

BUYING GUIDE

SILVERÅN

Bathroom furniture

SAFETY

Secure It! Prevent tip-over injury. Furniture with included restraints must be secured to the wall according to the assembly instructions.

Different wall materials require different types of fixing devices. Use fixing devices suitable for the walls in your home, sold separately.

CARE AND CLEANING

Wipe furniture clean with a cloth dampened in water or a nonabrasive detergent, then wipe dry with a clean cloth.

The sink and faucet should be wiped clean with a cloth dampened in water or a nonabrasive detergent.

Sinks in ceramic are resistant to most chemicals, except for strong acids and strong alkalis.

Sinks made of crushed marble should not come in contact with ammonia, acids, strong detergents, hair dye or chlorine.

SILVERÅN bathroom furniture helps you make use of every square inch of your bathroom. Depending on the space you have you can choose between cabinets in different widths and depths. Complement SILVERÅN with one of our smart faucets and LED bathroom lamps and you will also save water and energy!

A high standard of accuracy has been sought in the preparation of this buying guide. We apologize for, but will not be bound by or responsible for, errors and omissions in this buying guide.

Not all products may be available in all stores. See what is available at your local store by visiting IKEA-USA.com/stockavailability. For more detailed product information, see the price tag or visit IKEA-USA.com. All products shown require assembly. All textiles shown are imported.

HOW TO CHOOSE

1. Start planning your bathroom by thinking about the wall space you have available for a sink cabinet and sink, since this is the center of most bathroom activities. The SILVERÅN series includes sink cabinets of different sizes and storage capacities.

2. IKEA bathroom sinks come in different sizes and materials. The sinks suitable for SILVERÅN are made in ceramic.

Ceramic sinks have a glazed finish and are easy to clean. They have excellent scratch resistance and are very durable.

All sinks come with a water trap and strainer, with the exception of TÄLLEVIKEN and TYNGEN which come without a water strainer. The water trap is flexible and can be connected to both washing machines and dishwashers.

3. You can find a wide selection of sink faucets at IKEA. Choose your faucet based on function and design. All faucets come with a strainer kit, with the exception of OLSKÄR. All faucets at IKEA have a water-saving device that uses 50% less water but ensures that the water flow feels the same.

GRANSKÄR, DALSKÄR, ENSEN, VOXNAN, BROGRUND, ASPSKÄR and HAMNSKÄR faucets have a special function – a cold water start that helps you save energy. Usually, you turn on an ordinary faucet by lifting the lever straight up, which releases both cold and hot water. But often, the hot water does not reach the entire way out and stops in the pipes. When you lift the lever straight up on a faucet with a cold water start function, only cold water is released, which reduces any waste of hot water. To release the hot water, you lift the lever to the left.

4. The sink cabinets can be mounted to the wall with or without supporting legs.

5. Now it's time for you to choose what to put above and around your sink: mirror with shelf, mirror cabinet, high cabinet with mirror door, high cabinet, corner unit, storage bench. The combination possibilities are endless. Make your choice based on your bathroom storage needs and space.

6. Finally, you can complete your bathroom with accessories from SVARTSJÖN and TOFTAN series. It's designed to match SILVERÅN so the look in your bathroom will be totally coordinated in color and style.
