Quality, design and smart details
The NORDLI series is distinguished by high quality and clean, contemporary design that makes it a stylish choice for the bedroom. It has smart details, like soft-closing drawers, a bed frame with storage and hidden cable management in the bedside table. The series also includes different modular chests that you can combine to perfectly suit your space. The chests offer super-flexible storage – not only for your bedroom but for other rooms, too – like the living room, hallway or even your business.
We all want our homes to be a safe place. But in our homes, accidents can put children at risk. Working together, we can help prevent these accidents and make the home a safer place.

Modular chest of drawers – how to build

We have a wide range of pre-designed combinations to choose from. Some are included in this brochure, and more combinations can be found in the store and on our website at IKEA.sg.

You can create the perfect solution to match your needs and taste. There are 2 simple steps to follow.

Start by choosing the width of your solution. The top and plinth are sold together and come in widths of 40 cm, 80 cm and 120 cm. Then choose the size and colour of your modular chest of drawers. For the different sizes and available colours, please see the list below.
