Ruedas de seguridad

Nuestras sillas tienen ruedas de seguridad, lo que significa que se activa automáticamente un freno cuando nadie está sentado en ellas. Así no rodarán cuando te levantes, y siempre la encontrarás justo donde la dejaste.

Català

Rodes de seguretat

Les nostres cadires tenen rodets de seguretat que frenen automàticament quan no hi ha ningú assegut. Així, quan t'aixequis no es mourà i sempre te la trobaràs on l'hagis deixada.
