

# Baby sleep

## Cribs, mattresses and accessories

### **Safety and comfort for your little one**

It's wonderful to be a new parent but it can also be rather worrying. That's why our cribs are rigorously tested to ensure they meet the strictest safety standards that exist in the world. Our cribs are durable and stable, and they adjust to fit babies as they grow so quickly. So you can sleep like a baby, too.

### **For sweet dreams and safe sleeping**

No parent should have to choose between affordability and their little one's safety and comfort. That's why we designed our crib mattress range. Every single one of our firm, well-ventilated crib mattresses meet strict safety standards. So it's not only your little one who will be resting well at night.

A high standard of accuracy has been sought in the preparation of this buying guide. We apologize for, but will not be bound by or responsible for, errors and omissions in this buying guide.

Not all products may be available in all stores. See what is available at your local store by visiting [IKEA-USA.com/stockavailability](http://IKEA-USA.com/stockavailability). For more detailed product information, see the price tag or visit [IKEA-USA.com](http://IKEA-USA.com). All products shown require assembly. All textiles shown are imported.

# SAFETY IS OUR TOP PRIORITY

## Children's safety is always our highest priority

Our products are designed and tested to comply with all applicable safety requirements in the countries where the products are sold. We also test all our children's products at our own accredited test laboratory in Sweden, as well as at independent accredited test laboratories and institutes around the world.

IKEA fulfills the following safety criteria for cribs and mattresses around the world. If you want to learn more about a specific safety or test standard, please contact the U.S. Consumer Product Safety Commission (CPSC) or the authority that has issued the standard.

## How are our cribs tested?

All our cribs undergo several different tests to ensure they are safe to use. First, they are inspected for any protruding parts, loose parts or fittings, and sharp edges. Then, all gaps and openings between spindles and the slats in the crib base are measured. The crib is tested with impact and pressure tests for strength, stability and durability and to ensure that the spindles will not twist or rotate from their position and create potentially hazardous openings. The crib base is also tested. For example, in a test for the European market, we subject the crib base to impact from a 10 kg weight that is dropped 1,000 times from five different positions.

The same or similar tests are made on crib bases for cribs on all markets where we are active, but the tests may differ somewhat, depending on the specific requirements of the respective country.

## GOOD TO KNOW

1. No small components that can be removed, or worked loose, to eliminate the risk of choking.
2. Rounded edges and corners.
3. Ventilated crib base to avoid fungal growth.
4. Strong crib base.
5. The gap between the spindles is designed for optimum safety (babies cannot get their head stuck between them).
6. Stable, durable construction.
7. Non-toxic materials and surface treatment.

# HOW TO CHOOSE A CRIB

## Identify individual needs

Both you and your baby will sleep better if you use a crib for the baby. A crib is an enclosed, yet well-ventilated, sleeping environment that your baby cannot roll out of and will not get too warm or uncomfortable in. Most infants sleep deeply and are not easily disturbed by noise, voices or music. However, they do not sleep for long periods at a time and wake up frequently. The enclosed sleeping environment of a crib helps your baby feel sheltered and protected.

In our selection you can find cribs with a traditional touch or cribs with modern shapes. Choose according to your style so it fits with your home.

## Designed to grow with your baby

Different living situations require different solutions – but all babies grow fast. That’s why most of our cribs are designed so that one side can be removed when the baby is big enough to climb into/out of the crib, transforming it into a bed.

1. When the baby is very small the base can be placed at the higher position.

2. As soon as the baby starts to sit by themselves, place the base at the lower position.

3. When the child is big enough to climb into the bed, one crib side can be removed.

## CRADLE

**SOLGUL Cradle with sleeping pad** L33¾×W26×H20¾". It's not always easy for a small baby to settle down and fall asleep. One of the oldest tricks in the book is to softly and calmly rock the small child back and forth. So when we developed SOLGUL cradle, we were inspired by older cradles. But to ensure that your baby will always sleep comfortably and safely, we carefully researched the movements and tilt of the cradle, and followed the toughest safety requirements for stability and durability.

White 903.624.26 **\$79**

## COMPLEMENTARY PRODUCTS

Add extra comfort and coziness to your baby's sleeping space.

