SAFETY

Safety is our top priority! We always perform risk analyses and test our children's furniture to ensure the pieces are suitable for children. Children rarely do what you expect them to do. They climb, clamber and play with things in ways that are often difficult to foresee. For that reason always use the enclosed safety fitting, to anchor the furniture to the wall, to prevent it from tipping over.

Secure It! Prevent tip-over injury. Furniture with included restraints must be secured to the wall according to the assembly instructions.

Different wall materials require different types of hardware. Use hardware (sold separately) suitable for the walls in your home.

CARE AND CLEANING

The frames and fronts can be cleaned with a cloth dampened in a mild cleaner and dried with a clean, dry cloth.

Children's furniture that's made for change

Children grow fast, but they don't have to outgrow their furniture. We designed the pieces of STUVA system to adapt to children's changing needs. The series includes a crib, changing table, bench, chest of drawers, wardrobes, loft bed, interiors and more. You can make your own solution or choose a ready-made combination – and add on at any time. With a timeless style in several colors, STUVA is a flexible, functional solution that lasts for years of sleeping, playing, learning and growing!

The combinations in this buying guide are shown and priced in the all white option, but the FRITIDS and FÖLJA doors, fronts and drawers offer a variety of color options and combinations. For more information please go to IKEA-USA.com

STUVA GROWS WITH YOUR CHILD

Smart solutions for limited space

Children grow, but their space at home doesn't always get bigger. STUVA maximizes space with multifunctional pieces that can transform, too. With STUVA loft bed, you can completely furnish a child's room with a desk, wardrobe and open shelf unit. Other pieces like STUVA changing table grow with your child to become a play table and a study desk.

Endless possibilities

STUVA is a super flexible system. You can choose frames, doors, drawers and interior fittings to create a combination that suits your child's needs and your space. If you don't want to build from scratch, we have a selection of ready-made combinations, so you can choose one to bring home today!

Designed for children

STUVA system is designed with children in mind! Everything's at child height, so they can reach their toys and clothes while learning to keep their things tidy. We even think of accident prevention and include features like smooth edges and rounded corners so children don't hurt themselves.
