For more detailed product information, see the price tag and the internet. All units require assembly.
APPLIANCES YOU CAN RELY ON

Together with the Whirlpool Corporation we’ve developed a range of appliances to help you get the most out of life in the kitchen. Packed with smart functions, they’re built tough enough to stand up to everyday demands — now and for years to come.

Because your appliances are an important aspect of your kitchen’s design, you’ll find a variety of sizes, shapes and finishes to choose from.

All our appliances have been developed with energy and resource efficiency in mind, so you can save money and live a more sustainable life at home. You’ll find information on energy ratings throughout this guide.

Whatever your choice, you can be sure your appliances are made to last. Our appliances come with a free 5-year limited warranty (except LAGAN).

REFRIGERATORS

Smart cooling. Less waste.
Efficient cooling is a cornerstone of a sustainable kitchen. The better your fridge and freezer work, the less food you will waste. Many of our refrigerators are ENERGY STAR rated and packed with smart functions that will keep your food fresher, longer. For example: fan cooling which ensures an even and consistent temperature, fast freeze option that quickly freezes large amounts of food or ice makers that really come in handy when you’re hosting a party. Choose from top mount, bottom mount, french door or side-by-side models.

Whatever your choice, you can be sure your appliance is made to last. Our appliances come with a free 5-year limited warranty (except LAGAN).

ELECTRONIC DISPLAY It’s easy to control functions and check or set temperatures with our simple and intuitive electronic display panels.

HUMIDITY CONTROLLED CRISPERS You can preserve the freshness of fruits and vegetables by just adjusting the humidity scale. The integrated air purifying system will also help to reduce food odors.

SPACIOUS STORAGE AND LEDS Our refrigerators offer plenty of storage. Adjustable shelves, multiple crispers and built-in door shelving let you arrange your food just the way you like. With integrated LEDs that light up every corner, you’ll be able to see and find everything you’ve packed in – even that jar of pickles in the back.
HOW TO CHOOSE YOUR REFRIGERATOR:

1. Consider your food storage needs. How big is your family and how often do you shop?
2. Consider your kitchen planning and the amount of space you have.
3. Are there any particular functions or accessories you need?

GENERAL PRODUCT INFORMATION AND FEATURES

- All refrigerators are free standing, making it easy to place them just where you want in the kitchen. It is important to consider the location of water if you choose a model with an ice maker or water dispenser.
- All refrigerators have integrated LED light technology.
- All accessories listed in the product info are included.
- The right room temperature reduces the electricity usage and provides superior cooling. A refrigerator is intended for use in a location where the temperature ranges from a minimum of 55°F to a maximum of 110°F.
- It is recommended that you do not install the refrigerator near a heat source, such as an oven or radiator, if the appliances are not separated by cabinets or cover panels.

RANGES

Our freestanding ranges offer a convenient way for you to get a quality cooktop and oven combined with many functions. Whether you choose an electric range with ceramic cooktop or a gas range, it will fit perfectly between IKEA kitchen cabinets. You can opt for two ovens in one range—a good choice if you like to cook several dishes at once.

FAN-FORCED AIR CONVECTION

Get even heating throughout the oven with fan-forced air convection and cook different dishes at the same time without mixing flavors.

LARGE OVEN

Our ranges boast large ovens and multiple levels so you can fit several dishes at once or one BIG bird for those special occasions.

MADE TO FIT & LOTS OF FUNCTIONS

All our ranges are made to slide-in perfectly between IKEA cabinets, which makes planning your kitchen that much easier.

Our ranges offer a variety of features, like custom broil and bake settings, adjustable racks and a self-cleaning function.
HOW TO CHOOSE YOUR RANGE:
1. You can get the most out of your cooking time by choosing a single or double oven. Are there any special cooking functions or features you need?
2. Whether it’s an electric range with ceramic cooktop or a gas range you will have a versatile way to cook multiple dishes.

