Good night, everyone

When it comes to mattresses, one size doesn’t fit all. People are built differently. People sleep differently. We understand this, which is why our range of mattresses offers you a wide choice of materials, support, and price levels; everything you need to find a perfect match for you. Almost all of our mattresses and bases are covered by a 25-year limited warranty against defects in materials and workmanship. For more detailed information, please read the limited warranty.

For your complete comfort

And because a good night’s sleep depends on more than just the mattress, you’ll also find the entire range of pillows, comforters, and mattress and pillow protectors in this guide.

In order to find what’s best for your individual needs, we advise to try the mattress of your choice together with different pillows. Find the combination that best fits you, by actually lying down and trying them out together in the mattress studio.

A comforter that fits your sleeping preferences adds to your overall comfort, so you sleep well and wake up rested. Take a look at our pillows and comforters on pages 16–27 to find the right ones for you.

Care and cleaning

Adding a pillowtop (page 11), mattress protector (page 14), or a pillow protector (page 23) to your new mattress makes it more hygienic, as it is easy to remove and clean. Some of our mattresses have a washable cover. On those that don’t, use upholstery cleaner to remove stains. Even the best mattresses become less comfortable with age and all mattresses accumulate allergens over the years. So we recommend that you change mattress every 8-10 years.

Do it yourself or let us help

Just because you can do everything yourself, doesn’t mean you have to. Let us help you get a good night’s sleep without any extra worrying with our service offers like picking, home delivery, assembly and more. Read more at IKEA-USA.com/services or your local IKEA store.

Love it or exchange it

When you’ve chosen your mattress, take it home and have a good lie down. For up to 90 days if you like. If the chemistry isn’t right between you, simply bring it back to the IKEA store and choose another.

When you get your mattress home

It’s normal for new mattresses to feel a bit too firm, so you should allow one month for your body to get used to the mattress and for the mattress to get used to your body. New materials also have their own particular smell. We recommend airing the mattress to help eliminate any smell. If you buy a roll packed mattress, you can use it immediately, but keep in mind that it takes 3–4 days of use for them to regain their shape.

Foam, latex or spring?
We offer a variety of different mattresses. Deciding if you want a foam, latex or spring mattress will help you narrow down your choice considerably.

Your budget
We have mattresses to fit every budget, from basic mattresses to mattresses made with high quality natural materials. But you can be sure that every one is designed to give you a good night’s sleep.

How does it feel?
The most important thing when choosing a mattress is to have a good lie down. Try the mattress without a thick jacket or coat, and in the position you usually fall asleep in. That way, you can tell if the mattress is a good match for you!

Explanation of mattress comfort symbols
The symbols below are used to show the features of our mattress comfort products.

- **25-year limited warranty**
  Almost all of our mattresses and bases are covered by a 25-year limited warranty against defects in materials and workmanship. For more detailed information, please read the on-line limited warranty brochure.

- **Firm**
  Mattresses that provide firm support.

- **Medium Firm**
  Mattresses that provide medium firm support.

- **Soft**
  Mattresses that provide soft support.

- **Natural materials**
  Natural materials like wool, cotton and sometimes natural latex and cocouos fiber help air flow freely through the mattress and draw away moisture, so you won’t get too warm or too cold.

- **Extra comfort filling**
  An extra top layer of soft filling that adds comfort.

- **Comfort zones**
  Give each part of your body the support it needs. Softer areas allow your shoulder and hips to sink more deeply into the mattress while firmer ones actively support your neck and lower back.

- **Pocket springs**
  Individually wrapped springs that work independently to closely follow your movements and the contours of your body.

- **Bonnell springs**
  A layer of springs that provides all-over support to ensure a restful night’s sleep.

- **Latex**
  A soft and resiliant natural material that offers personalized comfort by molding to your body. You’ll relax more fully as it distributes your body weight to relieve extra pressure and provide precise support.

- **Memory foam**
  A soft and resilient material that responds to your body temperature and molds itself to the contours of your body. You’ll relax more fully as it distributes your body weight to relieve pressure and provide comfort.

- **High resilience foam**
  High quality foam that closely follows your movements to provide support and relieve extra pressure.

- **Foam**
  Gives you all-over support and comfort.

- **Roll packed**
  Makes it easier for you to handle the mattress and bring it home.

