Green and pink?
Oh, yes.

“ENSMÄRKE is a versatile lamp that suits any situation. Use it as a decorative light or angle it for focused lighting when the table doubles as a workspace. Plus, you can use it to charge your phone while you work!”

Andreas Fredriksson, Designer

A lamp that works as hard as you do

The ENSMÄRKE table lamp is your perfect workspace companion. Not only can it be angled to direct light exactly where you need it, but it also comes equipped with a practical USB-C charger for quick charging of your phone or tablet.

Cut out to be creative

You never know when DIY inspiration will strike, so it's best to be prepared with some pre-cut fabric always on hand. Choose the pattern that tickles your fancy and get creative – design a room within a room, craft unique decorations, or add pockets to your sofa for extra storage.

Use the BUSKOPUNTIA fabric as a room divider to create your own cosy space.

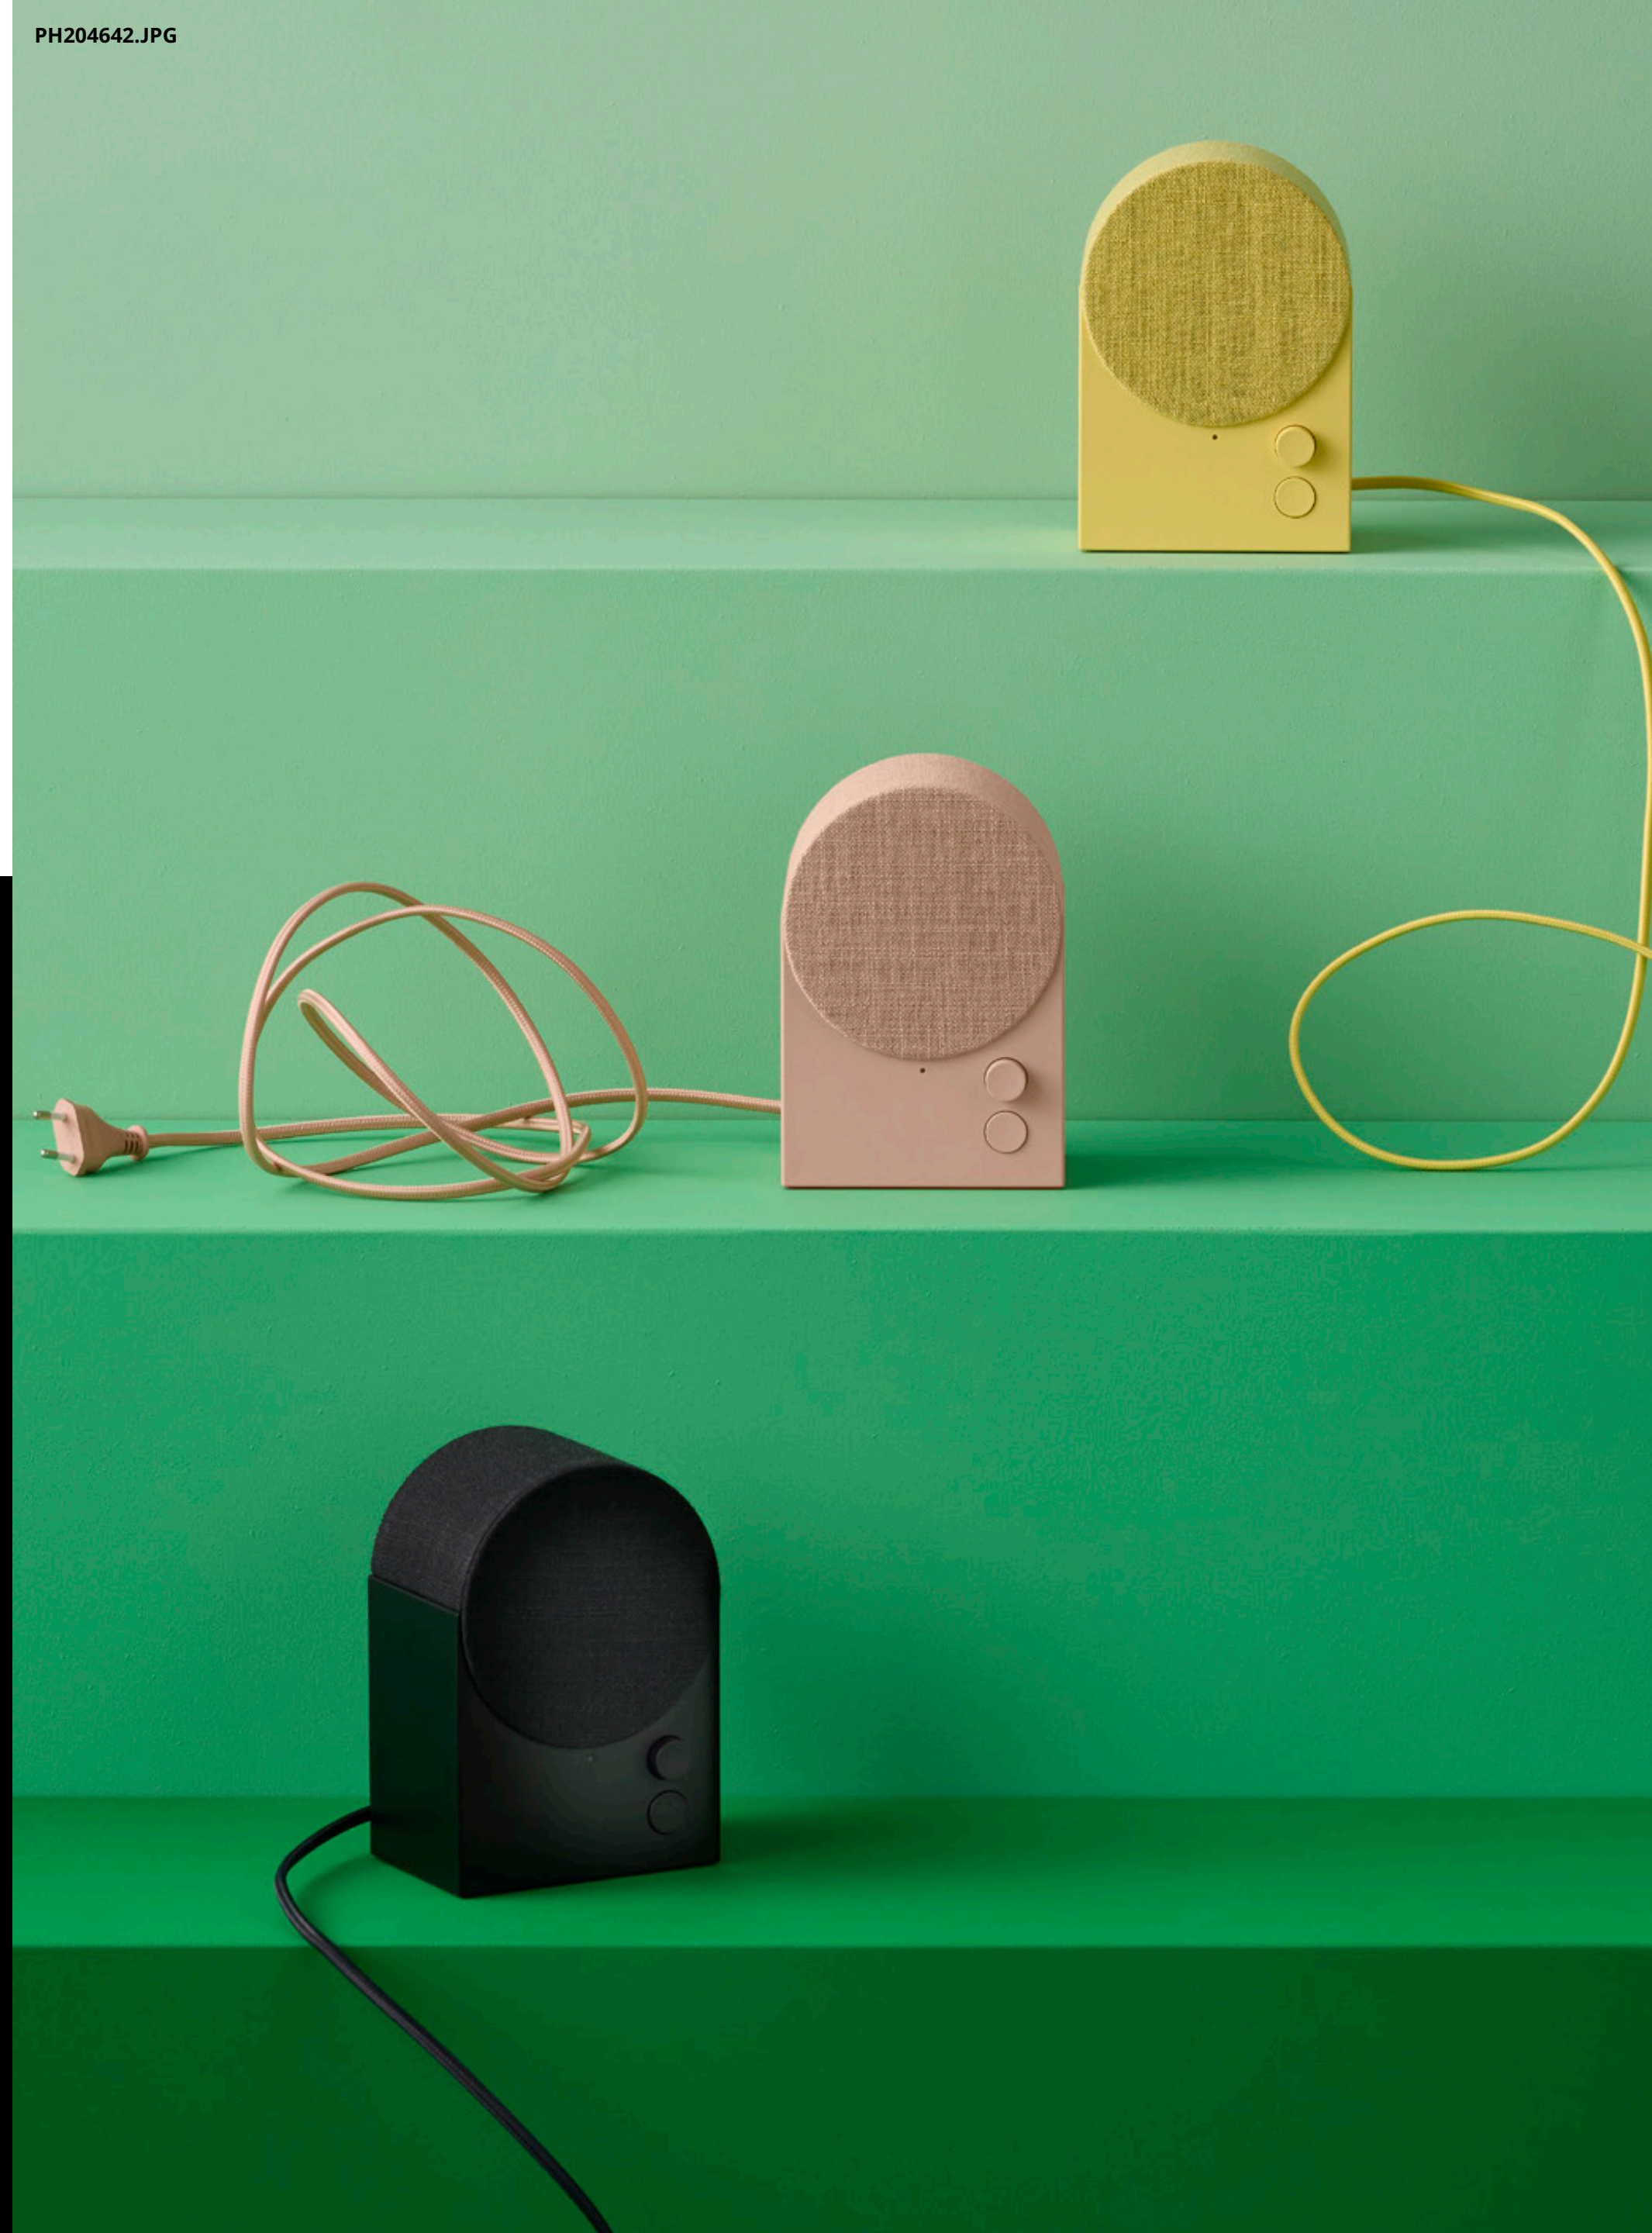

Give your plant pots and vases a makeover with our pre-cut fabric!

“When I designed NATTBAD Bluetooth speaker, I wanted to combine the look of old radios with the functions of a modern speaker – and make it a social hub in the home. Just as families once gathered around their radio, I hope today’s families can connect more by listening to music, podcasts or audiobooks together. The idea is for the speaker to be a blend of stylish interior detail and modern technology that’s easy to use.”

Jon Eliason, Designer

Keep playing

The NATTBAD Bluetooth speaker allows you to connect multiple speakers for a great sound experience. Choose different colours to match your home’s style, and keep enjoying your favourite music wherever you are.

Let's be real, not every moment in the kitchen is a blast. but a few bright touches can turn everyday chores into small moments of joy. Think colourful tea towels that add a splash of fun to dish duty or vibrant mesh storage baskets that add a pop of cheer to your routine.

And why stop there? Bring some fun to the table too! A set of dotty green bowls or cheeky frog-themed baby tableware—that helps little ones master the art of self-feeding—can make mealtimes feel more relaxed and joyful for everyone, even if the spaghetti doesn't always land where it's supposed to.
