The top drawing shows a perspective view of a rectangular box with internal dividers. The box is shown from a three-quarter angle, highlighting the top and side panels. The internal dividers are visible, creating three compartments. The bottom panel is not yet attached.

The bottom drawing shows the same box from a similar perspective, but now the bottom panel is attached, completing the structure. The internal dividers are still visible, and the box is shown in a three-quarter view.

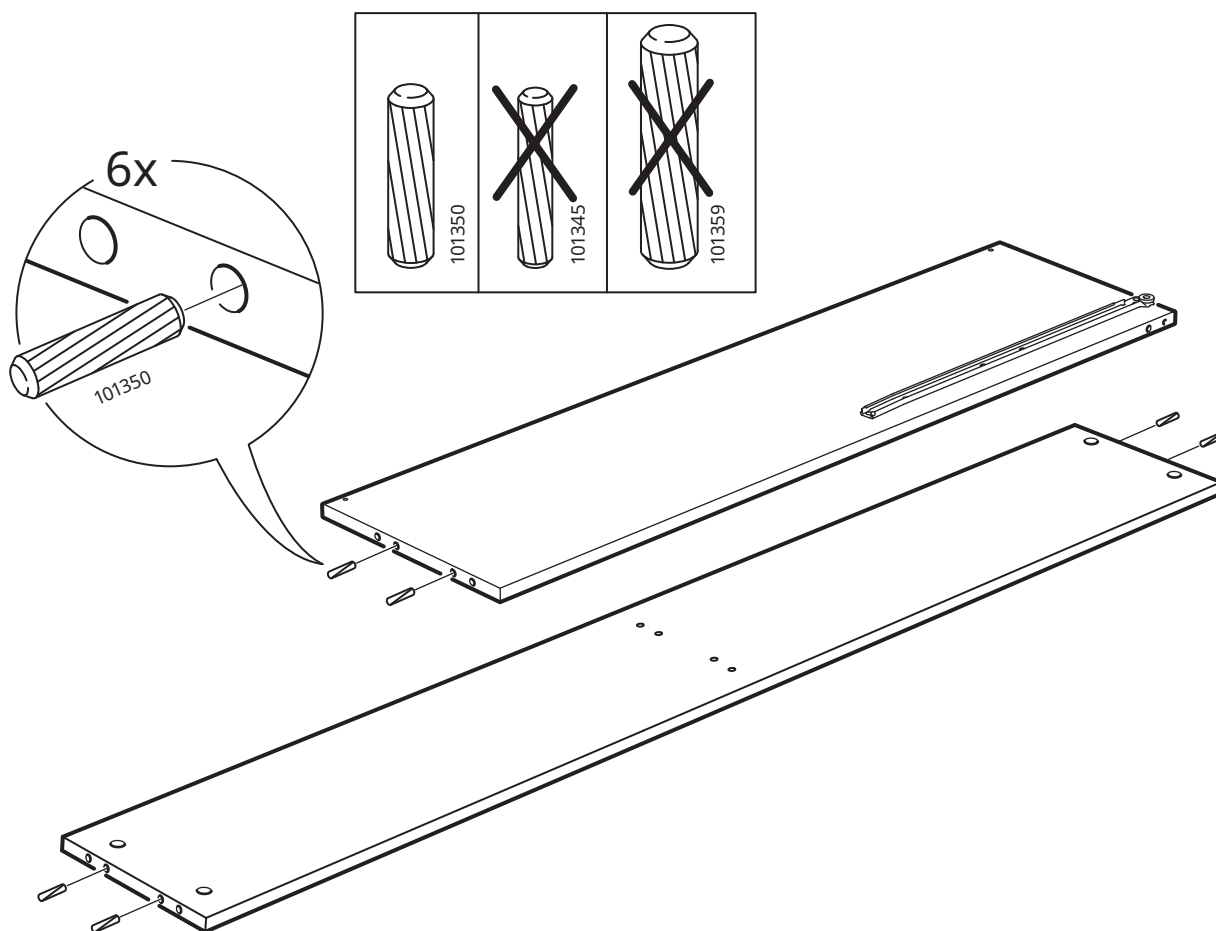

Diagram illustrating the correct installation of a screw. The top left shows a comparison of two screw types: 100365 (correct) and 100359 (incorrect, marked with a cross). The main diagram shows a screwdriver driving a 100365 screw into a plate labeled 118231. A hand points to the 'CL' label on the plate, and a '3x' indicates three screws are needed.