- **Wash temperature °F**
  For removable and washable mattress covers. Machine wash warm (100°F) or hot (140°F). Allergens thrive in warm, dark, humid environments like beds. Wash fairly often to keep it fresh and clean.
Spring mattresses

Spring mattresses distribute your weight evenly, so there’s no extra pressure on any one part of your body. The open spring construction helps air flow through the mattress, so you won’t get too warm while you sleep. You can get the comfort level that’s right for you with a mattress pad and a slatted bed base or mattress base. Spring mattresses are also extremely durable.

JÖMNA spring mattress, light gray.
- Get all-over support with a layer of springs that distribute your weight evenly.
- Rolled packed, easy to take home today.
- Thickness: 5⅞”

- The pocket springs are individually wrapped to insulate movements so you don’t disturb your bed partner.
- A cushion of foam as your mattress is soft – yet resilient – on top.
- Rolled packed, easy to take home today.
- Thickness: 8⅝”
- Medium firm
- Twin 401.978.87 $169
- Full 501.978.81 $199
- Queen 001.978.84 $229
Foam and latex mattress

Soft and resilient, foam and latex mattresses provide support by molding to the shape of your body and distributing your weight evenly. Because there’s no extra pressure on any part of your body, they facilitate blood circulation and help you fully relax. Foam mattresses also absorb the shock of movement, making them a great choice if you have a partner that tosses and turns at night. Their flexibility makes them a great fit for adjustable slatted bed bases.

**SULTAN HOLMSTA spring mattress, white.**
- Latex cushion offers personalized comfort that conforms to your body for precision support.
- Active pocket springs respond independently to help regulate pressure points, while keeping your spine properly aligned.
- The pocket springs are individually wrapped to help you fully relax.
- Five comfort zones relieve pressure points all along your body.
- Latex, a natural fiber, helps regulate body temperature as you sleep.
- Thickness: 126°

**SULTAN HULTSVIK spring mattress, white.**
- 2½” thick memory foam cushion responds to your touch and temperature, molding to your body shape for precision support.
- Active pocket springs respond independently to help regulate pressure points, while keeping your spine properly aligned.
- The pocket springs are individually wrapped to help you fully relax.
- Five comfort zones relieve pressure points all along your body.
- Latex, a natural fiber, helps regulate body temperature as you sleep.
- Thickness: 136°

**SULTAN HEGGEDAL natural spring mattress, light gray/beige.**
- Natural materials like natural latex, coconut fiber, cotton, wool, and lyocell provide extra comfort and a very pleasant sleeping environment with an even temperature.
- You get support in the right places with the help of individually wrapped pocket springs that work independently and closely follow your body.
- 5 comfort zones give very precise support and relieve pressure on your shoulders and hips.
- Stretch fabric follows the contours of your body as you move in bed.

**MATRAND** memory foam/latex mattress, white.

- Relax more fully with a sleeping surface of memory foam (Firm) or latex (Medium firm) that conforms to your body to relieve pressure.
- A generous layer of soft filling that adds support and comfort.
- 5 comfort zones give very precise support and relieve pressure on your shoulders and hips.
- Easy to keep clean since you can wash the cover by machine.
- Thickness: 71/8”

**MYRBACKA** memory foam/latex mattress, white.

- Relax more fully with a sleeping surface of memory foam (Firm) or latex (Medium firm) that conforms to your body to relieve pressure.
- Lamb’s wool helps air flow through the mattress to make sure you don’t get too warm or cold.
- High resilience foam gives support for each part of your body by closely following your movements.
- 5 comfort zones give very precise support and relieve pressure on your shoulders and hips.
- Easy to keep clean since you can wash the cover by machine.
- Thickness: 91/8”

**MORGONGÅVA** natural latex mattress, white.

- Materials like wool and cotton help air flow through the mattress to make sure you don’t get too warm or cold.
- Get support when and where you need it with a thick layer of natural latex that conforms to your body. You’ll relax more fully as it distributes your body weight evenly and relieves extra pressure.
- Keep your shoulders and hips comfortable while also giving the support you need for your head and back with seven comfort zones.
- Natural materials in the padding and the latex construction, help air to flow freely through the mattress and draw away moisture, so you won’t get too warm or too cold.
- Thickness: 71/4”

**TROFORS** foam pillowtop, gray.

- Easy to keep clean with a machine washable cover.
- Roll-packed – easy to take home.
- Thickness: 21/4”

