WALL ANCHORING GUIDE

Type of Wall Material: Using the guide below, identify your wall material and the appropriate steps to take for that wall material.

Masonry

1. Mark the attachment spot on the wall with a pen.
2. Use 5/16-inch (8mm) drill diameter. Drill 3/4-inches (70mm) deep.
3. Insert plug(s). Use hammer if needed.

Drive in screw(s) with washer(s) and tighten. Do not over-tighten.

Drywall without available wood stud

1. Mark the attachment spot on the wall with a pen.
2. Use 5/16-inch (8mm) drill diameter and drill through the wall.
3. Insert plug(s). Use hammer if needed.

Drive in screw(s) with washer(s) and tighten. Do not over-tighten.

Drywall or plaster with available wood stud

1. Mark the attachment point(s) on the wall with a pen.
2. Drill 1/8-inch (3mm) diameter pilot hole(s)

Drive in screw(s) with washer(s) and tighten firmly into the wood.

If your wall material is not listed here, or if you have any questions, consult your local hardware store.

GUIDE DE FIXATION AU MUR

Type de matériau du mur : à l'aide du guide ci-dessous, identifiez le matériau du mur et suivez les étapes qui correspondent à ce matériau.

Maçonnerie

1. À l'aide d'un crayon, faites un point de repère à l'endroit où vous allez percer le trou.
2. Utilisez une perceuse avec un foret de 8 mm de diamètre. Percez un trou de 70 mm de profondeur.
3. Insérez la cheville. Utilisez un marteau si besoin.

Enfoncez la vis avec un écrou et vissez. Attention de ne pas trop visser.

Cloison sèche sans montant en bois

1. À l'aide d'un crayon, faites un point de repère à l'endroit où vous allez percer le trou.
2. Utilisez une perceuse avec une mèche de 8 mm de diamètre et percez un trou.
3. Insérez la cheville. Utilisez un marteau si besoin.

Enfoncez la vis avec un écrou et vissez. Attention de ne pas trop visser.

Cloison sèche ou plâtre avec montants en bois accessibles

1. À l'aide d'un crayon, faites un point de repère à l'endroit où vous allez percer le trou.
2. Percez un trou de 3 mm de diamètre.

Insérez la vis avec un écrou et vissez solidement dans le bois.

Si le matériau de votre mur n'apparaît pas dans la liste ci-dessus ou pour toutes autres questions, demandez conseil à un spécialiste.

INSTRUCCIONES PARA FIJACIÓN A LA PARED

Material de las paredes: consulta la guía a continuación para identificar el material de la pared y las instrucciones apropiadas.

Pared de mampostería

1. Marca en la pared los puntos de fijación con un lápiz.
2. Utiliza una broca para taladrar de 8 mm de diámetro. Practica un orificio de 70 mm de profundidad en cada marca.
3. Inserta los tacos ayudándote, en caso necesario, con un martillo.

Inserta los tornillos con las tuercas y aprieta, pero no demasiado fuerte.

Pared de láminas de yeso sin estructura portante de madera.

1. Marca en la pared los puntos de fijación con un lápiz.
2. Utiliza una broca para taladrar de 8 mm de diámetro. Practica un orificio de 70 mm de profundidad en cada marca.
3. Inserta los tacos ayudándote, en caso necesario, con un martillo.

Inserta los tornillos con las tuercas y aprieta, pero no demasiado fuerte.

Pared de láminas de yeso con posibilidad de fijación a la estructura portante de madera.

1. Marca en la pared los puntos de fijación con un lápiz.
2. Utiliza una broca para taladrar de 8 mm de diámetro. Practica un orificio de 70 mm de profundidad en cada marca.

Inserta los tornillos con las tuercas y aprieta bien en la madera.

Si el material de tus paredes no aparece en esta lista o tienes dudas, consulta en tu ferretería.