GENERAL PRODUCT INFORMATION AND FEATURES
- Free-standing, easy to place just where you want it in the kitchen or just slide them in between cabinets.
- The warming program enables you to keep food warm without becoming overcooked or burnt.
- All ranges are large capacity: over 4.8 cu.ft. for single ovens and over 6.0 cu.ft for double ovens.
- Gas ranges have powerful burners with over 15,000 BTU’s, generating high heat needed for rapid boiling, searing and frying. (BTU = British Thermal Unit, a way of measuring the output power of the gas burners.)
- Ceramic ranges have infinite heat setting controls to suit your needs and a smooth surface which makes it easy to clean.
- All ranges have child locks for safety.
- All ranges require a qualified installer.

For complete function description and assembly instructions please visit IKEA-USA.com.

INNOVATIVE AND TIME SAVING SELF CLEANING PROGRAMS FOR EASIER EVERYDAY COOKING.

SELF-CLEANING The self-cleaning function makes it easier for you to clean the oven, as grease and food residue are burned to ashes that can be easily brushed off.

WATER CLEAN This self clean function is innovative and energy efficient using water and low heat to release the grease and food residue. When the cycle is complete just easily wipe off the leftovers.

3. You can choose between manual cleaning or innovative self clean technologies.

  - **Infinite heat setting controls.**
  - **Convenient drawer for storing things like baking sheets.**
  - **Automatic door lock during self-cleaning.**
  - **Powerful burners with over 12,000 BTU, generating high heat needed for rapid boiling, searing and frying.**

---
OVENS

Our ovens are built-in, fitting perfectly in both base or high kitchen cabinets. Place them exactly where you want them in your kitchen, making the most of your space and creating the perfect workflow. Our ovens come with a wide range of smart functions, ready to help with anything from a simple snack to a gourmet meal. If you’re looking for advanced cooking or convenient self-cleaning programs we’ve got you covered.

Safety
Of course, quality and features are top of mind when we design our ovens, but we think about safety too. They have quadruple-glass doors so you can touch them at any temperature setting as well as child lock to protect the little ones.

TRUE CONVENTION distributes preheated air more efficiently, so the oven is filled with even heat, cutting down on cooking time and sealing in flavors and juices.

LARGE OVENS & MULTIPLE RACKS The insides of our ovens have generous dimensions and several racks so you have enough space for lots of different dishes at once or several trays of the same delicious treat.

SELF-CLEANING This function makes your oven easy to clean—grease and food residue are burned to ashes that you can simply wipe away.

CUSTOM BROIL AND GRILL You can adjust the temperature of the broil and grill function, customizing it according to your cooking needs.

5 Year Limited Warranty INCLUDED

Whatever your choice, you can be sure your appliance is made to last. Our appliances come with a free 5-year limited warranty (except LAGAN).
HOW TO CHOOSE YOUR OVEN

1. Consider your cooking needs. How often and how much do you cook?
2. Choose between manual cleaning or innovative self-cleaning technology.

GENERAL PRODUCT INFORMATION AND FEATURES

- All ovens are built-in and have big capacity 5.0 cu.ft. for single oven, 10.0 cu.ft for double oven.
- The warming program enables you to keep food warm without becoming overcooked or burnt.
- Convenient electronic timer with delayed start function which allows you to begin the cooking process when it suits you best.
- The full electronic display clearly shows the status of settings, temperature or important functions.
- Quadruple-glass doors with child-safety lock improves kitchen safety.
- All ovens requires a qualified installer.

MICROWAVE OVENS

When the hustle of everyday life leaves you with the need for speed, a microwave oven is a choice in every way. Microwave ovens are quick, energy efficient and perfect for reheating and defrosting. Our microwave ovens have extractor fans built-in the bottom, so you can place them directly above your cooktop.

Whatever your choice, you can be sure your appliance is made to last. Our appliances come with a free 5-year limited warranty (except LAGAN).