**SULTAN TJÖME** foam pillowtop, white.

- Get another layer of comfort with a high resilience foam mattress pad that relieves pressure on your body.
- Easy to keep clean with a machine washable cover.
- Roll-packed – easy to take home.
- Thickness: 2”

**SULTAN AFJORD** memory foam pillowtop, white.

- Relax more fully with a 21/2” layer of memory foam that conforms to your body to relieve pressure.
- Looped in the cover of the mattress pad draws away moisture, so you won’t get too warm or too cold.
- Easy to keep clean with a machine washable cover.
- Roll-packed – easy to take home.
- Thickness: 21/2”

**SULTAN TORÖD** natural latex pillowtop, white.

- Relax more fully with a 11/2” layer of natural latex in the mattress pad that conforms to your body to relieve pressure.
- Natural materials like natural latex and cotton draw away moisture and help air flow freely, so you won’t get too warm or too cold.
- Stretch fabric on top side of the mattress pad moves with you to maximize comfort.
- Thickness: 21/2”

**Pillowtops**

A pillowtop lies on top of your mattress to provide even more comfort. They keep your mattress from getting dusty and dirty, and will help the mattress to last longer. Because they’re easy to remove for airing and cleaning, you can keep your bed feeling fresh.

- 7⅞" 100.756.61 $20

**SULTAN leg, aluminum, 4 pack.**
- 7⅞" 601.213.63 $40

**SULTAN supporting leg, 7½-11¾".** Must be used on full and queen size mattress bases when using 7⅞" legs.
- Black 450.121.60 $10

**BEKKESTUA headboard.** Fits SULTAN ATLÖY mattress base.
- Queen 502.070.41 $250
- King 302.070.42 $300
Mattress protectors

A mattress protector will help your mattress or mattress pad last longer and stay fresh by protecting it from stains and dirt. It’s removable, so it’s easy to wash when needed. Filled mattress protectors provide extra comfort and softness and draw moisture away from the body. The waterproof one prevents any liquid from passing through to keep your mattress or mattress pad last longer and stay fresh by protecting it from stains and dirt.

Mattress protectors

• You can prolong the life of your mattresses with a mattress protector against stains and dirt.
• Elastic ribbon in each corner to keep the mattress protector in place.
• A good choice if you have allergies since the mattress protector is machine-washable on hot, a temperature that kills allergens.

Material
Top: 100% polyester
Fabric: 52% polyester, 48% cotton
Surface coating: Polyurethane
Sizes: 55% cotton, 45% polyester

Full 204.800.46 $69.99
Queen 204.800.53 $119.99
King 702.800.45 $149.99

Care and cleaning
It’s important to us that you sleep well on your new mattress. Should you discover that it isn’t completely to your satisfaction, after allowing one month for your body to get used to the mattress, bring the mattress back and try out a new one. You have 90 days to do so. If the item is no longer sold by IKEA, IKEA will provide an appropriate replacement. It is IKEA that determines, at its sole discretion, what constitutes an appropriate replacement.

Before using for the first time
Initial your new mattress can seem a bit too firm. Allow one month for your body to get used to the mattress and for the mattress to get used to your body. To get the best comfort, you need the right pillow. Make sure that you have a pillow that suits you and your new mattress. Roll packed mattresses regain their shape after 3-4 days of use. All new materials have their own particular smell, which gradually disappears. Airing and vacuuming the mattress will help to eliminate the smell.

Limited Warranty

Everyday use at home puts high demands on mattresses and bed bases. IKEA mattresses and bed bases have been rigorously tested to comply with our strict standards for quality and durability, as well as to meet the highest standards for domestic applications. That means we can offer you a 25-year limited warranty that covers mattresses and bed bases marked with the warranty logo above against defects in materials and workmanship. This limited warranty is subject to the terms and conditions stated below.

How long is the limited warranty valid?
The limited warranty for mattresses and bed components other than electrical motors remains in force for twenty-five (25) years from the date of purchase. The original purchase receipt is required as proof of purchase.

What is covered under this limited warranty?
This limited warranty covers defects in material and workmanship in the following components of the mattresses and/or bed bases described above from the date of purchase from IKEA. The original purchase receipt is required as proof of purchase. This limited warranty applies to domestic use only.

• Springs in spring mattresses.
• Foam core in foam mattresses.
• Latex core in latex mattresses.
• Wooden frame and slats in slatted bed bases.

