![Warning symbol]

Instructions:
- Install the spring assembly with 6x screws.
- Ensure the assembly is securely fastened to the metal block.

Note:
- Follow the manufacturer's guidelines for installation.
- Use the correct tools for assembly.

Safety Tips:
- Wear safety glasses during assembly.
- Keep hands and fingers away from moving parts.

Assembly Parts:
- Metal block
- Spring assembly
- 6x screws

Preparation:
- Clean and inspect the metal block for any damage.
- Organize the assembly parts before starting.

Installation:
1. Place the spring assembly on the metal block.
2. Secure the assembly using 6x screws.
3. Check the assembly for proper tension and alignment.

Troubleshooting:
- If the assembly is loose, tighten the screws.
- If the spring is not tensioned properly, adjust the assembly.

Maintenance:
- Periodically check the tension of the spring assembly.
- Clean and inspect the assembly every 6 months.
