

BUYING GUIDE

TROFAST

Storage serie

DESIGN

Mia Gammelgaard/Studio
Copenhagen

MATERIAL

TROFAST frames and shelves are available in solid pine, white foil and black foil. The storage boxes, lids and guide rails are made of plastic.

CARE

You can easily clean TROFAST frames, boxes and shelves with a cloth dampened in a mild cleaner, then simply wipe dry with a clean, dry cloth.

SAFETY

Children rarely do what you expect them to do. They climb, clamber and play with things in ways that are often difficult to foresee. To prevent the furniture from tipping over, always use the safety fittings supplied to secure all storage furniture that is more than 60 cm in height safely to the wall.

Flexible toy storage you can adapt to your needs

Children need room to play – and good storage for their toys, so they can find what they're looking for and tidy up when they're done. That's why we made TROFAST – a flexible series of sturdy wooden frames and lightweight, removable plastic boxes that your child can easily slide out, carry and put back again – all on their own.

TROFAST frames come in different finishes, shapes and sizes. And TROFAST boxes come in different colours and sizes for storing and organising all types of toys, from bigger building blocks to doll's clothes. There are even shelves that fit in the frames, so you can create open storage for books and display.

All the products (shown here) may not be available at the store. Please contact the staff or look at www.IKEA.in for more information. For more detailed product information, see the pricetag and the Internet. All units require assembly.
All Prices in the Buying Guide are subject to change at the sole discretion of IKEA INDIA PVT. LTD.
