### Reliable favourite

BEDDINGE sofa-bed is practical and comfortable around the clock. It's a sofa by day, bed by night – and also has a storage box, sold separately, that you can use for bed linen. Four different mattresses and several removable covers make it easy to create the combination you like best. The durable frame and mattresses make BEDDINGE a reliable favourite.

### Four ways to be comfortable

You choose one of four mattresses, LÖVÅS, MURBO and HÅVET, to go with your BEDDINGE sofa-bed. They all have different characteristics, from a soft spring mattress to firm polyurethane foam. No matter what kind of mattress you prefer for sitting and sleeping, you'll find one that suits you. Test them yourself to find the one you like best. Whichever mattress you choose, it will be so durable that you will be able to use it day and night.

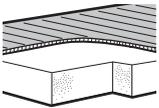

# HOW TO CONVERT

Lift up and push the seat backwards – click! Then fold down the seat until you have a flat sleeping surface – clac! It's that easy to convert **BEDDINGE** into a 140x200 cm bed. When

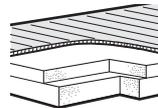

you want to return it to a sofa again, first lift up the seat, then pull it down again. The design is so simple, it will be a pleasure to live with, every day – and night.

# COMFORT MATTRESSES

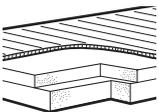

## LÖVÅS

A firm, yet supple polyurethane foam mattress that will provide your body with both support and sleeping comfort. The mattress is 12 cm thick and has a removable, dry-clean cover.

## MURBO

The top layer of high resilient foam shapes itself to your body, allowing your spine to remain straight and your sleeping position to be more relaxed. The resilient foam also makes the mattress very durable. The bottom layer consists of polyurethane foam. The mattress is 12 cm thick and has a removable and machine washable cover.

## HÅVET

Latex and high resilient foam combine elasticity with the ability to mould to the contours of your body. Latex is a material which improves air circulation and allows moisture to evaporate naturally. The mix of materials makes the mattress both pliable and long lasting. The top layer consists of latex and the bottom layer of high resilient polyurethane foam. The mattress is 12 cm thick and has a removable and machine washable cover.