What will IKEA do to correct the problem?
IKEA will examine the product and decide, at its sole discretion, if it is covered under this limited warranty. If considered covered, IKEA, through its own service operations, will, at its sole discretion, either repair the defective product or replace it with the same or a comparable product. If it is covered by this limited warranty, IKEA will pay the costs of repairs, spare parts, labor and travel for repair staff, that IKEA incur, provided that the product is accessible for repair without special expenditure. This does not apply to any repair work not authorized by IKEA. Replaced parts become the property of IKEA. If the item is no longer sold by IKEA, IKEA will provide an appropriate replacement. It is IKEA that determines, at its sole discretion, what constitutes an appropriate replacement.

What is not covered under this limited warranty?
This limited warranty does not apply to products that have been stored or installed incorrectly, used inappropriately, abused, misused, altered, or cleaned with wrong cleaning methods or cleaning products. This limited warranty does not cover normal wear and tear, cuts or scratches, or damage caused by impacts or accidents. This limited warranty does not cover consequential or incidental damages. For customers in the US only: some states do not allow the limitation or exclusion of incidental or consequential damages, so the limitation or exclusion may not apply to you.

Care and cleaning
Complement the mattress with a mattress protector or a pillowtop. It makes it more hygienic, as it is easy to remove and clean. Some mattresses and pads have a washable cover. Read the tag inside the cover for more information. Make sure that the zipper is closed when washing the mattress cover. Vacuuming the mattress helps to remove allergens. Use upholstery cleaner to remove stains. If your mattress is turnable you should turn it about every three months. Turning a mattress ensures more even wear and helps to prolong its comfort. Don’t fold the mattress. It can damage the springs and materials inside. Even the best mattresses become less comfortable with age, and all mattresses accumulate allergens over the years. So even if the mattresses have a 25-year limited warranty, we still recommend that you change your mattress every 8-10 years. This limited warranty gives you specific legal rights, and is in addition to your statutory legal rights.

How to reach us if you need service
Contact your local IKEA store. You will find the address and phone number in the IKEA catalog or at IKEA-USA.com.

SAVE THE SALES RECEIPT! IT IS YOUR PROOF OF PURCHASE AND REQUIRED FOR THE LIMITED WARRANTY TO APPLY.
Comforters, pillows and mattress/pillow protectors

Comforters, pillows and mattress/pillow protectors are an important part of the complete sleep comfort. The pillow that feels best for you together with your favorite mattress is the base for a good night sleep. Adding on a pillow protector to protect your pillow, keeps it fresh and prolongs the length of use. A comforter in your preferred material and warmth rate is the last element which makes you feel comfy in bed, sleep well and wake up refreshed.

In order to find the right comforter or pillow for you, it is good to consider the following:

1. Natural or down alternative material?
   We offer a wide choice of comforters and pillows in different material choices: Natural materials like down and feathers and down alternative materials like polyester, lyocell and memory foam. Considering which material is best for your comfort needs will help you to narrow down your choice considerably.

2. Quality
   We have comforters and pillows in different qualities to fit individual needs and budgets. These qualities are determined by the materials they are made of and the detail of workmanship. For sure, no matter your choice, they are all designed to give you the best possible comfort.

3. A soft or a firm pillow?
   We offer pillows in a softer and a firmer comfort. It is a good start to test your pillow together with your mattress in order to find the right one for you. Small children are most comfortable with softer pillows. For older children, it’s best to choose a pillow according to their individual preferences. You can find pillows for babies at Children’s IKEA. Adding on a pillow protector is an easy way to keep your pillow clean and fresh so it lasts longer.

4. A cool or a warm comforter?
   We offer comforters in a cool and a warm comfort to fit different needs. During colder months, we also sell extra warm comforters for you who want it extra warm and cozy. The comforter that is just right for you is determined by your sleeping preferences. Do you easily get warm in bed or do you need more warmth from your comforter? Do you share the comforter with someone? What’s your bedroom’s temperature? For children, it’s best to choose a comforter that’s cooler and rather light-weight, breathes well and is easy to wash, preferably comforters in down alternative material. You can find comforters for babies at Children’s IKEA.

Explanation of comforter and pillow comfort symbols

The symbols below are used to show the features of our comfort products.

- **Firmer**
  Depicts pillows with more filling if you like to sleep on a firmer pillow.

