GOOD TO KNOW

LANDSKRONA in leather and coated fabric

LANDSKRONA leather sofa is a combination of our 3/64" thick grain leather called GRANN, which is a soft yet durable dyed-through leather, and BOMSTAD coated fabric. Coated fabric has the look and feel of leather at a lower cost.

This is why IKEA often uses a combination of both, with leather on direct contacts areas such as seating surfaces and armrests (1), and coated fabric on other outer surfaces (2).

Grain leather

The natural variations in the hide are visible, as the leather is treated with only a light color-coating for protection. The leather will acquire a beautiful patina over time. It's also easy to care for – just vacuum regularly with the soft brush attachment on your vacuum cleaner.

Coated fabric

Coated fabric is a fabric material with a coating, which can be embossed to look like leather. It's a strong and durable material and very easy to care for – just vacuum the surface using the soft brush attachment on your vacuum cleaner and wipe with a damp cloth.

Durability

All our different leather and coated fabrics have been treated to protect them and make them easy for you to look after. All have also been tested and approved for tear strength, flexibility and color fastness, so you can be sure you will enjoy your new sofa or armchair for many years to come.
