

Buying guide

BILLY

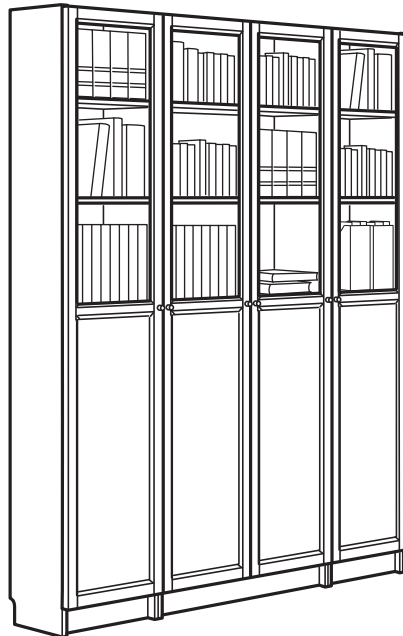

Bookcase series

Safety

This furniture must be fixed to the wall with the enclosed wall fastener.

Different wall materials require different types of fixing devices. Use fixing devices suitable for the walls in your home (not included).

Tempered glass should be handled with care! A damaged edge or a scratched surface can cause the glass to break suddenly. However, only into small pieces, never into sharp fragments.

Storage for all occasions and needs

BILLY bookcase is a beloved icon that never goes out of style. Thanks to its versatility you can use it in many different ways at home – regardless of whether you store books or everyday items in it. A single unit can be enough, but you can also add more bookcases, extension units and shelves to create a larger and more personal combination. BILLY is available in different heights, widths, and expressions so you can always find a storage solution that suits you and your home!

Better and better, day by day

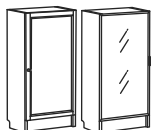

BILLY was launched in 1979 and is just as popular today. We're constantly working to make the series even better, more relevant and more useful. Some changes, like new wooden expressions, you see right away. Others take longer to discover, for example that BILLY is made of high-quality paper foil and that the back panel fixes in place with snap fittings. This makes it easy to assemble and disassemble, so you can bring it when moving and continue to enjoy your BILLY for years.

All the products (shown here) may not be available at the store. Please contact the staff or look at www.IKEA.ph for more information. For more detailed product information, see the pricetag and the Internet. All units require assembly.

Combinations

Overall size: Width×Depth×Height.

BILLY bookcase with panel and glass doors. A panel door hides your belongings and protects them from dust. HÖGBO door can also be used with the included panel in black/white or put photos, fabric or wallpaper between the glass and the panel to personalise it. Integrated lighting

Conventional or connected IKEA smart lighting?

Good lighting makes life easier and helps you set the right mood. The options here are made for BILLY. Light up your favourite pictures and collections, and enjoy the cosy reflected light. And of course lighting makes finding things easier, on shelves or even inside cabinets. The TRÅDFRI LED driver makes MITTLED, TVÅRDRAG, and YTBERG smart and gives them the ability to be wireless dimmed with STYRBAR remote control or RODRET wireless dimmer and to be connected to the DIRIGERA hub.

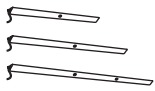

TVÅRDRAG cabinet lighting. The traditional expression of the lamp goes nicely with the cabinets in the BESTÅ, HAVSTA and HAUGA series. The metal shade creates a direct light that illuminates your cabinet or wardrobe. If you want the lamp's light to be directed into your display cabinet, just angle the lamp head inwards. Provides a focused light that is good for lighting smaller areas. You can dim your lighting wirelessly and easily adapt the lighting based on activity. The bracket makes it possible to slide the lamp back and forth. You easily attach it with screws – or with double-sided adhesive tape on glass and metal surfaces. The LED light source consumes up to 85% less energy and lasts 20 times longer than incandescent bulbs. You can turn up to 6 light sources on and off simultaneously if you complete with ANSLUTA driver. If you also want to be able to dim, choose TRÅDFRI driver and STYRBAR remote control or RODRET wireless dimmer instead. Sold separately.

