

BUYING GUIDE

# BETYDLIG/RÄCKA/HUGAD

## Window hardware

### PARTS

Wall/ceiling bracket  
Curtain rod holder  
Curtain rod  
Finial  
Curtain rod corner connector

### Simplicity and variety hand in hand

We all have different needs and preferences when it comes to dressing the windows in our home. But no matter what style you choose, you will need basic hardware like brackets, rods and finials to complete the job.

You can combine the different hardware in our range to create just the solution to suit your needs. You may want to mount a rod on the wall or the ceiling to create a simple one-layer curtain or a magnificent triple-layer curtain for your large windows.

The bracket and rod come in two colours: black and white. If you would like to give your window a new look, simply change finials. And you can change them any time you like – it's fun, easy and makes a big difference!

All the products (shown here) may not be available at the store. Please contact the staff or look at [IKEA.ph](http://IKEA.ph) for more information. For more detailed product information, see the pricetag and the Internet. All units require assembly.

# HOW TO BUILD

①

②

1. The brackets can be mounted on the wall or the ceiling. And the position of the curtain rod holder can be adjusted, allowing curtains to be hung either close to the window or farther out. The curtain rods come in two diameters, three lengths and two colours. All are extendable in length. You can complete the expression easily with finials from the IKEA range.

2. To create a layered solution, you just need to buy extra rod holders and mount them on the brackets. Then add extra curtain rods.

# COMBINATIONS

A single window, for example 130 cm, with a single-layer solution.

### Window hardware, black

RÄCKA curtain rod 120–210 cm	002.171.51	€ 100/pc	1 pc

# MEASURE YOUR WINDOW

Start by taking the measurements of your window.

## 1. The width.

This determines the width of your curtain rod or track rail.

Measure the width of the window. **a**

Add at least 10 cm on each side to the measurement **a** to ensure the window will be fully covered.

## 2. The height.

This determines the length of your curtains or panel curtains.

Measure from the top of the window frame and stop where you want your curtains or panel curtains to end. **b**

As a rule of thumb, add 10 cm to the measurement **b** to give space to your curtain rod or track rail. Add a few centimetres to allow for the shrinkage of the curtains.
