Good to know

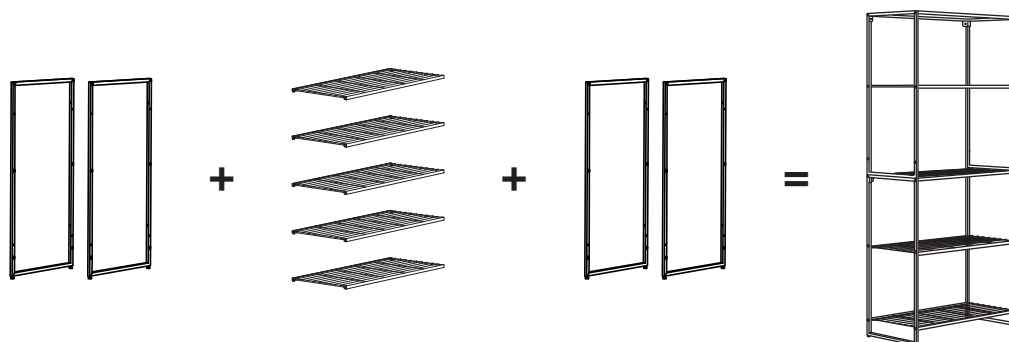

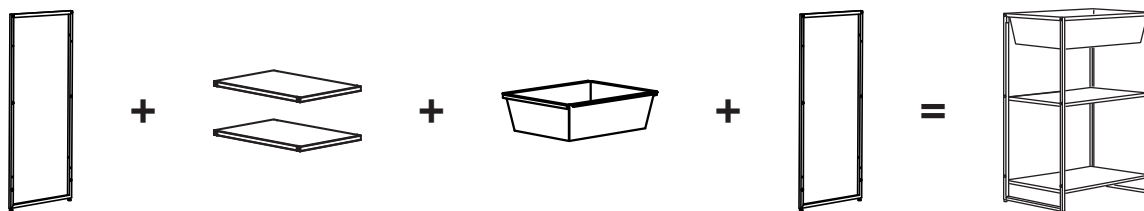

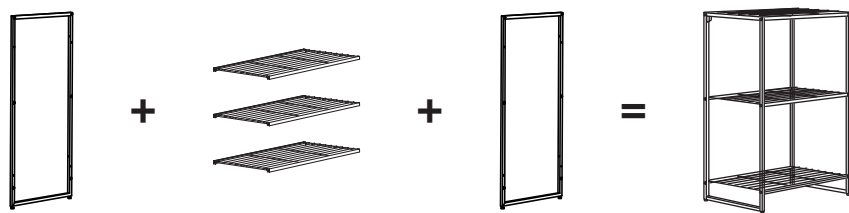

Suitable for both indoor and outdoor use.

The flexible, affordable JOSTEIN storage system is made to create more room for everyday life in limited spaces. The system works in all areas of the home – even outdoors – and can be changed to suit your changing needs.

JOSTEIN storage system withstands moisture, making it perfect to use both outdoors on the balcony and indoors in areas like the laundry room or bathroom.

How to build

Start by thinking about what you want to store and the space you have available. JOSTEIN is sleek and meant to suit those narrow spaces in your home where you need to organize, but can't fit much.

A side unit package of 2 is needed to build a combination. Combine it with three shelves - choose the width and design (metal or wire) that suits your needs best. A container may be added on top instead of a shelf, if that suits you better.

If you put two side units on top of one another, you can build a 180cm high shelving unit combination. Add 5 shelves to complete the higher combination.

More functions can also be added to JOSTEIN combinations, such as an extendable drying rack (to the higher combinations) or a stand with bags for laundry or waste sorting - find out more by scrolling through the buying guide.
