

## BUYING GUIDE

# TABLE BAR

### SAFETY

All table tops, trestles, legs and underframes are tested and approved for a maximum load of 110 lbs.

Tempered glass should be handled with care! A damaged edge or a scratched surface can cause the glass to crack suddenly. However, it will only break into small pieces, never into sharp fragments.

### Build your own desk

Create a personal desk that perfectly suits your needs and your style. It can become anything from a desk with drawers to a dining table for the entire family.

# HOW TO BUILD

## Maximum variety at the Table Bar

Choose between table tops in different sizes and shapes, in black, white or bright colors. Add legs that are stationary, height adjustable or on casters - or choose trestles or storage units instead. There are many different styles to choose from. On the last page in the guide you can see all the possible combinations. Have fun choosing your favorite.

## GOOD TO KNOW

To make it easy for you to build your own desk, we've planned some things in advance.

### **Pre-drilled holes**

We have pre-drilled holes in all table tops, except GLASHOLM, so it's easy for you to attach the legs. We placed the holes close to the edge of the table top so you will have more room under the table for your legs or a drawer unit. Screws for attaching the legs to the table top are included.

The trestles are extra stable, and don't even need to be attached to the table top. All this to make it easy to create the perfect desk/table for you and your family!
