place indoors. Ensure it is completely dry before covering.

## **Care for cushions and pads**

To extend the life of your outdoor cushions and pads, clean them regularly. Follow the wash label. We recommend storing them away when not in use, preferably in a cool, dry place indoors. TOSTERÖ storage bags and box helps keep them in shape. Ensure the cushions are completely dry before you close the bag or box.

# Protect your outdoor pieces

---

With a little help from you, your outdoor furniture can have an extended life. In general, clean outdoor furniture regularly and avoid leaving it outdoors unprotected

more than necessary. If possible, use a water-proof cover like TOSTERÖ and store in a cool, dry place indoors when the season is over.

Covers and maintenance products

**TOSTERÖ cover for outdoor furniture set or a barbecue.** W120xD65xH120 cm. Fits outdoor dining sets with a table and 2 chairs, or a barbecue.

# Made outdoor strong

---

When you're spending time outdoors, we want you to daydream, chit-chat, cat nap and savour delicious flavours. We don't want you to worry about the quality of your outdoor furniture. We've done all the thinking and researching for you, so your pieces will have long lifetimes. From choosing durable materials and adding extra protection against the elements, we treat every outdoor piece like we were bringing it home — in every kind of weather! Read more about our outdoor materials below.

## **Metals**

All metal used in our outdoor furniture withstands rain, snow, low and high temperatures. Lightweight aluminium is a very durable, rustproof material even without any additional treatment. Steel is durable and protected against rust by a powder-coating of paint. Galvanised steel is coated in zinc for protection against rust, and we apply a powder-coating of paint, too.

## **Plastics**

All our plastic and plastic rattan outdoor furniture will look fresh and new for longer because it is both UV stabilised and fade resistant. Plastic and hand-woven plastic rattan are durable and withstand rain, snow, low and high temperatures. In freezing temperatures, they can weaken and are not recommended for use.

## **Solid woods**

All our outdoor wooden furniture is pre-treated to extend the time before you need to maintain it. Acacia and eucalyptus are durable, sturdy hardwoods because of their high density of wood fibres.

## **Textiles and sunshine**

To prevent as much fading as possible from the sun's UV rays, we introduced a production technique, called dope dyeing, for solid-coloured fabric cushions. During the process, the colour pigments become part of the fibre, improving colour fastness. This reduces water consumption by 80% and dyestuff consumption by more than 20% compared to traditional dyeing techniques.

## **Textiles and rain**

Some of our parasols and most outdoor cushions and cushion covers are protected against a light, passing rain shower. We don't use any non-degradable, per-flourinated chemicals on them either, which is better for you and the environment. As for water-repellent outdoor cushions, just shake off water from a light rain. If the forecast calls for weather heavier than a light, passing rain shower, we recommend putting your dry parasol and cushions in a storage box. They'll be better protected, and you'll be able to enjoy them for more sunny days to come!