SETUP TO WORK SMART A combination of microwave oven and extractor fan is a smart use of space and a way to create an ergonomic, organized and smooth work flow that’s just right for you.

EASY TO CLEAN with removable grease filters that are dishwasher safe.

THE SMOOTH SURFACE of microwave ovens makes it easy to clean.
HOW TO CHOOSE YOUR MICROWAVE OVEN

1. Consider your kitchen planning and cooking needs.
2. Which functions and features suit the way you use your microwave?
3. A combination of microwave oven and extractor fan is a smart use of space and money.

GENERAL PRODUCT INFORMATION AND FEATURES

• All microwave ovens are equipped with presets for cooking time and cooking power.
• Cook, reheat or defrost without affecting the nutrients or flavors of foods by just selecting the settings for specific food types.
• Install below wall cabinets (microwave ovens with extractor fan) above the cooking area, or integrated in high cabinets (built-in microwave oven).
• Microwave ovens with an extractor fan can be installed in 2 ways: in ventilation mode (connected/ducted to the outside) or in re-circulation mode with charcoal filters, purifying the air and sending it back into the kitchen.
• For best performance, the extractor hood should be switched on a few minutes before cooking and left running for at least 5 minutes after cooking.
• All microwave ovens require a qualified installer.

COOKTOPS

We have a variety of cooktops to choose from, so you can find the one that suits the way you cook. Gas, ceramic and induction cooktops all have their own unique features and benefits. Whether you are an ambitious home chef or more of a quick and low maintenance cook, we have something that’s right for you. Check out the descriptions on the facing page for benefits of each type of cooktop we offer.

Whatever your choice, you can be sure your appliance is made to last. Our appliances come with a free 5-year limited warranty (except LAGAN).

CERAMIC Practical and easy to clean, most of our ceramic cooktops have variable cooking zones that provide even and effective heating, adapted to the shape and size of your cookware. With just a touch, you can select features and regulate the heat exactly the way you want.

GAS The blue flames of gas cooktops are more than a professional looking feature, they give you quick, responsive heat control, perfect for fast, fresh cooking.

INDUCTION Fast, energy efficient and precise, induction cooktops only heat up the magnetic cookware on top, making them a very safe option too.
HOW TO CHOOSE YOUR COOKTOP
1. Consider your cooking needs. How often and how much do you cook? Do you prefer basic or advanced cooking?
2. Consider the style of your kitchen — traditional or modern.
3. Are there any special functions you need?

GENERAL PRODUCT INFORMATION AND FEATURES
• Gas cooktops have powerful burners with over 12,000 BTUs, generating high heat needed for rapid boiling, searing and frying. (BTUs = British Thermal Unit, is a way of measuring the output power of the gas burners.)
• Ceramic cooktops have infinite heat setting controls and a smooth surface, which makes it easy to clean.
• For induction, the power booster feature delivers additional power to a single cooking zone generating rapid intense heat.
• An Induction cooktop requires cookware with a magnetic base. They cannot be installed above an oven.
• Installation to be made by a qualified installer.

For complete information and description regarding functions and assembly instructions please visit our web site: IKEA-USA.com

EASY TO CLEAN thanks to the removable grids and sealed burners, which prevent food from dropping into the burner area.

**INDUCTION COOKTOPS**

**NUTID**

4 element induction cooktop

$999

Black. 511.826.20

Key Features:
- Induction cooktops are extremely energy efficient, fast and precise as induction technology transfers energy directly into magnetic cookware.
- The power Booster feature delivers additional power to a single cooking zone, ideal for boiling water, stir-frying food or searing meat.
- The touch control panel allows you to regulate the heat easily and precisely.
- You have excellent control when you cook since the individual timers allow you to time each zone separately.
- Pause/keep warm function allows you to suspend the cooking process if you're interrupted, then re-start again at the same temperature in an instant.
- When the pause function is activated the cooking zone is automatically switched to the keep warm setting.
- Easy to clean by just wiping with a damp cloth or sponge as spills from food or liquids do not burn on the surface.
- A heat indicator shows when the cooking zone has cooled so that you are not in danger of burning yourself.

