OMAR
Storage system

Simple to build and easy to personalize
In the spacious OMAR storage system, there’s plenty of room for both small and large items. Start by thinking about what you want to store. Then combine shelf sections and bottle shelves the way that suits your space best. You can build upwards and to the sides – without tools. You get stability with connection hardware and you can move the shelves as you like. For small items, there are practical clip-on baskets and a metal shelf liner that makes the shelf solid.
