Care instructions

Environment

The material in this product may be recyclable. Please check the recycling rules in your community and if recycling facilities exist in your area.

Material

Galvanized steel is a recyclable material with a protective layer of zinc which makes the surface durable, hard-wearing and means that it's very low maintenance.

Safety

Secure It! Prevent tip-over injury. Furniture with included restraints must be secured to the wall according to the assembly instructions.

Different wall materials require different types of hardware. Use hardware suitable for the walls in your home.

Good to know

Only for indoor use. Can also be used in bathrooms and other damp areas indoors.

Simple to build and easy to personalize

In the spacious OMAR storage system, there's plenty of room for both small and big items. Start by thinking about what you want to store. Then combine shelf sections, shelving units and bottle shelves the way that suits your space best. You can build upwards and to the sides – without tools. For small items, there are practical clip-on baskets.