- **Softer**
  Depicts pillows with less filling if you like to sleep on a softer pillow.

- **Cooler**
  Depicts cooler and thinner comforters with less filling for those who often feel warm.

- **Warmer**
  Depicts warmer comforters with more filling for those who feels neither too warm or too cold.

- **Extra warm**
  Depicts extra thick and warm comforters with a generous amount of filling for those who often feels cold at night.

How to care for your comforters and pillows

General advice for all materials
- Roll packed comforters and pillows which have been compressed for transport, may take a few days to regain their correct shape and fluffiness.
- Allergens thrive in damp, warm and dark environments. Therefore, when you wake up in the morning, air your comforters and pillows well so remaining moisture can evaporate before putting them back on the bed.
- Moreover, you can wash all IKEA comforters and pillows on a hot temperature setting, (apart from memory foam pillows, where only the cover can be washed), which kills allergens. To keep your comforters and pillows free from allergens and dirt, carefully follow the washing instructions.
- Air your comforters and pillows often so they will be free from dust and stay fresh and dry.
- You can prolong the life of your pillows with a pillow protector which protects them from stains and dirt. Read more on page 23.

Additional advice for natural material
- Down and feathers have a natural smell which will disappear once you have taken them out of the package and have aired them for some time.
- For down and feather comforters and pillows you should only use one third of the normal amount of detergent and wash them separately.
- After washing, dry your natural comforters and pillows in the tumble dryer without delay until the filling is completely dry. You can place some tennis balls or dryer balls in the dryer which will keep the filling moving and ensure more efficient drying. Your comforters and pillows will regain their fluffiness and dry more quickly. The balls should of course not shed color.

Additional advice for down alternative material
- Down alternative comforters and pillows are very easy to care for and can be washed often. They also dry relatively quickly.
- A pillow with memory foam filling molds to your head and neck. This helps your muscles relax and, consequently, you will move less and sleep better.
- The removable cover can be washed on a hot temperature setting. The filling is not washable; please follow the care instructions on the label.

Memory foam
- The material may have a “factory smell” as a result of being sealed in airtight packaging. This will disappear once you open the package and leave the pillow to air before using it.
- Please consider that it may take some time to get used to this type of pillow, due to the unique properties of the material.

Care instruction symbols

- **Machine wash hot temperature**
  - The product is machine-washable at hot temperature settings that will kill allergens.
- **Do not wash.**
- **Do not bleach.**
- **Tumble dry, normal temperature.**
- **Dryclean, normal cycle.**
- **Do not tumble dry.**
- **Do not iron.**

---

memory foam pillows, where only the cover can be washed, which kills allergens. To keep your comforters and pillows free from allergens and dirt, carefully follow the washing instructions.
- Air your comforters and pillows often so they will be free from dust and stay fresh and dry.
- You can prolong the life of your pillows with a pillow protector which protects them from stains and dirt. Read more on page 23.
Down alternative pillows

The filling materials used for down alternative pillows are polyester, lyocell and memory foam. Down alternative pillows are very easy to care for. They can be machine washed often (apart from memory foam pillows, where only the cover can be washed), which makes them a good choice for people with allergies. Moreover, they dry quickly after being washed. Some pillows have a microfiber filling which is lightweight and ultra-soft like down. Some are made of memory foam which gives you extra support by molding to the contours of your body. Some of our pillows contain lyocell, a cellulose fiber derived from wood pulp. In addition to sharing the same positive properties in the wash as polyester pillows, lyocell breathes well and absorbs moisture and draws it away.

**ÄRENPRIS pillows**

**Care instructions**
- Easy-care synthetic pillow with a microfiber filling which makes the pillow extra soft, airy and comfortable to sleep on.
- You get a dry and evenly tempered sleeping environment since the non-elastic cover breathes well, which helps air to circulate and moisture to evaporate.
- A good choice if you have allergies, since the pillow is machine-washable on a hot temperature setting that will kill allergens.
- 346 thread count.
- May be completed with a pillow protector which protects the pillow from stains and dirt.

**Material**
- Filling: 100% polyester (made of recycled fibers)
- Fabric: 55% lyocell, 45% cotton

**HAMPĐAN pillows**

**Care instructions**
- The outer fabric of polyester and cotton is easy to care for because it dries quickly.
- A good choice if you have allergies, since the pillow is machine-washable on a hot temperature setting that will kill allergens.
- 346 thread count.
- May be completed with a pillow protector which will protect the pillow from stains and dirt.

