Impactful Launches **April 2021**

You're one idea away from a home upgrade

What if you could fold down the walls of your home and let all the best things about your neighbourhood become a part of your home, too. What would that feel like?

Lately, we've all been seeing a lot more of home. At its best, it's been a reminder about why we live where we do. Why our neighbours matter to us. And the little things that make our hometown special for each of us.

This seasonal launch is for those who want to engage with the space they live in. Who want to explore, enrich and improve their home. It could be one small change, opening up new possibilities from which a bigger project emerges. One thing can quickly inspire another.

You're one shelf away from that little bistro

Big dreams start with small things. Like wishing you had fresh herbs to pluck when you're creating your favourite dishes. And just like your favourite bistro, the best ideas just seem to work effortlessly.

This is the dream of a kitchen that works and breathes with you – everything only an outstretched arm away, easy-to-see, easy-to-sample, easy-to-enjoy.

New RISATORP basket ₩7,900 304.957.78

Nurture your kitchen dreams

Helping your own plants to grow is slow-mo satisfaction. It can begin with that first herb brought home from the supermarket. Keeping it alive just requires daylight and water – both easy to achieve. When your herbs start giving back, a project can grow with your confidence. Soon you'll be one shelf away from a bistro.

TOMAT spray bottle ₩1,500 604.760.09

One find away from a farmers' market

Finding just the right vegetables and herbs is like a treasure hunt. The fun is in the finding. But when you get them home, do they just end up straight in the fridge? Time for a rethink.

Creating a circular, sustainable kitchen is simple. With a few easy updates, you can store and recycle your food so you get the best flavours while wasting as little as possible of all that goodness.

Bamboo – a fast-growing and renewable material that is durable and looks and feels great – is the perfect base for a sustainable kitchen in which nothing gets wasted.

A circular food journey in your kitchen

Making the most of the food you buy sometimes comes down to having the right tools. A washing-up basin and colander fitted to your sink make preparing your veggies easy.

Meanwhile, a waste sorting system below the sink allows you to recycle leftovers and off-cuts into compost – so that even the waste from your favourite foods isn't wasted.

Get inspired by sight and smell

Keeping many fruit and vegetables outside the fridge is actually a better way to preserve their flavour and allow them to fully ripen. These 100% cotton net bags are a simple, healthy way to keep your food looking and smelling good.
