SAFETY
Secure It! Prevent tipover injury. Furniture with included restraints must be secured to the wall according to the assembly instructions.

Different wall materials require different types of fixing devices. Use fixing devices suitable for the walls in your home (not included).

Tempered glass should be handled with care! A damaged edge or a scratched surface can cause the glass to break suddenly. However, only into small pieces, never into sharp fragments.

Shelves for every need
From EKBY shelf bar you can choose the shelves and brackets you need, and make maximum use of the walls to store or display your things. Create your own combination with shelves in a style you like and complement with personal brackets — most are reversible and can be turned the other way around so you can use them for shelves of different depths. EKBY is suitable for all rooms in the home, except wet rooms, so feel free to be creative.

Choose fixing device to suit your wall
It’s the fixing devices to the brackets that determine how steady and stable your EKBY wall shelf will be. Different wall materials require different types of fixing devices — that’s why we don’t include them with our brackets. Instead, it’s important that you choose fixing devices that are suitable for your wall. If you don’t find what you need in the FIXA range, we recommend you contact your local hardware store. With the right fixing devices, your wall shelf will be a safe place for your favorite things.
COMBINATIONS

Shelf is solid wood which is a durable natural material. Use three EKBY brackets or two EKBY brackets when placed a maximum of 31½". 
W46⅞×D11". Max load: 33 lbs
This combination $34.99 199.267.17