Black	505.168.26	P1,299
-------	------------	---------------

YTBERG cabinet lighting. The lamp's slim and neat design goes with most styles and is perfect if space is limited between the top of your wardrobe or cabinet and the ceiling. You can easily direct the light where you like since the flexible goose-neck arm can be bent and angled – perfect when it's time for homework, arts and crafts or cuddling up with a good book. Spreads a soft light that creates a cosy atmosphere in the room. The bracket makes it possible to slide the lamp back and forth. You easily attach it with screws – or with double-sided adhesive tape on glass and metal surfaces. The LED light source consumes up to 85% less energy and lasts 20 times longer than incandescent bulbs. You can easily direct the light where you like since the arm can be bent 180° and the lamp head angled 90°. You can turn up to 6 light sources on and off simultaneously if you complete with ANSLUTA driver. If you also want to be able to dim, choose TRÅDFRI driver and STYRBAR remote control or RODRET wireless dimmer instead. Sold separately.

Black	205.278.93	P699
White	305.168.27	P699

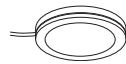

ÖVERSIDAN LED wardrobe lighting strip with sensor. Available in 3 colours, and illuminates the interior of your cabinet. Easy to install inside the cabinet frame – at the top or under a shelf by using the included fittings and the light switches on and off automatically when you open or close the door so no energy is wasted. Dimmable with STYRBAR remote control or RODRET wireless dimmer. Sold separately. Works with IKEA Home smart.

19W	604.058.42	P599
-----	------------	-------------

DIRIGERA hub for smart products. DIRIGERA hub is the heart of a smart home as it enables you to connect and control your smart products in the IKEA Home smart app. You can control your smart home using one or multiple mobile and tablet devices - just download the app to each one. DIRIGERA hub requires a Wi-Fi network and connects to your router with the provided cable. Together with the IKEA Home smart app, the DIRIGERA hub brings the most benefits to your smart home.

705.034.08	P4,999
------------	---------------

STYRBAR remote control. STYRBAR remote control allows you to control multiple light sources with a click. Create atmosphere by dimming and adjusting colour and warmth of the lights. We care just as much about our planet as you. That's why the remote control is best powered with LADDA rechargeable batteries, AAA. Sold separately.

Stainless steel	004.636.08	P999
White	104.883.64	P599

RODRET wireless dimmer/power switch. Now it's really easy for anyone to use smart lighting. With RODRET wireless dimmer you can control your light sources – turn on, turn off and dim so you always have the right light and mood at home.

