The DELAKTIG series can be described as a whole new way of thinking about furniture. Together with designer Tom Dixon, production methods and airplane materials inspired us to create this sofa series. To manufacture aluminum frames, a material with greater stability and less weight than wood, of which 50% is also recycled, is really something new. A starting point to explore more possibilities with flexible solutions that suit your home better. But it's also about what happens when your needs change or you decide to throw things away. The DELAKTIG series really has a renewable life, in several ways. Or to put in the designer's words himself: "Don't throw away the DELAKTIG series when you're done with it - let it be something else, something new. Or save it for the children so that they can take it with them when they move away from home."

A high standard of accuracy has been sought in the preparation of this buying guide. We apologize for, but will not be bound by or responsible for, errors and omissions in this buying guide.

HOW TO BUILD

Start by choosing a platform – armchair, loveseat or sofa. Then complete with backrest/armrests, side tables and lamps so that you get exactly the piece of furniture that suits your needs and

space best. If you want to make it even more personal, you can also choose different covers for each part.

COMBINATIONS

The combinations below are examples of possible solutions.

Overall size: W37×D33½×H31½".

By rethinking seating, we developed this modern version of an armchair with a side table that you can fix to the side of the armchair that suits you best. You can fix the lamp to the frame or to the included lamp base.

Overall size: W53¾×D33¾×H31½".

Having a modern and flexible home doesn't need to mean not choosing the most typical sofa combination. You can choose one of three colors and also fix the backrests as you like so that you can use the sofa from both sides.

Overall size: W58¾×D33¾×H31½".
