WORK CHAIRS

Work chair with a perfect fit
Choosing the right work chair is easy if you know what you need. Think about what kind of activities you will do in the chair – computer work, drawing, bill writing? And how much time you will spend sitting in it. A basic height-adjustable chair may offer the comfort you need for shorter periods. But for fulltime work, you might need one with more adjustable features to help you vary sitting positions. Do you have special needs, e.g. want relief for your back, support for your arms and shoulders? What style do you like? Let your answers to these questions guide you to the perfect work chair for you.

Can take a tough day at work
A chair that is tested for office use fulfils high requirements on ergonomics, stability, strength and durability. We know, because we put the chair through many different tests and tough challenges. For example, we sized the chair according to both European and American measurement requirements, subjected it to heavy loads and tested the endurance of each part – up to 300,000 times. We did all this to make sure it would be comfortable to sit in, safe to use and capable of enduring fulltime deskwork – for many years.

Requires assembly
1. If you sit at the right height, both your back and legs get the support they need. Your legs should be at a right angle when your feet are flat on the floor. Do you share the chair with other people? With a height adjustable seat, people of all heights can sit comfortably.

2. It doesn’t matter if you’re short or tall. With an adjustable seat depth or a height adjustable backrest you can try out different depths and heights and get exactly the support your legs and back need.

3. A chair with tilt function makes it easy to change sitting position, regardless of whether the tilt function is in the seat or the backrest—or in both places. Locked position or comfortable resistance? Adjust the tilt tension to suit your movements and your weight. The right setting increases both stability and the support you get when you tilt—forward or backwards.

4. The small of the back is where we usually feel the first onset of tiredness. A chair with built-in lumbar support gives you support and relieves pressure on your back.

5. Armrests reduce the strain on both your arms and shoulders. If the armrests are adjustable, it’s even easier to reduce the strain—regardless of how tall or short you are. Make sure that the armrests do not prevent the chair from being drawn close to the desk, nor restrict natural movements.

6. If you’ve been sitting at your desk for some time, it may feel nice to lean back and change your position for a moment. With a headrest on your chair, your head and neck also get a little well-deserved relaxation.
GOOD TO KNOW

Height adjustable seat for a comfortable sitting posture regardless of body height.

Adjustable seat depth; easy to adapt for increased support to your thighs and back.

Height adjustable backrest; gives lumbar support and relieves strain on your back.

Lockable tilt function for increased stability in different sitting positions.

Adjustable tilt tension; increase or decrease the resistance to suit your movements and weight.

Synchronised tilt function in seat and backrest; the chair follows your movements when you lean forward or back.

Height adjustable armrests; adjust to relieve strain on your arms and shoulders even more.

VISITOR’S CHAIRS AND CONFERENCE CHAIRS

ACCESSORIES

KOLON floor protector. 120x100 cm (47¼x39⅜”). Suitable for most types of floors and flat-woven rugs. Not suitable for cork floors or heated wooden floors. If the floor protector is left lying on the floor for a long period a vacuum may form and cause damage to your floor. Therefore, lift the floor protector at regular intervals for ventilation.

448.811.00 $29.99

ALBERGET carpet protector. 120x100 cm (47¼x39⅜”). Suitable for flat-woven rugs or low pile carpet up to 3 cm (1¼”). This felt-rear helps you lift in a good working position at your desk and reduces strain on your legs, back and neck.

Black 402.409.95 $17.99

ÖRFJÄLL foot-rest. W38xL49xH15 cm (15x19¼x5⅞”). This foot-rest helps you sit in a good working position at your desk and reduces strain on your legs, back and neck.

Black 459.402.48 $17.99

DAGGYTO foot-rest. W38xH49xL15 cm (15¼x19¼x6¼”). This foot-rest helps you sit in a good working position at your desk and reduces strain on your legs, back and neck.

Black 402.409.95 $17.99
