

Wall shelves

SAFETY

Different wall materials require different types of hardware. Use hardware (sold separately) suitable for the walls in your home.

If you are uncertain about what type of hardware to use, please contact your local hardware store.

GOOD TO KNOW

The shelves hold 22 lbs when supported by two brackets and 44 lbs when supported by three. We recommend that you use three brackets with the 47¼" long shelf when possible. This is to prevent the risk of the shelf slanting. Spread the weight evenly on the shelf.

Shelves for every need

With the different shelves and brackets you have the flexibility to create your own personal solution that fits any space. From small to big, in odd spaces, on narrow walls or over furniture, the shelves are suitable for all rooms in the home, except for wet rooms, so feel free to be creative.

A high standard of accuracy has been sought in the preparation of this buying guide. We apologize for, but will not be bound by or responsible for, errors and omissions in this buying guide.

Not all products may be available in all stores. See what is available at your local store by visiting IKEA-USA.com/stockavailability. For more detailed product information, see the price tag or visit IKEA-USA.com. All products shown require assembly. All textiles shown are imported.

WALL ANCHORING GUIDE

If your wall material is not listed or if you have questions, consult with a local hardware retailer.

We all want our homes to be a safe place. But in our homes, accidents can put children at risk. Working together, we can help prevent these accidents and make the home a safer place.

- Secure it! Use the tip-over restraint provided with the product and the right hardware for your wall type. Consult the enclosed guide for help with hardware.
- Never put a TV or other heavy objects on top of a chest of drawers or any furniture not intended for use with a TV.
- Place heavy objects in the lowest drawers.
- Never let children climb or hang on drawers, doors or shelves.

Wall material: Drywall or plaster with available wood stud.

Anchoring device: Screw inserted directly into stud. For example, a 5 mm wood screw provided with IKEA FIXA plug and screw set.

Wall material: Masonry.

Anchoring device solid wall: plug with screw. For example, an 8 mm plug provided with IKEA FIXA plug and screw set.

Wall material: Drywall or plaster without available wood stud.

Anchoring device: Plug with screw. For example, an 8 mm plug provided with IKEA FIXA plug and screw set.

Anchoring device hollow wall: Toggle-style.

FIXA Screw and plug set \$9.99/260pk
Contains: Assorted screws and wall plugs for wood, drywall, concrete, and brick. Be aware that different wall materials are able to support different loads of weight. For instance, walls made of drywall cannot support as much weight as walls made of wood, concrete or brick. Recommended for indoor use only. Box/Divider/Lid: Polypropylene. Plastic fitting: Polyethylene. Screw: Steel, galvanized. 001.692.49

COMBINATIONS

Mix and match to suit your needs with shelves and brackets. Our big choice of sizes, including shelves you can cut to the exact length you need, means you can find a shelf to match almost any space. Here are some suggestions.