Technical Information:
- 2×1200W induction zones with booster.
- 2×3200W induction zone.
- Voltage: 220-240V.

W30¼"×D20⅛"×H2½"
EXTRACTOR HOODS

Not only does an extractor hood keep the kitchen free of steam, grease and cooking odors, it's also an important design element.

Whether you're looking for a ceiling-mounted extractor hood for over a kitchen island or a wall-mounted model, we've got you covered. Our hoods come in a range of extraction capacities too, so you can be sure to get one with the right amount of muscle to keep your kitchen fresh.

Whatever your choice, you can be sure your appliance is made to last. Our appliances come with a free 5-year limited warranty (except LAGAN).

STYLE AND SIZE An extractor hood can make a big style statement, whether you pick one that's similar to your other appliances or go for something different to create a casual, eclectic look.

WALL-MOUNTED These hoods are design features. We offer a variety of shapes and finishes. You can find the right one to boost your kitchen's style.

BUILT-IN Hide your extractor hood with a built-in model. It's completely integrated with your kitchen cabinets so you get a streamline and uniform look.
HOW TO CHOOSE YOUR HOOD

1. Choose a style and color that match your other appliances and the rest of your kitchen.
2. Choose between built-in, ceiling-mounted or wall-mounted.
3. Consider the functions and performance you want. Will your hood use a filter and recirculate air or will it be ducted to your ventilation system? What extraction rate do you need and what noise level is acceptable?

GENERAL INFORMATION FOR ALL HOODS

- For best performance, the extractor hood should be larger than the cooktop, never smaller! It needs to be switched on a few minutes before starting to cook and left running for at least 5 minutes after cooking.
- Keep in mind the distance between the cooktop and the hood. For most hoods the rule is 24” for an electric cooktop and 27” for a gas cooktop. For more information check the installation manual.
- Use a low speed setting for boiling small pans, a medium speed setting when boiling several pans or light frying and a high speed setting for stir-frying in a wok and deep frying.
- Most of our hoods can be installed in two ways, either ducted to the outside, or in recirculation mode using a charcoal filter.
- The accessories for a hood installation are sold separately.
- Installation to be made by a qualified installer.

For complete information and description regarding functions and assembly instructions please visit our website: IKEA-USA.com

SOUND LEVELS

Sound levels for appliances are measured in decibels (dB) and sones. Our appliances have been tested to determine and measure this.

For extractor hoods the operating speed or installation type can influence sound levels.

Decibel levels are listed in the product information. Compare decibel levels and choose the hood that’s suitable for your needs and comfort.
**LUFTIG**

**Vented extractor fan**

- **Price:** $69
- **Color:** White. 202.225.33

**Key Features:**
- Control panel placed in front for easy access and use.
- 1 dishwasher-safe grease filter included.
- Can be installed only in ducted mode connected to the outside.

**Performance:**
- Extraction rate: 190 CFM.
- Noise level: 4.5 sones/62.1 dB.
- Motor power: 132W.
- To be completed with bulb E27 Max. 75W.
- Cabinet, knobs and handles are sold separately.

**Measurements:** W29⅞” x D18⅝” x H4⅞”

---

**EVENTUELL**

**Built-in extractor hood**

- **Price:** $399
- **Color:** Stainless steel. 702.995.63

**Key Features:**
- Control panel placed in front for easy access and use.
- 2 dishwasher-safe grease filters included.
- 2 halogen bulbs included.
- Can be installed in two ways, ducted to the outside or in recirculation mode fitted with charcoal filter.

**Performance:**
- Extraction rate: 225 CFM, ducted using 7” round ventilation.
- Noise level: 7.3 sones/78.1 dB.
- Motor power: 156W.
- To be completed with bulbs E27 Max. 75W.
- Cabinet, knobs and handles are sold separately.

