JÄTTEBO seating series has a 10-year guarantee

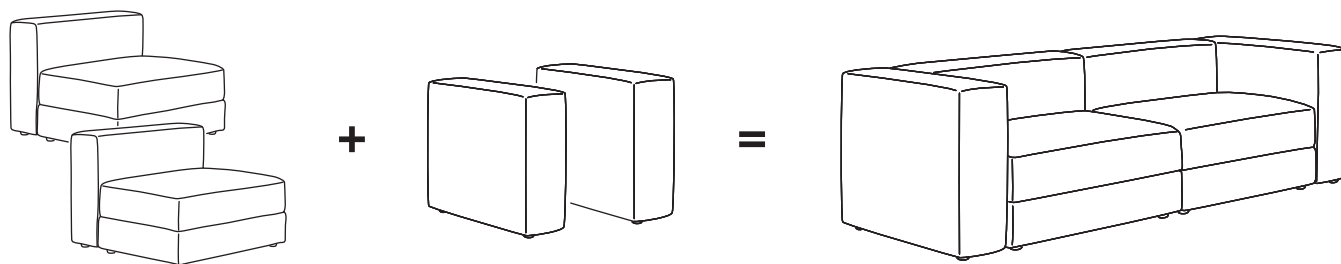

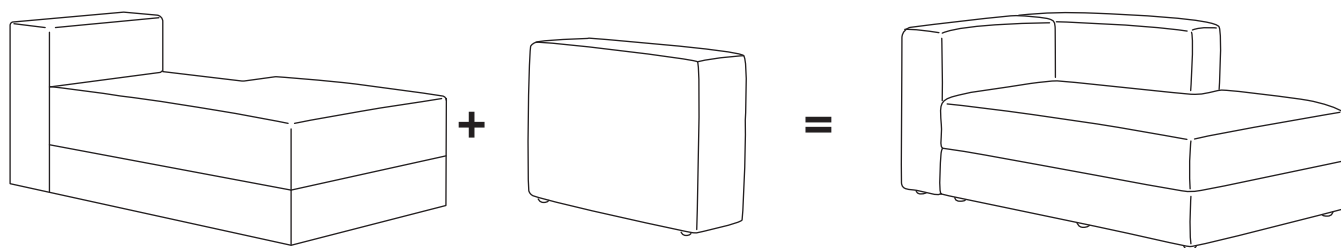

### Flexible modular sofa for everyone

Big or small, with or without a chaise longue, and maybe comfy neck cushions and armrests – or not. The flexible JÄTTEBO modular sofa could be exactly the sofa that you and your home need. Its shape has clean lines, yet it's also soft, even and comfy to take a nap on. You can also choose to place it against a wall or enjoy it freestanding since it looks just as nice from every side. And under all seat modules there's a practical storage area with room for throws and small things.

All the products (shown here) may not be available at the store. Please contact the staff or look at [IKEA.sg](https://www.ikea.sg) for more information. For more detailed product information, see the pricetag and the Internet. All units require assembly.

# How to build

## Create your unique combination

The JÄTTEBO sofa series comprises of freestanding modules that you can combine into any shape and size. This flexibility makes it easy to tailor a sofa to your needs, home and lifestyle – and change it whenever you like. You can always add more modules, armrests and headrests and choose a cover that you

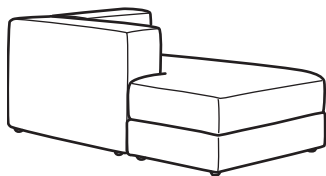

like – the possibilities of creating a personal combination are endless. Use the planning tool to explore more. You can find the tool at IKEA stores and at [IKEA.sg](https://www.ikea.sg).

# Combinations

Overall size: Width×Depth×Height.

On the following pages you can see some examples of how JÄTTEBO modular sofa can look, but you can create your very own sofa to suit you.

For more colours, sizes and possible combinations have a look at page 6 to see all parts.

# Good to know

## Our fabrics have been tested

At IKEA we test the fabric covers on our sofas and armchairs so you can be sure they're durable. The fabric's ability to resist abrasion is tested by using a machine to rub it against another fabric while applying firm pressure. A fabric that can take 15,000 cycles is suitable for furniture that must withstand everyday life at home – and if it can take more than 30,000 cycles, it is very resistant to abrasion. All fabrics are sensitive to sunlight, which is why we also check that our fabrics resist fading effectively.

## Durable in different ways

Tough tests are an important way to check the durability of our fabric covers, but they don't tell the whole story. Durability also depends on materials, construction and manner of use. Heavy, tightly woven fabrics with a flat surface are most resistant to abrasion. Fabrics with a mixture of natural and synthetic fibres can withstand abrasion better than fabrics with only natural fibers. Yarn dyed fabrics are more durable than fabrics with printed patterns. And a dirty cover wears out faster than a clean one. The fabric is also affected by how you use your sofa of course.

## A wiser use of resources

IKEA strives to use more renewable, recycled and responsibly grown materials.

## Polyester

When we create products from recycled polyester, PET bottles and other items made of polyester get a new life. The material has the same quality and function, and is just as clean and safe as virgin polyester – and we use less new materials.

	Washing instructions	Resistance to abrasion (cycles)	Light-fastness (1-8)
<b>Samsala:</b> This cover is made from an extra-wide-wale and strong corduroy fabric with soft comfort and an expression that adds character to the room.	Machine washable at 40°C.	25,000	5
<b>Tonerud:</b> This cover is made of a soft polyester fabric with a felt look and a two-toned melange effect.	Machine washable at 40°C.	50,000	5
