Plan less, live more

ENHET is easy to buy and equally easy to update if you need to, or simply feel like it. You can choose between ready-made combinations online and buy your favourite with a few clicks. All parts are easy to assemble, intuitively and without any special tools.

The playful design in different colours inspires you to adapt ENHET to reflect your personality. With a combination of closed cabinets and open shelves in stable metal frames you can display your favourite things and hide the rest. The ENHET bathroom units also come in different widths and depths, making them easy to adapt to a smaller space.

All the products (shown here) may not be available at the store. Please contact the staff or look at www.IKEA.my for more information. For more detailed product information, see the pricetag and the Internet. All units require assembly.

How to plan

What do you want to store?

Start by thinking what storage needs do you have in your bathroom. Think of the activities that happen in your bathroom like laundry, shower, clean and care. How many people use the bathroom and when is the rush hour usually. Based on these activities you can plan how many storage units you will need as well as decide if a drawer or a door solution will be best suited for your needs. Think of the wall space you have too in your bathroom as this will be perfect place for shelving units that take very little space but they create lots of storage capacity for all the clean and care products that find home in the bathroom.

How much space do you have?

Decide on where you will place your vanity unit and start building your new bathroom around this space, see if you have enough wall space for an additional storage unit like a high cabinet or a shelving unit. Sketch out the space, measuring from the width and the height from the floor, if you have a narrow bathroom then the depth of you furniture will make a difference. For narrow bathrooms you can consider shallow ENHET cabinets of 15 and 30 cm depth. Take detailed measurements, note the shower area and all the space you might need for the piping that could affect your storage solution.

Want a ready-made combination?

We have made it much easier to buy ENHET bathrooms be it IKEA.com or the store, we have created ready-made combinations that you can choose after you have considered what type of storage you need. These combinations are varied and have been designed to cover a wide storage functionality as well as style needs. You can buy them here in the store or on [www.IKEA.my](#).

Do you want to create your own solution? Use the additional information provided in this buying guide to follow these simple steps:

1. **Pick a base cabinet**

ENHET comes in open and closed frame solutions. The open base frames can work both under the wash-basin as a vanity unit and as an additional shelving unit next to the vanity. You can also choose between different wall shelves to build more storage space around your vanity unit maximising the storage possibilities. The open base cabinets come in 40 and 60 cm width and 40 cm depth. The wall frames come in 40 and 60 cm width and 15 depth. There is also a high frame with 30 cm width and 180 cm height. You can choose between white, anthracite and red orange colours. The latter doesn't come in all functions.

The closed wooden-base material cabinets come with 2 functionality - either with a shelf, or 2 drawers, so depending on your preferences you can choose the functionality that works best in your bathroom. The base cabinets come in 40, 60 and 80 cm width along with a high cabinet function that is in 30 cm width and 180 cm in height. You can choose between white and grey colours for the base cabinets. The uniqueness of these frames is that they work perfectly to be combined with the open frames of ENHET bathroom series so you can mix and match creating a unique solution that will be truly yours.
2. **Choose the accessories**

There are a wide range of accessories designed to be combined with ENHET open base frames to add more functionality and versatility to your ENHET solution. Like the hooks and hook rail can create space for many towels to hang and dry all at the same time, or SKATTÅN container could become a perfect home for all your makeup brushes, with TAVELÅN trays you can store all your small items like hair pins, jewellery and the swivel shelf can become your favourite place to keep your nail polish bottles and the shaving kit for a quick and smooth access.
3. **Choose the expression**

Finally choose the colour and expression of your fronts. The fronts are available in white, white stained oak finish, grey, concrete expression, high gloss white, framed mirror doors and just flat mirror doors so the possibilities are many you just need to pick the expression that fits best your style and bathroom making it look just great!

How to combine

Here is a little guide to explain how you can put together your very own ENHET bathroom solution. For all the parts and pieces see page 18. If you want to browse our ready-made solutions just check pages xx in this buying guide or IKEA.my.

Complete your combination with lighting

How to build

SILVERGLANS LED cabinet lighting is easy to install by yourself.

- When you start building your system, you must first consider the widths of your cabinets. E.g. for a cabinet with a width of 60 cm, you'll need the SILVERGLANS lighting strip 60 cm too.
- Choose the number of SILVERGLANS lighting strips that you need.
- Add the SILVERGLANS LED driver. You can connect up to 5 units to the driver, as long as the total wattage does not exceed 30W.
- SILVERGLANS driver needs to be connected to your wired-in electrical installation. In some countries electrical installation work may only be carried out by an authorized electrical contractor. Contact your local electricity authority for advice.
- Add the TRÅDFRI wireless dimmer to dim your lighting. Pair the dimmer to the SILVERGLANS driver and the entire combination will dim at the same time.
- Add the TRÅDFRI gateway to control SILVERGLANS connected lighting from the IKEA Home smart app in different ways together with other TRÅDFRI lighting in your home.
- If you chose our ready-made ENHET solutions just add the SILVERGLANS/TRÅDFRI Lighting kits fits to this combination from page 00.