**Measurements:** W29⅞” x D18⅝” x H4⅞”

---

**SEMI-INTEGRATED EXTRACTOR HOODS**

**LUFTIG**

**Extractor fan**

- **Price:** $119
- **Color:** Stainless steel. 502.225.36

**Key Features:**
- Control panel placed in front for easy access and use.
- 1 dishwasher-safe grease filter included.
- Can be installed only in ducted mode connected to the outside.

**Performance:**
- Extraction rate: 225 CFM, ducted using 7” round ventilation.
- Noise level: 6.5 sones/67.8 dB.
- Motor power: 156W.
- To be completed with bulb E27 Max. 75W.
- Cabinet, knobs and handles are sold separately.

**Measurements:** W29⅞” x D18⅝” x H4⅞”

---

**WALL MOUNTED EXTRACTOR HOODS**

**LUFTIG**

**Extractor hood**

- **Price:** $399
- **Color:** Stainless steel. 102.225.38

**Key Features:**
- Control panel placed in front for easy access and use.
- 2 dishwasher-safe grease filters included.
- 2 light bulbs included.
- Can be installed in two ways, ducted to the outside or in recirculation mode fitted with charcoal filter.

**Performance:**
- Extraction rate: 400 CFM.
- Noise level: 6.9 sones/69.1 dB.
- Motor power: 264W.
- 2×40W light bulbs included.

**Measurements:** W30” x D20” x H38⅜-52”
**WALL MOUNTED EXTRACTOR HOODS**

**GODMODIG**

Wall mounted extractor hood

$429

Stainless steel. 302.548.68

Key Features:
- Control panel placed in front for easy access and use.
- 1 dishwasher-safe grease filter included.
- 1 light bulb included.
- Can be installed in two ways, ducted to the outside or in recirculation mode fitted with charcoal filter.

Performance:
- Extraction rate: 400 CFM, ducted using 6” round ventilation.
- Noise level: 7.2 sones/68.8 dB.
- Motor power: 264W.
- 1×40W light bulb included.

Measurements:
- W30×D20×H27¾-45½”

---

**DÅTID**

Extractor hood

$679

Stainless steel. 802.006.51

Key Features:
- Control panel placed in front for easy access and use.
- 1 dishwasher-safe grease filter included.
- 2 halogen bulbs included.
- Can be installed in two ways, ducted to the outside or in recirculation mode fitted with charcoal filter.

Performance:
- Extraction rate: 400 CFM.
- Noise level: 5.8 sones/66.7 dB.
- Motor power: 264W.
- 2×20W halogen bulbs included.

Measurements:
- W30×D18¾×H31⅜-44¾”

---

**KORTVARIG**

Wall mounted extractor hood

$749

Stainless steel. 702.548.66

Key Features:
- Control panel placed in front for easy access and use.
- 1 dishwasher-safe grease filter included.
- 2 halogen bulbs included.
- Can be installed in two ways, ducted to the outside or in recirculation mode fitted with charcoal filter.

Performance:
- Extraction rate: 400 CFM, ducted using 6” round ventilation.
- Noise level: 7.1 sones/68.5 dB.
- Motor power: 264W.
- 2×20W halogen bulbs included.

Measurements:
- W30×D19⅝×H27⅞-46⅝”

---

**CEILING MOUNTED EXTRACTOR HOODS**

**OBEROENDE**

Ceiling-mounted extractor hood

$899

Stainless steel/glass. 502.548.67

Key Features:
- Control panel placed in front for easy access and use.
- 1 dishwasher-safe grease filter included.
- 2 halogen bulbs included.
- Can be installed in two ways, ducted to the outside or in recirculation mode fitted with charcoal filter.

Performance:
- Extraction rate: 400 CFM, ducted using 6” round ventilation.
- Noise level: 7.2 sones/68.8 dB.
- Motor power: 264W.
- 2×20W halogen bulbs included.

