**QUALITY**

**DRAWERS.**

All our RATIONELL kitchen drawers are fully-extending, giving you an overview of what’s inside and putting everything within easy reach. Your kitchen drawers have to put up with a lot, so to make sure they can hold their heavy load we fit a 24” wide kitchen drawer with 18 lbs and then open and shut it up to 300,000 times. And sometimes you happen to lean on the drawer, so we test that too, with a 55 lbs weight 10 times for 10 seconds each. The drawers still glide softly and return to their closed position.

**SHELVES.** Every shelf means using a lot of equipment, and over time you often find yourself with more and more things you need to store. To make sure the shelves in your kitchen cabinet shouldn’t sag we put 60 plates weighing approximately 59 lbs on a 30” wide shelf and keep them there for a week. It’s just something shelves should be able to withstand.

**WIRE BASKETS.**

The 24” wide RATIONELL wire basket can hold 36 lbs. That’s about the same as 12 three-litre pans. And the basket is smooth-running and has a low front, making it easy to put things in and take them out. For safety sake, there’s even a pull-out stop. Perfect qualities for a cabinet for storing your pots and pans.

When everything has a place, kitchen work is easier and more fun. Plan where you want to store food, cook and wash up. The utensils you need should be where you use them most. With interior fittings you can organise your cabinets and drawers so you can easily find what you’re looking for. You can even put the wall space above your worktop to use by hanging rails for your utensils.

The interior fittings in the RATIONELL series are designed to fit perfectly in the drawers of the same name and in AKURUM frames. The RATIONELL VARIERA series can be used anywhere in the kitchen.

Together, they help you create a kitchen that’s easy to work in, functional and well organised. You can make maximum use of every space, and with a little planning, you can even have everything close at hand. If everything is easy to find and reach, you save time and spare your back. And it makes working in the kitchen much more fun.

An active kitchen means a lot of kitchen tools. Therefore, we also have storage solutions that you can mount on the wall. They help you make use of the empty space above your worktop and keep all your utensils close at hand. It’s also a great way to free space on the worktop and sinktop. We have wall accessories in many different styles and materials. Everything from durable stainless steel to warm soft wood.
**GOOD TO KNOW**

**EVERYTHING IN ITS PLACE**

1. **Easier cooking**
   If you put RATIONELL fully-extending drawers near the hob, you can have your spices, oil, pastes and utensils close at hand when you cook. Everything will be easy to see, find and reach – even things at the back of the drawer.

2. **Smart storage near the cooker**
   If you fit your base cabinet with RATIONELL pull-out storage you will have fast and easy access to the contents. Put it near where you prepare food, so you always have your spices jars, kitchen knives, oil and aluminium foil close at hand.

3. **Easy to reach – from two directions.**
   High cabinets with fully-extending drawers mean that you: never need to stretch too far, get a good overview, can reach – even things at the back of the drawer.

4. **Rotation gives an overview**
   The spacious fully-extending drawers have room for cutlery trays, plate holders, napkins and salad bowls. Everything you could possibly need to set the table. If you place the drawers in a base cabinet near your dining table, setting the table will be both faster and easier.

5. **Sort waste at the sink**
   There is plenty of room under the sink for RATIONELL waste bins. Practical, since that’s where you rinse dishes, peel fruit and toss rubbish. If you put them in a pull-out tray unit or a fully-extending drawer, waste sorting will be easy.

6. **Use the wall**
   Do you need more work space in your kitchen? Then, consider putting up a series of wall accessories above your worktop. There you can hang everything, from dish washing brushes to cutlery stand, kitchen utensils and clothes. Everything will be close at hand – and ready when you need it.

7. **Make setting the table easier**
   The spacious fully-extending drawers have room for cutlery trays, plate holders, napkins and salad bowls. Everything you could possibly need to set the table. If you place the drawers in a base cabinet near your dining table, setting the table will be both faster and easier.

8. **Organise your wall cabinet**
   Do you want to organise the inside of your wall cabinet? Then, take a close look at all the smart storage solutions in the RATIONELL VARIERA series. Combined with RATIONELL adjustable shelves, they help you organise everything, big and small.

WALL ACCESSORIES THAT FREE UP SPACE

You will find more practical and stylish wall accessories that free up space at your IKEA store. Choose from series like ASKER, BYGEL, FÖRHÖJA, GRUNDTAL and KROKEN.

Freedom in the kitchen. Washing up and preparing food requires worktop space. Create a place for everything within easy reach. Attach cutlery and dish drainers to a rail, store knives on a magnetic rack and hang your dishwasher brush on an S-hook. You can even hang up your kitchen roll holder. GRUNDTAL offers many more possibilities.

Tired of the sound of kitchen drawers slamming shut? Then, click on RATIONELL drawer damper to the drawer rails. They cushion the closing action and ensure that RATIONELL drawers close slowly, softly and quietly – regardless of how much force you use, or what you have inside. It feels nicer, too. RATIONELL drawer damper $13

Want to make maximum use of your high cabinet? With INTEGRAL hinges you can open the door a full 153° and use fully extending drawers in the cabinet. That will give you plenty of room, a good overview of what’s inside and make it easy to reach what you need. Total size: W34”xD24”xH84” This drawer combination $341

Finally, it’s simple! A pull-out fitting makes it just as easy to get the vacuum cleaner out, as it is to put away. It fits high cabinets, is ideal for areas such as your kitchen or laundry room, and can be fitted to the left or the right. Wire shelves give you a clear overview of things like vacuum cleaner bags and cleaning equipment. Pull-out interior fitting $175

Keep things on the wall. The ASKER series contains many smart wall accessories that help you make more room on the worktop. Here you will find everything, from a magnetic knife rack and hooks to a cutlery stand and containers for your dishwashing things – and on the wall, everything is easy to reach.

Keep things on the wall. The ASKER series contains many smart wall accessories that help you make more room on the worktop. Here you will find everything, from a magnetic knife rack and hooks to a cutlery stand and containers for your dishwashing things – and on the wall, everything is easy to reach.

Everything within easy reach, with for example your spice rack and utensil hooks on a wall-hung rail. The cutlery stand makes an ideal pot for growing herbs. The same series also includes a kitchen roll holder, a magnetic knife rack and a ceiling-mounted utensil rack as well.
