

SKENINGE

Track system

GOOD TO KNOW

Maximum electrical load in one track system: 1800W

SAFETY

In some countries electrical installation work may only be carried out by an authorized electrical contractor. Contact your local electricity authority for advice.

One system for different lighting needs

SKENINGE track system makes it easy to customize your lighting. Choose any number of tracks and combine them as you like – in a straight line or at an angle. Use different spotlights or mix spotlights and pendant lamps. Install the track system in all rooms to create ambient lighting, work lighting and accent lighting. The system is so flexible that it blends in everywhere – even at the office, in a store or in a restaurant.

A high standard of accuracy has been sought in the preparation of this buying guide. We apologize for, but will not be bound by or responsible for, errors and omissions in this buying guide.

Not all products may be available in all stores. See what is available at your local store by visiting IKEA-USA.com/stockavailability. For more detailed product information, see the price tag or visit IKEA-USA.com. All products shown require assembly. All textiles shown are imported.

HOW TO CHOOSE

1. Create your own lighting system

Start by thinking about where you want your light and how much light you need. You can connect as many tracks and spotlights as you like. The maximum electrical load in one track is 1800W. Remember that different ceiling materials require different hardware. Always choose screws that suit the ceiling in your home.

2. Connect to the power supply

The track system can only be installed in the ceiling. Please remember that in some countries electrical installation work may only be carried out by an authorized electrical contractor. Contact your local electricity authority for advice.

3. Add tracks, choose quantity and length

Tracks can be connected in a straight line or at an angle. Choose the length that suits you. The tracks are 39 $\frac{3}{8}$ " long, but can be cut to fit everywhere. Connect two tracks with a straight connector. Mount the track system at an angle (up to 110°) with an angled connector if you want the lighting to continue around a corner. The possibilities are many, so you can always customize the system to your home.

4. Mix spotlights

SKENINGE track system includes spotlights of different sizes – 2 $\frac{3}{4}$ " and 3 $\frac{3}{4}$ ". You can add LED bulbs with a narrow beam to light up individual details, like a picture, or with a wide beam to light up larger areas, like a bookcase. The spotlights have a flexible joint which makes it easy to change the direction of the light and move them on the track if you want to change your lighting.

5. Combine with your favorite pendant lamp

With the pendant connector, you can connect most of our pendant lamps to your track system. This means that you can combine the light from spotlights and pendant lamps and customize your lighting. You can also group your spotlights and/or pendant lamps and connect each group to different switches (max 3), so you can turn each group on and off separately. See which pendant lamps can be connected to the track system on page 5.

COMBINATIONS

You can use the SKENINGE track system everywhere in the home and for all kinds of activities. In a small room like a hallway or a dressing room, the track system can provide all the lighting. In the living room you can use it to light up your favorite pictures or a bookshelf by combining

With just three SKENINGE spotlights, it's easier for you to find your favorite coat, shoes, and hat when you are on the way out. Direct a spotlight on the wardrobe, one on the shoe rack, and use one to provide general light in the hallway. Choose light bulbs with wide beam angles which provide enough lighting to easily put on outerwear.

This combination \$52.98 192.030.12

Units you need:

Track with 2 LED spotlights Ø2¾".	303.164.99	1pc
LED spotlight 2¾"	503.164.79	1pc

LED bulbs with different light beam widths. And if you want light for a specific activity – like eating dinner or reading – you can mix spotlights with pendant lamps.

You can easily create a cozy reading corner and also light up your paintings or other things you like. It doesn't involve a lot of installation, just the SKENINGE track and some spotlights. Direct light on a bookshelf so you can quickly find a good novel. Light up the area around an armchair for reading. When you take a break from the book, you can look at the pictures on the wall – and reminisce about your own stories.

This combination \$99.98

Units you need:

Track with 2 LED spotlights Ø2¾".	303.164.99	1pc
Track with 2 LED spotlights Ø3¾".	703.947.82	1pc
Angled connector	403.164.65	1pc

COMBINATIONS

The living room is the center of a house, so you need light for many different activities. Light up your storage, but don't forget the area around the sofa. A pendant lamp over the coffee table really brings the room together. Since SKENINGE track system is three-phase, you can always decide which lights you want on and which ones you want off.

This combination \$134.97

Units you need:

Track with 2 LED spotlights Ø2¾".	303.164.99	1pc
Track with 2 LED spotlights Ø3¾".	703.947.82	1pc
Straight connector	603.164.93	1pc
Pendant connector	403.164.70	1pc
HEMMA Cord set, white	503.865.80	1pc
MELODI Pendant lamp Ø15".	103.865.44	1pc

When you eat dinner with the family or spend time with friends, it's nice with good mood lighting. Choose two pendant lamps which you like, connect them to the lighting system, and dim the light. Now the mood is perfect! When you have many friends visiting, you can pull out the table and move the lamps where you need light, since the pendant connector can be moved on the track.

SERVICES

IKEA products are designed to be taken home and assembled by you. That way, you'll save the most money. But if you would like some help, we can offer a range of services. Assembly and delivery services fulfilled by an Independent Service Provider. Contact your local IKEA store or visit the IKEA website for details: IKEA-USA.com/services

DELIVERY

Whether you're shopping in the store or online, and no matter how big the purchase, we can help do the heavy lifting and arrange delivery, by an Independent Service Provider, to your home or business.

PICKING WITH DELIVERY

This in-store option is the combination of the delivery service with the picking service. We'll collect the products on your shopping list from throughout the store and arrange delivery of everything to your home or business.

Services and prices may vary, please see IKEA-USA.com/services or talk to us in your local IKEA store.