Measurements:
- W30×D25¼×H29¾-49¾”
Whatever your choice, you can be sure your appliance is made to last. Our appliances come with a free 5-year limited warranty (except LAGAN).

**Semi-Integrated**
Installation is easy with a semi-integrated dishwasher. They’re sized to slide right under your countertop.

**Integrated**
Our fully integrated dishwashers can hide behind a front that matches the rest of your kitchen doors, giving you a completely uniform look.

**Water Efficient**
Lots of dishes will be sparkling clean with just a small amount of water.

**Smart Sorting**
Our cutlery baskets let you stand utensils up, ensuring they’re thoroughly cleaned. Once the wash is done, they’re easier to sort and put away too.

A dishwasher is more water and energy efficient than washing dishes by hand. With sterilizing functions, it’s more hygienic too. We offer both fully integrated and semi-integrated models. Whichever you choose, you’ll get a tall interior space that will fit oversized dishes and large loads. Most of our dishwashers are ENERGY STAR rated and come with a limited warranty.
HOW TO CHOOSE YOUR DISHWASHER:
1. Consider your household needs and choose the dishwasher with the right capacity.
2. You can choose between a fully integrated model or models that just slide under your countertop.

GENERAL PRODUCT INFORMATION AND FEATURES
• All dishwashers have tall interiors that hold a larger amount of dishes and allow you to make maximum use of dish space.
• The cutlery baskets are removable.
• The sanitation option uses a high temperature rinse to clean your dishes and glassware.
• The delayed start option allows you to wash when it suits you.

• A fully integrated dishwasher can be aligned with the rest of the kitchen drawer fronts, use VÅGLIG connection rail for installation.
• Installation to be made by a qualified installer.

For complete information and description regarding functions and assembly instructions please visit our web site: IKEA-USA.com

SOUND LEVELS
Sound levels for appliances are measured in decibels (dB). Our appliances have been tested to determine and measure this. For dishwashers the operating program or installation type can influence sound levels. Decibel levels are listed in the product information.

Compare decibel levels and choose the dishwasher that’s suitable for your needs and comfort. Look for the decibel (dB) level of an appliance listed in the product information.

**WARRANTY – TERMS AND CONDITIONS**

**APPLIANCES**

**What is covered under this limited warranty?**

How long is the IKEA limited warranty valid?

This limited warranty is valid for five (5) years from the date of purchase, when this major appliance is operated and maintained according to instructions for use attached to or furnished with the product.

This limited warranty is valid only in the United States and applies only when the major appliance is used in the country in which it was purchased. Outside the 50 United States, this limited warranty does not apply. Proof of original purchase date is required to obtain service under this limited warranty.

**What does this limited warranty cover?**

The limited warranty will pay for factory specified parts and repair labor to correct defects in materials or workmanship that existed when the major appliance was purchased. The exceptions are specified under the headline “What is not covered under this limited warranty?”

**Which major appliances are not covered by the IKEA five (5) year limited warranty?**

For major appliances named “LAGAN”, a limited warranty is valid for one year from the date of purchase.

**What will be done to correct the problem?**

The designated service company will examine the product and decide, at its sole discretion, if it is covered under this limited warranty. If considered covered, the designated service company will then repair the defect. Your sole and exclusive remedy under this limited warranty shall be product repair as provided herein.

All appliances are designed for domestic/home use only. Care instructions

- For gas cooktops: fit the rubber seal properly. It prevents water leakage, which may damage the cooktop.
- For induction cooktops: use only pots and pans with a magnetic base for induction cooking.
- For glass ceramic cooktops: use only pots and pans with a flat base.
- For glass ceramic cooktops: always remove spills because they may cause opaque or matt stains on the surface.

**Hoods**

- Install the hood in the way that suits your kitchen; either recirculating or extraction type.
- Use extraction tubes and flues reduces the hood's performance. The maximum length of a duct should not exceed 10 ft.
- Always observe the minimum safety distance between hood and top of the cooking unit. Refer to installation instructions of the product for full details.
- Change grease filters every 3 months and clean metal grease filters regularly to optimize performance.
- Make sure to clean the grease off of the hood regularly.