**HIMMELSK Bed canopy** A bed canopy gives privacy and creates a room-in-room feeling.

White 803.196.31 **\$14.99**

**KLAPPA Mobile** Movement and sharp contrasts stimulate the baby's eyesight.

Yellow 803.658.16 **\$7.99**

# HOW TO CHOOSE A CRIB MATTRESS

## 1. Choose your materials

Choose between spring or foam. All materials are safe and hygienic. If you are unsure ask yourself: what type of mattress do you prefer to sleep on?

**Spring mattresses:** The spring mattresses are made with a pocket spring construction. The construction of spring crib mattresses allows air to flow freely, promoting good air circulation and a favorable sleeping climate. A protective foam box adds comfort and durability.

**Foam mattresses:** The foam mattresses use quality polyurethane or high resilience foam, which are well cut, durable and intended for sleeping therefore making both a safe choice for crib mattresses. High resilience foam is durable, relieves pressure points, and provides comfort and support for your growing baby.

## 2. Identify individual needs

How many years do you think you will use your crib mattress? The longer you plan on keeping the same mattress will affect which mattress you should choose. If you want to use the same mattress into the toddler years, a thicker and more durable mattress will provide better support for older babies and toddlers, who like to stand and bounce in their cribs.

## 3. Choose your mattress

On the following pages you will find all of our baby mattresses offered, along with detailed facts for each.

## GOOD TO KNOW

1. All our crib mattresses are firm, to provide a safe sleeping environment for your baby.
2. All mattresses provide some pressure relief, because they are made with materials like pocket springs or high resilience foam.
3. Well ventilated cover aid better air circulation.
4. All children's mattresses promote good air flow, thanks to carefully considered choices in materials and construction.
5. Removable and machine-washable covers create a hygienic sleeping environment for your baby.

# ALL CRIB MATTRESSES AND PRICES

All our crib mattresses are made of safe, durable materials. Free from harmful chemicals and well-ventilated, they all provide a safe and comfortable sleeping environment for your baby. Some have handles that simplify making the bed. The materials have various properties. Foam is elastic and distributes your baby's body weight evenly. So does high resilience foam, but it also regains its shape faster and lasts

longer. Spring mattresses have wrapped pocket springs that follow the baby's movements exactly.

For your baby's safety, always use the same size on crib and mattress to avoid gaps that the baby's head could become trapped in.

## FOAM MATTRESSES

### Care instructions

Cover:

**PELLEPLUTT** This mattress is made of 2¾" thick foam and has the same, smooth surface on both sides. You can easily turn it over if you like. The cover can also be removed and machine washed at 140°F.

52×27½"

003.480.29 **\$45**

### Care instructions

Cover:

Inner cover:

Wipe clean with a damp cloth.

**KRUMMELUR** This 3½" thick mattress has two different surfaces one wavy side with medium-firm comfort and one smooth side which is firmer. The structure of the foam makes the mattress comfortable and well-ventilated, which provides good support and a pleasant sleeping environment for your baby. The cover is also easy to remove and can be machine washed at 140°F.

52×27½"

### Care instructions

Cover:

Inner cover:

Wipe clean with a damp cloth.

**SKÖNAST** An 3½" thick mattress with pressure relieving, elastic, high resilience foam that regains its shape quicker and lasts longer than ordinary foam. The material follows your baby's body and provides comfortable and firm support. The cover is easy to remove and can be machine washed at 140°F.

52×27½"

303.485.32 **\$80**

## SPRING MATTRESSES

### Care instructions

Cover:

Inner cover:

Wipe clean with a damp cloth.

**JÄTTETRÖTT** This 4¾" thick mattress has individually wrapped pocket springs enclosed in a generous layer of pressure-relieving foam. Since the springs work independently, they closely follow your baby's body and provide support in the right places. The well-ventilated construction provides your baby with a pleasant sleeping environment. A practical handle makes the mattress easy to carry and to turn over when making the bed. You can remove the cover and machine wash it at 140°F.

52×27½"

403.481.07 **\$100**

### Care instructions

Cover:

Inner cover:

Wipe clean with a damp cloth.

**DRÖMMANDE** See and feel the care in every detail of DRÖMMANDE, an 4¾" thick pocket spring mattress for crib. The core is covered with coconut fiber and natural latex that allows air to circulate. Two covers are fixed around this one is non-removable and one can be removed and machine washed at 100°F. The zipper has a small pocket to hide the pull tab from the hands of curious children. And finally, a handle that makes it so much easier to turn the mattress when making the bed.
