BUYING GUIDE

INTEGRATED KITCHEN LIGHTING

Good, functional lighting
Lighting is important in all kitchens, both for safety and appearance. Good, even lighting across your countertop makes cooking and other kitchen chores safer, easier and more fun. And spotlights, cabinet lights and drawer lighting doesn’t just help you find what you’re looking for, but adds a decorative element to your kitchen.

At IKEA, we have two series of integrated lighting: UTRUSTA and OMLOPP. The UTRUSTA series has corner modules as well as electrical and USB outlets. The OMLOPP series has a slim design and is easy to install. If you like, you can combine the series to fit your needs. Add the remote control to dim, and set the mood for every occasion.

HOW TO PLAN

Planning or updating your kitchen?
No kitchen is complete without good, functional lighting. That’s why it’s a good idea to include lighting when you’re planning and buying your kitchen. It makes it easier to install and saves you lots of time and effort. But what if you just want to improve the lighting in your current kitchen? Don’t worry, we have solutions for that, too. Remember that all kitchens are different – plan for your own needs!

Start by deciding where you want lighting in the kitchen. Then decide which lighting system will suit you and your kitchen best. Start by choosing your preferred countertop lighting. Then add spotlights, cabinet lighting and drawer lighting.

Check out our offer below:

LED Countertop lighting
At IKEA, we have 2 integrated lighting series – UTRUSTA and OMLOPP. Both give you task lighting, mood lighting, and are dimmable. You save energy too, since both series use LEDs, which consume 85% less energy and last up to 20 times longer than a regular incandescent bulb.

USE: UTRUSTA, OMLOPP.

Spotlights and cabinet lighting
Spotlights are a decorative and functional choice for wall cabinets with glass doors. They make it easy to look inside your cabinets and brighten up your kitchen at the same time.

Cabinet lighting is easy to choose, as it comes in different versions to match both modern and traditional styles.

USE: OMLOPP, FORMAT, URSHULT, LINDSHULT, MAGLEHULT.

Drawer lighting
OMLOPP drawer lighting switches on and off as you open and close your drawers. No more hide and seek with your kitchen equipment!

USE: OMLOPP.
## HOW TO PLAN

* Must be installed by a qualified electrician.
** ANSLUTA transformers and cords are sold separately.
*** The light output is per 15¾” countertop light; for the other sizes see the price tag.
HOW TO BUILD

UTRUSTA LED countertop lighting

UTRUSTA LED countertop lighting is hardwired and must always be installed by a professional electrician. See the list below for all parts and accessories that you need.

- Start from the left with UTRUSTA LED countertop light with power supply.
- Count how many units you need for your kitchen.
- Use max. two 2 outlet power strip with USB port. You can connect up to 10 units to one countertop light with power supply.
- Add a remote control to dim lights in 2 steps. The whole combination will turn on and off at the same time.

If you have more than 10 units, you need to add one more UTRUSTA LED countertop light with power supply.
HOW TO BUILD

OMLOPP LED countertop lighting

OMLOPP LED countertop lighting is easy to install by yourself. See the list below for all parts and accessories that you need.

Start by choosing the number of OMLOPP light strips that you need.
- Add the correct ANSLUTA transformer: 10W or 30W.
- Add the power cord.
- Add a remote control to dim lights in 2 steps. The whole combination will turn on and off at the same time.

If you want, you can complete the system with other products, like spotlights, drawer lights or cabinet lights.

Basic parts

OMLOPP LED countertop light
Length: 15", 18" and 24"
Color: white and aluminum

ANSLUTA electronic transformer
Power: 10W and 30W.

ANSLUTA power cord
Length: 11'6"
Color: white

ANSLUTA remote control
Diameter: 3/4"

Installation accessories

ANSLUTA intermediate connection cord
Length: 28" or 79"

ANSLUTA transformers

1. 10W, 3 connection points.
2. 30W, 9 connection points.

There are 2 different transformers in the ANSLUTA series. You choose a transformer based on how many units you want to connect. You can add up to 3 different lighting units to the 10W transformer, as long as the total wattage does not exceed the 10W limit.

