New Zealand Business Number (NZBN): 9429047515468

IKEA kitchen sinks and washbasins can be used as part of the plumbing system in residential and/or commercial buildings. Kitchen sinks can be used for the purposes of the preparation of food, washing of dishes and discharge of domestic wastewater, and washbasins for the purposes of personal hygiene.

IKEA recommend that installation is carried out by a registered plumber in accordance with the supplied instructions and in accordance with the relevant requirements of AS/NZS 3500. Limitations, installation and maintenance requirements and clean and care instructions can be found in accompanying literature or are available for download from the IKEA website.

IKEA kitchen sinks and washbasins are not subject to a warning or ban under section 26 of the Building Act 2004.

IKEA kitchen sinks and washbasins are compliant with the New Zealand Building Code as follows:

B2 Durability

B2.3.1 (c) applies:

Building elements must, with only normal maintenance, continue to satisfy the performance requirements of this code for the lesser of the specified intended life of the building, if stated, or:

(c) 5 years if:

- (i). the building elements (including services, linings, renewable protective coatings, and fixtures) are easy to access and replace, and
- (ii). failure of those building elements to comply with the building code would be easily detected during normal use of the building.

Contribution to compliance:

IKEA kitchen sinks have a durability of at least 5 years and comply with the relevant requirements of AS 1172.8. IKEA washbasins have a durability of at least 5 years and comply with the relevant requirements of AS 1172.4.

G1 Personal hygiene

G1.3.2 applies:

Sanitary fixtures shall be located, constructed and installed to:

- (a) facilitate sanitation,
- (b) avoid risk of food contamination,
- (c) avoid harbouring dirt or germs,
- (d) provide appropriate privacy,
- (e) avoid affecting occupants of adjacent spaces from the presence of unpleasant odours, accumulation of offensive matter, or other source of annoyance,
- (f) allow effective cleaning,
- (g) discharge to a plumbing and drainage system as required by Clause G13 Foul water when water-borne disposal is used, and
- (h) provide a healthy safe disposal system when non-water-borne disposal is used.

Contribution to compliance:

IKEA kitchen sinks and washbasins have durable finished coatings for ease of cleaning and comply with the relevant requirements of AS 1172.8 or AS 1172.4.

G12.3.5 applies:

Sanitary fixtures and sanitary appliances must be provided with hot water when intended to be used for—

- (a) utensil washing; and
- (b) personal washing, showering, or bathing.

Contribution to compliance:

IKEA kitchen sinks and washbasins shall be provided with hot water to facilitate their intended use (tapware not included).