**Microwave ovens**

- Do not put metal of any kind inside the oven.
- Use only those materials approved for microwave cooking.
- Be sure the ventilation vents are unobstructed.
- Do not remove or block the turntable when cooking in a microwave.

**Dishwashers**

- Hire a professional to install the water and electricity.
- Set the correct level of water hardness (pH-value) in the rinse aid dispenser.
- Use detergent specifically developed for automatic dishwashers.
- For best results, make sure there is enough rinse aid and detergent and that they are placed in the correct dispensers.
- Empty and clean the filter regularly, if applicable.
- Always load stemware, such as knives, pointing downwards in the removable cutlery basket for safety reasons. Don’t load these in the dish compartment to avoid scratching the filter.

**Fridge/freezers**

- Be sure to place the fridge/freezer where there is sufficient air ventilation around it. A free-standing unit must never be placed inside a cabinet because this obstructs air ventilation and may cause the product not to work properly and damage it.
- keep the condensation drainage hole at the back of the fridge and free of obstructions to allow the frost-free system to work.
- Make sure food is cooled down first before placing it in the fridge or freezer. Hot food causes excessive condensation and ice to build up in the freezer, resulting in reduced performance.
- Avoid using sharp tools to defrost your freezer – they can damage the internal plastic lining.

**How to reach us if you need our service**

If you need service, please read the Installation Instructions and/or the “Troubleshooting” section of the Instructions for Use booklet before contacting us. Please have the IKEA article number for your appliance to hand before calling us. You’ll find the 8 digit number on your receipt as well as on the rating plate of the appliance. If you need additional help, do not hesitate to contact us in the U.S. at 1-877-844-4449.

**Country of Origin**

For all our products, we choose specialized manufacturers who can produce our components at the lowest price. A single item may consist of several components from different countries. Country of origin information is available on each component when you pick it up.

**Stock Availability**

Not all products may be available in all stores. See what is available in your local store by visiting IKEA-USA.com/stockavailability.
DO IT YOURSELF IN 4 EASY STEPS

Here’s how to buy your kitchen at IKEA. Remember that we have services to help you every step of the way. Simply choose the ones you need.

1. MEASURE

Measuring your kitchen isn't hard to do, but it’s important you get it right because your measurements will be the basis for all your planning. To see exactly what to measure, pick up a copy of the Kitchen planning guide at your local IKEA store or go to IKEA-USA.com/kitchen.

Need some help? Find out about our in home Measuring Service at IKEA-USA.com/services

2. DREAM AND PLAN

Planning your kitchen is when your dreams and ideas take shape. There are lots of things to think about, like where to put the fridge or how many drawers you need. That’s why we have tools that will help you decide on the perfect design. If you want some expert advice we have Kitchen Planners ready in the store to help.

Need some help? Find out about our in home planning and design services at IKEA-USA.com/kitchen

3. ORDER

When you’re satisfied with your planning, drop by your local store to visit our kitchen experts. They will go over your kitchen plan with you and help you with anything you’re not sure about. When you’re ready, you can order and we can help arrange delivery and other services too. Delivery and in-home services are provided by an Independent Service Provider.

Need some help? Find out about how to order your kitchen at IKEA-USA.com/kitchen

4. INSTALL

IKEA kitchens are designed to be installed by you, but we’re here to help as much as you’d like along the way. You can start by picking up the Kitchen Installation Guide, which shows you how to do it yourself, step by step. Or check out the different installation services we offer, all performed by an Independent Service Provider.

Need some help? Find out about our Installation Service at IKEA-USA.com/services

INSTALLATION SERVICES

Take advantage of a full range of services from planning to installation - everything you need to make your kitchen dream a reality. Simply choose the package that suits you.

