Good to know

A well organised kitchen is a kitchen you'll love spending time in. When planning what your kitchen cabinets should include, think of how you want to utilise them in the best possible way based on your personal needs.

1. The kitchen is a place where you normally do a lot of activities, and it can easily become a bit messy. By having your cleaning gadgets close by in a high cabinet, it'll be easier to keep your kitchen spick and span.
2. A deep high cabinet is ideal for storing everything from dry food, oil and vinegar to bulky kitchen machines.
3. Gather all the items you use for setting the table in one spot to make it smooth and easy. Spacious, fully extendable drawers in the base cabinets are great for cutlery, serving bowls and plates. Use the wall cabinets for lighter things like glasses, mugs and jars. If possible keep this area close to the dishwasher to simplify putting the clean dishes back in place.
4. Deep corner cabinets are perfect for storing bulky pots and other large cooking utensils.
5. Add VADHOLMA open cabinet to personalise your kitchen and create a nice break in a row of cabinets with doors. Fill it with cookbooks and other often-used items in the kitchen.
6. The sink cabinet is a good place for recycling bins as you do a lot of food preparations in and around it. If you can, place the sink next to the dishwasher as we have done here (if you can't see the dishwasher, it's because it's built in with the same front as the rest of the kitchen). That way you can rinse off dirty tableware before putting it in the dishwasher, as well as vegetables and other food that you're about to cook. With a built-in dishwasher between the sink and the hob, you also create a very practical preparation area on top.
7. Use the top drawer underneath the hob for storing knives, whisks and other cooking utensils to have them within easy reach. High drawers underneath are ideal for other gadgets you normally use when cooking, for example frying pans, pots and strainers.
8. A base cabinet between the hob and the built-in oven adds storage for all the extra things that might come handy when cooking: spices, wraps, tinfoil, oven gloves, pot stands and other things you need when using these appliances.
9. By placing the oven in a high cabinet you get it at a perfect working height. And you get storage space for baking sheets, ovenware, serving bowls and whatever else you might use in the oven.
10. Our fridges, freezers and fridge/freezers are designed to fit your space and how you cook. You can have them integrated in ventilated cabinets with reinforced shelves or free standing.

Good to know

1. UTRUSTA cleaning interior make it easy for you to see and reach what's inside. The organiser take care of everything from the iron to cleaning supplies. Plus, it'll stop your vacuum cleaner from attacking you whenever you open the door to your cleaning cabinet.
2. Fully extendable, soft closing MAXIMERA drawers behind the door enable you to see, reach and access everything. Even the things at the back you thought you didn't have.
3. Customise your storage in the drawers with the help of MAXIMERA adjustable dividers, and add organisers such as cutlery trays, plate holders and boxes from the series UPPDATERA to keep everything in perfect order and easy to find.
4. With a UTRUSTA corner cabinet pull-out fitting it's easy to see and reach even the things furthest away in the deep corner. You can also choose carousels for both wall and base cabinets – just swivel them around to swiftly reach everything inside.
5. Create extra shelves with VARIERA shelf inserts to get more space for glasses, bowls and jars.
6. Make recycling fast and easy with HÅLLBAR frames and bins with lid. that you can combine in different ways depending on your needs. You can place them in a pull-out waste sorting frame at the bottom of cabinets or in a shallower IKEA sink drawer (shallower to give space for the water pipes underneath the sink).

A tip is to place an inner drawer above the recycling bins for keeping detergents, washing sponges and alike. We have shallower drawers that give space for the water trap underneath the sink, but still make use of space you normally don't use.
7. UPPDATERA knife and utensils trays keep everything in place. And pot lid organisers from the same series will get the lids in place, adding more space for the pots and pans.
8. To utilize the space in the cabinet as much as possible, you can have hidden inner drawers inside larger drawers and behind doors to store all the small things you have in the kitchen. In this example we've put UPPDATERA inserts for spice jars in the inner drawer to make it easy to season the food both on the hob and in the oven.
9. MAXIMERA add-on sides for medium and high drawers allow you to stack things on top of one another without them falling out the side when you open the drawer.

How to combine your own cabinet solution

The flexibility of the METOD kitchen system allows you to build your very own personalised kitchen cabinets. When combining it yourself, you can get just the size and functionality that you want. METOD suspension rail makes it easy to mount your cabinets to the wall. You can cut the rails or combine several to the desired length. The rails have many holes so there's always a hole over a wall stud. Different wall materials require different types of fixing devices. Use fixing devices suitable for the walls in your home.
