GALANT

DESIGN
Olle Lundberg, Henrik Preutz

CARE INSTRUCTIONS
Wipe clean with a damp cloth and mild detergent. Then dry with a clean, dry cloth.

QUALITY
All main parts in GALANT system have been tested and approved for office use in accordance with European and North American safety requirements.

The desk that sets you free!
GALANT table tops come in different models that you can either connect or use individually. This means that you can tailor both the width and length of your desk to perfectly suit your needs. You can make everything from a small hobby table to a spacious corner desk with a large work surface and good depth for computer work. If you need an even larger work surface, just add an extension top. And by adding a drawer unit from the same system, your workspace becomes complete.

Tested for tough treatment
GALANT desk system is approved for professional office use. That means that the system has undergone a number of tough tests. And this is how we know that all the desks are durable and can take heavy loads, that the surfaces resist both scratches and stains – and the drawers run just as quietly and smoothly even after they’ve been opened and closed 10,000 times. All this makes GALANT a reliable workmate that lives up to your high demands and can withstand hard work – day after day, year after year.
You can easily adapt GALANT desk system to your needs. First, choose a table top in the size and shape you want and complement it with the right frame. There are several different types of legs available and you can adjust them to a suitable height when you attach them. If you need a larger work surface, you can use extension tops. Be sure to choose an extension top that matches your table top and complement this with the right frame, too. Finally, add drawers, cable organizers and other accessories to help you keep your things organized.

1. Extension tops of different shapes and sizes can easily be connected to your GALANT desk for extra work surface.

2. Height adjustable legs; assemble your desk at a height that suits you.

3. The curved shape of the table top gives support to your wrists and forearms when typing.

4. Surfaces in veneer and melamine foil are hardwearing, stain resistant and easy to keep clean.

5. The GALANT drawer unit on casters can be wheeled in under a table to save space. The combination lock makes it easy to choose your own code for safe storage of papers and office accessories.
## BASIC COMBINATIONS

A-legs, adjustable 23¼-35¾". T-legs, adjustable 23¾-32¼".