PROFESSIONAL KITCHEN MEASUREMENT

We offer a Measuring Service that will send an experienced professional from an Independent Service Provider to your home to assess the conditions and provide accurate measurements. Not only can this service save you all kinds of headaches, but when you buy an IKEA kitchen it costs you nothing - your Measurement Service fee is refunded.

IN-HOME INSTALLATION PRICE QUOTE VISIT

Upon completion of your Kitchen Plan on our IKEA Home Planner, we can schedule your in-home Installation Price Quote visit. A professional from an Independent Service Provider will quote the scope, price and timeline for installation of your IKEA kitchen.

KITCHEN INSTALLATION SERVICE

Installation is provided by an Independent Service Provider and is priced per cabinet so it’s easy to calculate the cost of installation. Complete your kitchen with our additional services. Each additional installation service has a unit price so it’s also easy to calculate the total price of any additional services you may need.

INDIVIDUAL KITCHEN PLANNING SERVICE

This service includes the Measuring Service and a Personal Planning Consultation. A professional kitchen planner from an Independent Service Provider will visit you, in your home, for a non-refundable fee, for up to 4 hours, to give you a detailed layout of your kitchen including cabinets, appliances and IKEA countertops.

Your Personal Consultation with your Kitchen Planner includes:
• Detailed kitchen plan and 3D view drawing prepared on the IKEA Home Planner and saved to your account under your unique user profile.
• Architectural detail drawings, shop drawings, and specifications are available at additional costs.

WE’VE GOT THE TOOLS TO HELP MAKE YOUR DREAM KITCHEN A REALITY. FIND THEM AT YOUR LOCAL IKEA STORE OR ON IKEA-USA.COM

Our kitchen brochure is one of your best sources for ideas and information. Plus it gives you an overview of our whole kitchen range.

Our three buying guides have detailed information about our kitchen range. You’ll be able to compare products and choose exactly what you need for your kitchen.

IKEA-USA.com is one of your biggest resources for making your dream kitchen a reality. Here you’ll find our Home Planner and information on our complete range of kitchen products and services.

Our planning guide helps you measure, plan, order, and install your IKEA kitchen. It’s your kitchen workbook, including tips and advice for planning your new kitchen.

Our kitchen installation guide gives you the information you need, plus some handy tips for installing your kitchen properly.
Save water and energy.

Using a dishwasher is more water and energy efficient than washing dishes by hand. And it’s more hygienic too! Plenty of dishes gets sparkling clean with only 1.95 gallons of water.

Energy efficient and smart features.

There is no need to waste more energy and space inside your refrigerator with water gallons or ice containers. Thanks to the door integrated water dispenser and ice maker you get easy access to cold filtered water, ice or crushed ice any time you want.
ALL THE HELP YOU NEED TO MAKE YOUR DREAM KITCHEN A REALITY

At IKEA we believe everyone has the right to a new kitchen. Apart from offering a wide range of kitchens, we also offer a wide range of services that include measuring, planning and installation. Everything you need to make getting your dream kitchen as easy as possible. At your local IKEA store you’ll find our team of kitchen experts who are always on hand to answer questions, give practical advice and help you through the buying process.

MEASURING SERVICE

Have an experienced professional from an Independent Service Provider come to your home and take all of the essential measurements and notes. Prices start from $49. When you buy an IKEA Kitchen it costs you nothing - your measurement service fee is refunded to you.

INDIVIDUAL KITCHEN PLANNING

A professional kitchen planner from an Independent Service Provider will visit your home for up to 4 hours to give you a detailed layout of your kitchen, individual cabinets, appliances and countertops.

INSTALLATION PRICE QUOTE

Upon completion of your kitchen plan, an experienced kitchen remodeling professional from an Independent Service Provider will visit your home to discuss the scope of work, price and timeline for installation.

INSTALLATION SERVICE

Save time and effort with professional installation provided by an Independent Service Provider. Read more on page 57.

Prices are valid until June 30, 2016