**Material**
- Filling: 100% polyester
- Fabric: 65% polyester, 35% cotton

**AXAG pillows**

**Care instructions**
- Easy-care synthetic pillow with a brushed microfiber fabric for a soft feel.
- A good choice if you have allergies, since the pillow is machine-washable on a hot temperature setting that will kill allergens.
- 178 thread count.
- May be completed with a pillow protector which protects the pillow from stains and dirt.

**Material**
- Filling: 100% polyester
- Fabric: 100% polyester

**ÄRENPRIS pillows**

**Care instructions**
- This pillow has less filling and is suitable if you like to sleep on a softer pillow.

Natural pillows

Down and feathers are used in the filling of natural pillows. These fillings are soft and comfortable for your head. They breathe and are good at absorbing moisture. Down is soft, fluffy and light. Feathers are resilient and supportive. This means that the more down a pillow contains, the softer and fluffier it is. These pillows can be washed on a hot temperature setting, but not as often as down alternative pillows. You can choose from softer and firmer pillows.

**KNAVEL pillows**

- The firmer inner core enclosed in a soft down layer gives you good support and relieves pressure on your neck and shoulders which helps you relax.
- Keeps you dry and comfy all night since the filling absorbs and transports moisture away.
- You get a dry and evenly tempered sleeping environment since both the filling and the cotton cover breathe well, which helps air to circulate.
- The outer fabric in woven cotton has a pronounced lustre and is soft against your skin.
- The pillow is machine-washable on a hot temperature setting that kills allergens.
- 336 thread count.
- May be completed with a pillow protector which protects the pillow from stains and dirt.

**Material**
- Outer filling: 50% down, 10% feathers
- Center filling: 60% down, 40% feathers
- Fabric: 100% cotton

**GULDPALM pillows**

- Formable pillow that gives you good support thanks to the soft filling of down and feathers that also absorbs and transports moisture away.
- You get a dry and evenly tempered sleeping environment since both the filling and the cotton cover breathe well, which helps air to circulate.
- The pillow is machine-washable on a hot temperature setting that kills allergens.
- 252 thread count.
- May be completed with a pillow protector which protects the pillow from stains and dirt.

**Material**
- Filling: 75% down, 25% feathers
- Fabric: 100% cotton

**JORDRØK pillows**

- Formable pillow that gives you good support thanks to the large proportion of feathers in the filling which also absorbs and transports moisture away.
- You get a dry and evenly tempered sleeping environment since both the filling and the cotton cover breathe well, which helps air to circulate.
- The pillow is machine-washable on a hot temperature setting that kills allergens.
- 252 thread count.
- May be completed with a pillow protector which protects the pillow from stains and dirt.

**Material**
- Filling: 50% feathers, 10% down
- Fabric: 100% cotton

Pillow protectors

Adding a pillow protector helps you to keep your pillow fresh and clean. It also prolongs the life of your pillow as you wash the pillow protector frequently instead of the pillow. Pillow protectors are easy to remove and put back on again and take up less space in the washing machine. There are different qualities of pillow protectors available to suit your budget and comfort needs.

**ROSENDUN pillow protector**

- You can prolong the life of your pillow with a pillow protector against stains and dirt.
- A temperature-regulating lining reacts to your body temperature and keeps you comfortable during sleep.
- You get a dry and evenly tempered sleeping environment since the lyocell/cotton cover breathes well, which helps air to circulate and moisture to evaporate.
- A good choice if you have allergies since the pillow protector is machine-washable at a hot temperature that kills allergens.
- 236 thread count.

Down alternative comforters

The filling material used for down alternative comforters is polyester and lyocell fibers. Down alternative comforters are very easy to care for. They can be machine-washed often at a hot temperature, which makes them a good choice for people with allergies. Moreover, they dry quickly after being washed. Some comforters have a microfiber filling which is light-weight and ultra-soft like down. Some contain lyocell, which is a cellulose fiber derived from wood pulp. Lyocell breathes extremely well and is excellent at absorbing and drawing moisture away, in addition to sharing the same positive properties in the wash as polyester fibers. You can choose from cool and warm comforters. An extra warm comforter is available during colder months.