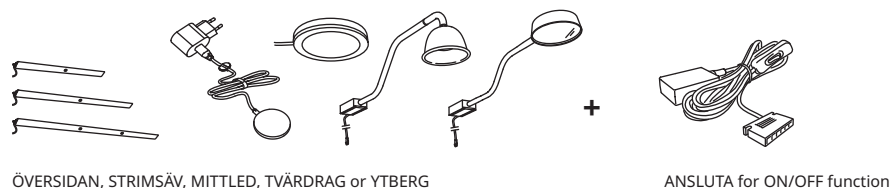

505.597.93	P349
------------	-------------

How to choose integrated lighting

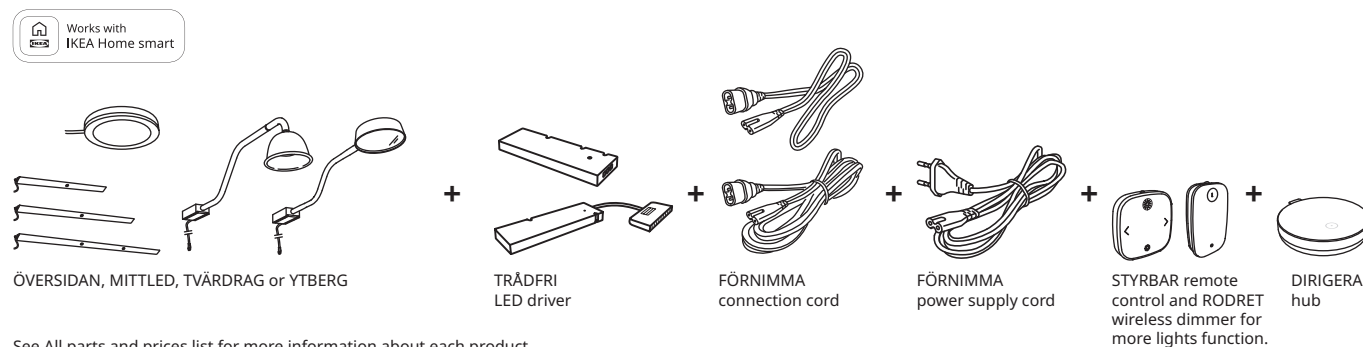

Now you can choose cabinet lighting placed on top of the cabinet to help you see what's on the top shelf it also provides a nice and cosy atmosphere in the entire room when the cabinet doors are closed. A perfect choice if there is little space between

the top and the ceiling, and the spotlight brightens up the inside of your cabinets and creates a cosy mood lighting under the self. You can even connect to IKEA's Smart lighting ranges using the remote control or wireless dimmer and DIRIGERA hub.

Basic parts

Smart solution

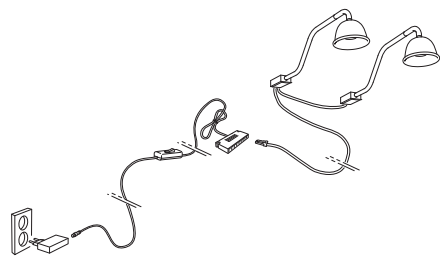

How to choose a driver

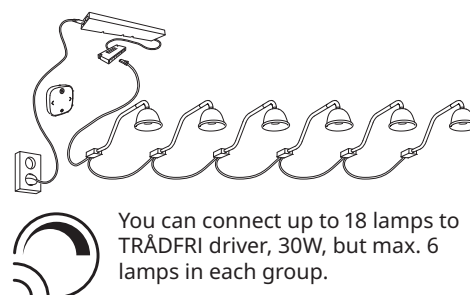

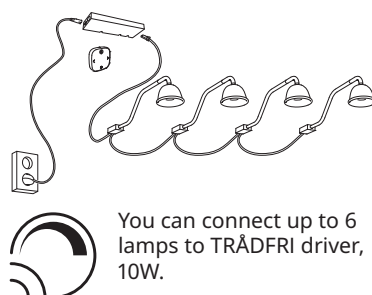

There are two LED drivers. Choose based on how many units you want to connect. For the 10W driver you can connect up to 6 units, as long as the total wattage does not exceed 10W. The 30W LED driver can support up to 9 units, max. wattage 30W. You can connect up to 10 drivers in one installation cord. Flashing lights indicate that the maximum wattage of the LED driver is exceeded. If you want to use more than one LED driver,

make sure to synchronise each LED driver with the STYRBAR remote control or RODRET wireless dimmer so that the entire combination can be dimmed at the same time. Make your cabinet lighting smart by adding the DIRIGERA hub. You can control your lights from the IKEA Home smart app and create a mood together with your other smart lighting.

Inside the cabinet, over the cabinet and spotlight

ÖVERSIDAN Easy to install inside the cabinet frame – at the top or under a shelf by using the included fittings. TVÄRDRAK and YTBERG are cabinet best friend - lights things up and spread a soft light that create a cosy atmosphere in the room. It also provides a focused light that is good for lighting smaller areas. Use it on top of a cabinet in the living room, a perfect choice if there is little space between the top and the ceiling.

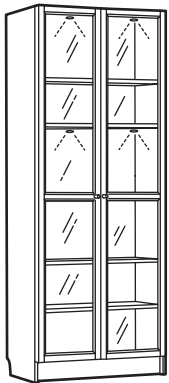

Lighting inside the cabinet

MITTLED and STRIMSÄV LED spotlight brightens up the inside of your cabinets and makes it easy to see and find what you need. Show off your beloved dinnerware collection. The lighting enhances the atmosphere and gives a good overview of things inside your cabinets. Easy to install on your own – no electrician needed.
