

Buying guide

LILLÅNGEN

Bathroom furniture

Safety

Furniture must be fixed to the wall. Different wall materials require different types of fixing devices. Use fixing devices suitable for the walls in your home, sold separately.

Care and cleaning

Wipe furniture clean with a cloth dampened in water or a non-abrasive detergent, then wipe dry with a clean cloth.

The wash-basin and mixer tap should be wiped clean with a cloth dampened in water or a non-abrasive detergent.

The wash-basin is resistant to most chemicals, except for strong acids and strong alkalis. Therefore never use scouring powder, steel wool or a detergent that is calcium-dissolving, sour or contains alcohol or an abrasive.

Smart use of small space

LILLÅNGEN series helps make use of every square centimetre of your bathroom. It includes wash-basins in different widths and depths, cabinets with different functions and open shelves that allow you to mix open and closed storage. The wash-basins also come with clever hooks for towels and a wash-basin tray for soap and toothbrush mug. With LILLÅNGEN series, your tiny bathroom will feel bigger in no time!

How to choose

1. Start planning your bathroom by thinking about the wall space you have available for a wash-basin cabinet and wash-basin, since this is the centre of most bathroom activities. The LILLÅNGEN series comprises wash-basin cabinets of different sizes and storage capacities.

LILLÅNGEN series is flexible so you can mix-and-match your wash-basin cabinet together with open shelves. You can either have the wash-basin cabinet as a combination of a full cabinet or in combination with an end unit - open shelf for more accessible storage.

If you want a different expression in your bathroom you can choose to combine LILLÅNGEN wash-basin cabinets with VISKAN counter-top that is available in different colours and GUTVIKEN counter-top washbasin. IKEA bathroom counter-tops have been developed with special attention to quality, so they are water resistant, durable and will last a long time. They come in 3 different sizes that match LILLÅNGEN wash-basin cabinets and end units perfectly creating endless possibilities. Choose the look that suits you and your bathroom best.

After you have decided on the size and storage capacity of the wash-basin cabinet, you can choose between white, black-brown or white/aluminium finishes. White/aluminium finish is not available in all functions.

2. The LILLÅNGEN wash-basins have a smart edge, where you can keep your most necessary items close at hand. The deep wash-basins come with matching accessories such as a soap dish, towel hooks and tray – and the shallow version comes with towel hooks.

LILLÅNGEN wash-basins are made in ceramic. Ceramic wash-basins have a glazed finish and are easy to clean. They have excellent scratch resistance and are very durable.

All wash-basins come with a water trap and strainer, with the exception of TÄLLEVIKEN and TYNGEN which come without a water strainer. The water trap is flexible and can be connected to both washing machines and dish-washers.

3. You can find a wide selection of wash-basin mixer taps at IKEA. Choose your tap based on function and design. All taps come with a strainer kit, with the exception of OLSKÅR. All taps at IKEA have a water-saving device that uses 50% less water but ensures that the water flow feels the same.

Most of our taps have a special function – a cold water start that helps you save energy. Usually, you turn on an ordinary tap by lifting the lever straight up, which releases both cold and hot water. But often, the hot water does not reach the entire way out and stops in the pipes. When you lift the lever straight up on a tap with a cold water start function, only cold water is released, which reduces any waste of hot water. To release the hot water, you lift the lever to the left.

4. The wash-basin cabinet can be mounted to the wall with or without supporting legs. In case if you decide to use supporting legs make sure you pick the correct combination of legs. The cabinets that have 38 cm depth need the LILLÅNGEN legs pack of 4, the shallow cabinets that are 25 cm deep require pack of 2 legs. The legs are sold separately.
5. Now it's time for you to choose what to put above and around your wash-basin: mirror, mirror cabinet, high cabinet, high cabinet with mirror door, wall cabinet. The combination possibilities are endless. Make your choice based on your bathroom storage needs and space.

Finally, you can complete your bathroom with accessories and small furniture from ENUDDEN and DYNAN series. They are designed to match LILLÅNGEN so the look in your bathroom will be totally coordinated in colour and style.