GLANSVIDE comforters

- Lightweight, ultra-soft comforter with a microfiber filling that feels like down.
- The outer fabric in sateen-woven cotton has a pronounced lustre and is soft against your skin.
- Easy-care, since it can be washed often and dries quickly.
- A good choice if you have allergies since the comforter is machine-washable on a hot temperature setting that kills allergens.
- 336 thread count.

Material
Filling: 100% polyester
Fabric: 100% cotton

RÖDOTTPA comforters

- An easy-care comforter that keeps you dry and comfy all night thanks to the combination of moisture-absorbing lyocell and soft, fluffy polyester in the filling.
- You get a dry and evenly tempered sleeping environment since the lyocell/cotton cover (breathes well), which helps air to circulate and moisture to evaporate.
- A good choice if you have allergies since the comforter is machine-washable on a hot temperature setting that kills allergens.
- 236 thread count.

Material
Filling: 50% lyocell, 50% polyester
Fabric: 55% lyocell, 45% cotton

TILKÖRT comforter

- Lightweight, ultra-care comforter that feels soft and comfortable against your skin as the fabric is brushed microfiber.
- A good choice if you have allergies since the comforter is machine-washable on a hot temperature setting that kills allergens.
- 176 thread count.

Material
Filling: 100% polyester
Fabric: 65% polyester, 35% cotton

GRUSBLAD comforters

- Outer fabric of polyester/cotton which is easy to care for because it dries quickly.
- A good choice if you have allergies since the comforter is machine-washable on a hot temperature setting that kills allergens.
- 186 thread count.

Material
Filling: 100% polyester
Fabric: 65% polyester, 35% cotton
Natural comforters

Down and feathers are used in the filling of natural comforters. These fillings are natural insulators. They breathe and are good at absorbing moisture. Down is soft, fluffy and light. Feathers are resilient and heavier. This means that the more down a comforter contains, the softer and more lightweight it is. Natural comforters can be washed on a hot temperature setting, but not as often as down alternative comforters. You can choose from cool and warm comforters. An extra warm comforter is available during colder months.

BLEKVIDE comforters

- The comforter is soft, lightweight, fluffy and warm-insulating due to the large proportion of down in the filling.
- Keeps you dry and comfortable all night because the filling absorbs and transports moisture away.
- You get a dry and evenly tempered sleeping environment since both the filling and the cotton cover breathe well, which helps air to circulate.
- The outer fabric in sateen-woven cotton has a pronounced lustre and is soft against your skin.
- The warmth is distributed evenly, with no cold spots, because the comforter is sewn in boxes to keep the filling in place.
- The comforter is machine-washable on a hot temperature setting that kills allergens.
- 252 thread count.

Material
- Filling: 75% down, 25% feathers
- Fabric: 100% cotton

HÖNSBÄR comforters

- Filling with a large proportion of feathers transports moisture away and keeps you dry all night.
- You get a dry and evenly tempered sleeping environment since both the filling and the cotton cover breathe well, which helps air to circulate.
- The warmth is distributed evenly, with no cold spots, because the comforter is sewn in boxes to keep the filling in place.
- The comforter is machine-washable on a hot temperature setting that kills allergens.
- 252 thread count.

Material
- Filling: 95% feathers, 10% down
- Fabric: 100% cotton

SÖTVEDEL comforters

- Keeps you dry and comfortable all night because the soft, warm-insulating filling of down and feathers, will absorb and transport moisture away.
- You get a dry and evenly tempered sleeping environment since both the filling and the cotton cover breathe well, which helps air to circulate.
- The warmth is distributed evenly, with no cold spots, because the comforter is sewn in boxes to keep the filling in place.
- The comforter is machine-washable on a hot temperature setting that kills allergens.
- 252 thread count.

Material
- Filling: 70% down, 20% feathers
- Fabric: 100% cotton

HÖNSBÄR comforters

- Filling with a large proportion of feathers transports moisture away and keeps you dry all night.
- You get a dry and evenly tempered sleeping environment since both the filling and the cotton cover breathe well, which helps air to circulate.
- The warmth is distributed evenly, with no cold spots, because the comforter is sewn in boxes to keep the filling in place.
- The comforter is machine-washable on a hot temperature setting that kills allergens.
- 252 thread count.

Material
- Filling: 95% feathers, 10% down
- Fabric: 100% cotton

Care instructions

Cooler
- If you often feel warm, this cooler and thinner comforter with less filling is a good choice.

Filling weight
