### Comfortable sofa at an attractive price

KIVIK seating series is made for people who want extra comfortable seating, without it costing more than necessary. Every detail, inside and out, is adapted to give you as much comfort as possible. You can also combine the different parts in the series in different ways to suit you and your home. This way, you always have room for relaxation.

### Follows your body and gives support

The seat cushions in KIVIK seating series have a layer of memory foam that softly follows the contours of your body and gives comfortable support exactly where you need it. The wide armrests have a thick padding that's nice both to rest your neck against and to sit on. If you choose to add a chaise and ottoman you will have a combination you can really stretch out on. Then you can count on maximum comfort.

### Choose your own combination

It's easy to adapt KIVIK seating series to suit your home and your needs. You can, for example, combine the sofas with a generous chaise for extra room and comfort or add the corner section to create an even bigger combination to seat as many people as you like. You have every possibility to create your own personal solution!

- ORRSTA: Durable, cotton and polyester fabric with two toned subtle structure. Machine washable.
- BORRED: Soft microfiber structure with subtle mélange effect. Machine washable.
- HILLARED: Multi-fiber blended, tonal yarn dyed structure. Machine washable.
- GRANN/BOMSTAD: Grain leather/coated fabric.

1. GRANN grain leather: High quality and thick, 1.6 mm, grain leather which ages gracefully and acquires a beautiful patina over time. The natural variations in the hide are visible because it's treated with only a light surface coating for protection. Easy to care for by vacuuming regularly and treating with ABSORB leather care set (sold separately) to keep the leather soft, supple and beautiful.

2. BOMSTAD coated fabric: A durable coated fabric with the look and feel of leather. It is ideal for families with young children and it has a protective coating which makes it fade-resistant. Easy for you to keep clean by just vacuuming with the soft brush attachment and wiping with a damp cloth.
