

BUYING GUIDE

LILLÅNGEN

Bathroom furniture

SAFETY

Secure It! Prevent tip-over injury. Furniture with included restraints must be secured to the wall according to the assembly instructions.

Different wall materials require different types of hardware. Use hardware suitable for the walls in your home, sold separately.

CARE AND CLEANING

Wipe furniture clean with a damp cloth, then wipe dry with a clean cloth.

The sink and faucet should be wiped clean with a cloth damped in water or a nonabrasive detergent.

The sink is resistant to most chemicals, except for strong acids and strong alkalis. Therefore never use scouring powder, steel wool or a detergent that is calcium-dissolving, sour or contains alcohol or an abrasive.

Smart use of small space

With LILLÅNGEN series you can make use of every square inch of your bathroom. It includes sinks in different widths and depths, cabinets with different functions and open shelves that allow you to mix open and closed storage. The sinks come with matching accessories, creating extra space for your most frequently used bathroom items. With the LILLÅNGEN series, your tiny bathroom will be bigger than ever, in no time!

A high standard of accuracy has been sought in the preparation of this buying guide. We apologize for, but will not be bound by or responsible for, errors and omissions in this buying guide.

Not all products may be available in all stores. See what is available at your local store by visiting [IKEA-USA.com/stockavailability](https://www.ikea-usa.com/stockavailability). For more detailed product information, see the price tag or visit [IKEA-USA.com](https://www.ikea-usa.com). All products shown require assembly. All textiles shown are imported.

HOW TO CHOOSE

1. Start planning your bathroom by thinking about the wall space you have available for a sink cabinet and sink, since this is the center of most bathroom activities. The LILLÅNGEN series includes sink cabinets of different sizes and storage capacities.

LILLÅNGEN series is flexible so you can mix-and-match your sink cabinet together with open shelves. You can either have the sink cabinet as a combination of a full cabinet or in combination with an end unit - open shelf for more accessible storage.

If you want a different expression in your bathroom you can choose to combine LILLÅNGEN sink cabinets with VISKAN countertops that are available in different colors and GUTVIKEN countertop sink. IKEA bathroom countertops have been developed with special attention to quality, so they are water resistant, durable and will last a long time. They come in three different sizes that match LILLÅNGEN sink cabinets and end units perfectly creating endless possibilities. Choose the look that suits you and your bathroom best.

After you have decided on the size and storage capacity of the sink cabinet, you can choose between white or white/aluminum finishes. White/aluminum finish is not available in all functions, see page 4 for details.

2. The LILLÅNGEN sinks have a smart edge, where you can keep your most necessary items close at hand. The deep sinks come with matching accessories such as a soap dish, towel hooks and tray - and the shallow version comes with towel hooks.

LILLÅNGEN sinks are made in ceramic. Ceramic sinks have a glazed finish and are easy to clean. They have excellent scratch resistance and are very durable.

All sinks come with a water trap and strainer, with the exception of TÄLLEVIKEN and TYNGEN which come without a water strainer. The water trap is flexible and can be connected to both washing machines and dishwashers.

3. You can find a wide selection of sink faucets at IKEA. Choose your faucet based on function and design. All faucets come with a strainer kit, with the exception of OLSKÅR. All faucets at IKEA have a water-saving device that uses 50% less water but ensures that the water flow feels the same.

Most of our faucets have a special function - a cold water start that helps you save energy. Usually, you turn on an ordinary faucet by lifting the lever straight up, which releases both cold and hot water. But often, the hot water does not reach the entire way out and stops in the pipes. When you lift the lever straight up on a faucet with a cold water start function, only cold water is released, which reduces any waste of hot water. To release the hot water, you lift the lever to the left.

4. The sink cabinet can be mounted to the wall with or without supporting legs. In case if you decide to use supporting legs make sure you pick the correct combination of legs. The cabinets that have 15" depth need the 4-pack of LILLÅNGEN legs, the shallow cabinets that are 10" deep require 2-pack of legs. The legs are sold separately.

5. Now it's time for you to choose what to put above and around your sink: mirror, mirror cabinet, high cabinet, high cabinet with mirror door, wall cabinet. The combination possibilities are endless. Make your choice based on your bathroom storage needs and space.

Finally, you can complete your bathroom with accessories and small furniture from ENUDDEN and DYNAN series. They are designed to match LILLÅNGEN so the look in your bathroom will be totally coordinated in color and style.

Bathroom online planning

Put your creativity to work! Our easy to use bathroom planner helps you make your dream come true for you and your family. You can try out your ideas to find the best combination of furniture that fits your space and suits your needs. You can test different colors and styles to get the look you love. You can also see examples of bathrooms we have created to help you with inspiration.

The planner tells you how much your dream will cost. It creates a list of the products you need, so you don't forget anything at the store. It also checks if they are available before you go. The planner even helps you buy your products directly online.