The 30W transformer can support up to 9 different lighting units, as long as the total wattage does not exceed the 30W limit. You can hide the transformer on top of your kitchen cabinets. If you want to use more than 1 transformer, make sure to synchronize each transformer with the remote control so that the entire combination can be turned on and off at the same time.

To find the power consumption (watt) for each product, see All Parts and Prices on page 14.
HOW TO BUILD

LED Spotlights and LED cabinet lights

Start by choosing all parts that you need.
- Add the correct ANSLUTA transformer: 10W or 30W.
- Add the power cord.
- Add a remote control to dim lights in two steps. The whole combination will turn on and off at the same time.

Basic parts

OMLOPP LED spotlights or LED cabinet lights*
Round spotlight: Ø2¾". Rectangular spotlight: L8".
Color: white, aluminum and black.

ANSLUTA electronic transformer
Power: 10W and 30W.

ANSLUTA power cord
Length: 11’6”.

ANSLUTA remote control
Diameter: 3¾”. Color: white.

* You can use FORMAT, URSHULT, LINDSHULT and MAGLEHULT.

ANSLUTA transformers

1. 10W, 3 connection outlets.
2. 30W, 9 connection outlets.

There are 2 different transformers in the ANSLUTA series. You choose a transformer based on how many units you want to connect. You can add up to 3 different light units to the 10W transformer, as long as the total wattage does not exceed the 10W limit.

The 30W transformer can support up to 9 different light units, as long as the total wattage does not exceed the 30W limit. You can hide the transformer on top of your kitchen cabinets. If you want to use more than 1 transformer, make sure to synchronize each transformer with the remote control so that the entire combination can be turned on and off at the same time.

To find the power consumption (watt) for each product, see All Parts and Prices on page 14.
HOW TO BUILD

Combining with OMLOPP

You need ANSLUTA electronic transformer and ANSLUTA power cord. Add ANSLUTA intermediate connection cord if you’re using more than one transformer.

Connecting to UTRUSTA

UTRUSTA LED countertop light system has 4 connection outlets for other units, so you don’t need to buy a separate ANSLUTA transformer. You just need to synchronize your ANSLUTA remote control to dim your entire lighting system.
HOW TO BUILD

LED Drawer lighting

Start by choosing all parts that you need.

- Add the correct ANSLUTA transformer: 10W or 30W.
- Add the power supply cord.

The LED light strip has a motion sensor, so that the light turns on and off automatically as you open and close the drawer.

Basic parts

OMLOPP LED light strip for drawers
Length: 14", 17", 23", 29" and 34".
Perfect for your 15", 18", 24", 30" or 36" SEKTION cabinets.

ANSLUTA transformer
Power: 10W and 30W.

ANSLUTA power cord
Length: 11’6”.

ANSLUTA transformers

There are 2 different transformers in the ANSLUTA series. You choose a transformer based on how many units you want to connect. You can add up to 3 different light units to the 10W transformer, as long as the total wattage does not exceed the 10W limit.

The 30W transformer can support up to 9 different light units, as long as the total wattage does not exceed the 30W limit. You can hide the transformer on top of your kitchen cabinets. If you want to use more than 1 transformer, make sure to synchronize each transformer with the remote control so that the entire combination can be turned on and off at the same time.

How to install

Buy a separate transformer for your drawer lights. It will be easier to install. Add ANSLUTA intermediate connection cord if you have more than 1 transformer.

To find the power consumption (watt) for each product, see All Parts and Prices on page 14.

You can do it yourself, but you don’t have to.

Sometimes a little help is all you need to turn a dream into a reality, which is why we offer a wide range of services to help you along the way. Maybe you just need a little help, or perhaps someone to do the whole job for you. Either way we’re here to help, and are happy to put together a service package that’s just right for you. Of course, the more you do yourself, the lower the price will be. And the more you ask us to do for you, the more you can sit back and relax.

**DELIVERY SERVICE**

We can arrange delivery (by an independant company) of your purchases, directly to your home or business. Same day and next day deliveries are available.

**PICKING AND DELIVERY**

We will collect the products on your shopping list from throughout the store and arrange delivery (by an independant company) of everything to your home or business.
