

IN-HOME MEASURING & PLANNING SERVICE

For **only \$99**, our qualified home planners will measure your space and prepare a kitchen or laundry plan for you in the comfort of your own home.

Terms and conditions:

The service

This is a 'measure and plan' service completed by trained IKEA kitchen planners. Additional interior design, colour co-ordination and soft furnishing advice is not included.

Payment for the service can be made in-store or over the phone by calling us as follows:

Perth: (08) 9201 4621 Adelaide: (08) 8154 4462

Kitchen or laundry plans created at the appointment are accessible online for up to 12 months from the date of the plan creation.

The appointment duration for this service is for between 2 and 3 hours and covers planning of one room.

Appointments requiring a longer visit or for additional rooms will require payment of an additional fee.

At the end of the appointment, you will receive the following:

- A completed kitchen or laundry plan
- A price estimate (for any products or services required)
- Information detailing how to proceed with your order and kitchen/laundry installation

The Home Planner may make one minor change to your completed plan free of charge, e.g. a door finish or handle change, or a change to the internal function of a cabinet. Correction of errors will be made at no additional cost and may be requested by the customer by emailing the Home Planner within 14 days.

Any change requests which require the re-planning or re-quoting of your kitchen or laundry must be submitted in writing by email to your Home Planner and will incur an additional fee of \$50 per hour plus GST to action the changes. This fee is payable directly to the Home Planner.

Customers must provide 24 hour notice for cancellation of an appointment.

The Installation Services offered by the Home Planner are provided by professional and qualified independent contractors. IKEA is not commercially involved in this transaction.

All product prices are valid for the IKEA catalogue year.

Preparation for the home visit

It is important that you are as prepared as possible before the planner arrives. This will ensure that you receive the best possible plan and service and an accurate price estimate. We require that you acknowledge the following:

1. The 'IKEA Kitchen Planning Checklist' (reverse side) must be completed prior to your appointment. This should be done in consultation with any other key home decision maker (e.g. husband/wife/partner).
2. The customer will ensure sufficient site access time is available for the home visit (ideally 2-3 hours site access time is required to complete a plan. A table and chair should be available for the planner to work at)
3. To ensure that all decisions can be finalised during the 2-3 hour home visit, all key home decision makers (e.g. husband/wife/partner) should, if possible, be present at the home visit.
4. If structural changes (e.g. removing walls, etc) are required, the customer should discuss these with a qualified builder prior to the home visit. IKEA planners are unable to give advice on structural changes.

Your details:

Name _____ Preferred Appointment Day and Time _____
