## Hitta inspiration i Ramadan tillsammans med IKEA

Med LJUVARE kollektion från IKEA vill vi inspirera till att ge hemmet ny energi. En djärv blandning av designelement från mellanöstern blandad med skandinavisk stil; kollektionen LJUVARE bryter formen av den traditionella estetiken för Ramadan. Lugnande jordnära toner i orange och krämigt vit i kombination med glittrande guld skapar en festlig stämning.

Alla produkter i LJUVARE är designade av den i mellanöstern kända formgivaren Nada Debs samt Paulin Machado, designer hos IKEA, och har skapats med känslan av att vara handgjorda – från värmeljushållare och mysiga golvkuddar till tallrikar och guldfärgade termosar.

Skapa stämningen med LJUVARE accenter och servis som du kan använda hela året – oavsett om du är värd för iftar, suhoor eller en festlig måltid med dina nära.

## In touch with traditions

Those inspired by a more traditional Ramadan look can add an ornate touch with our antique looking lanterns to create a celebratory ambiance for the entire family.

Designer Nada Debs was inspired by brass materials which is typically used in Middle Eastern culture, where the gold-ish hues represents the richness.

### Keeping culture & heritage alive

She draws influence from her Middle Eastern heritage in creating products that showcase the beauty of her culture.
