Plan less, live more

ENHET is easy to buy and equally easy to update if you need to or simply feel like it. You can choose among ready-made combinations online and buy your favorite with just a few clicks. The parts are intuitively easy to assemble and don't require any special tools.

The playful design in different colors inspires you to adapt ENHET to reflect your personality. With a combination of open frames and closed cabinets you can display your favorite things and hide the rest. The ENHET kitchen units also come in different widths and depths, making them easy to adapt to many spaces.

A high standard of accuracy has been sought in the preparation of this buying guide. We apologize for, but will not be bound by or responsible for, errors and omissions in this buying guide.

IKEA INSTALLATION SERVICES LIMITED WARRANTY

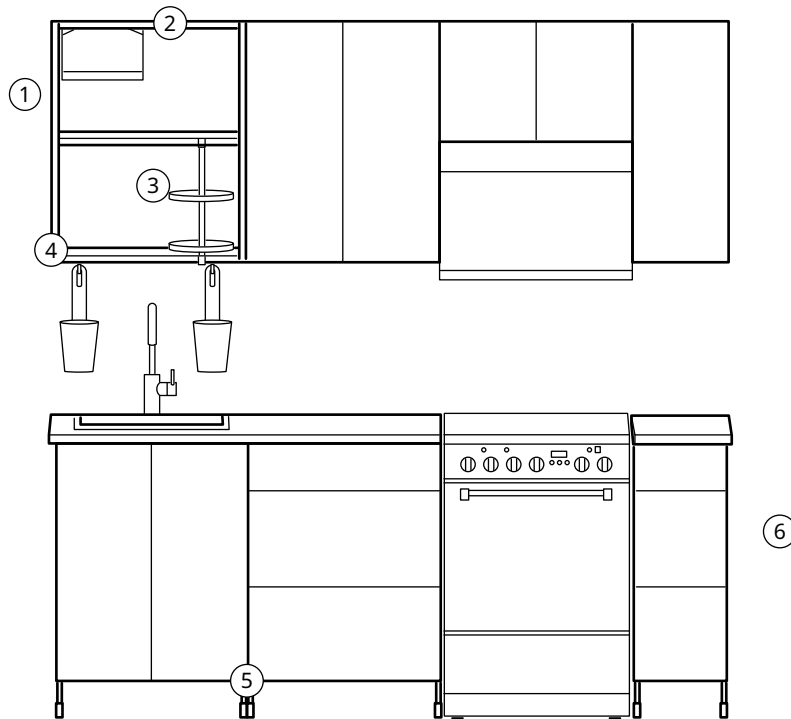

IKEA offers an industry-leading five-year limited warranty on labor in conjunction with the IKEA 10-year limited warranty for ENHET, you'll receive when purchasing your new IKEA Kitchen.

Organize your kitchen

A well organized kitchen is a kitchen you'll love spending time in. When planning what your kitchen should include, think of how you want to utilize your workspace, cabinets and open frames in the best possible way based on your personal needs.

There are several accessories designed to be combined with ENHET open frames to add more functionality and versatility to your ENHET solution.

For all the functions of ENHET accessories check page 19.

1. An open frame above the sink gives a good overview and keeps things at hand, while freeing up space on the countertop.
2. ENHET hanging shelf insert helps create storage space between the shelves in the ENHET open frame.
3. ENHET swivel shelf gives you quick and easy access to items like spice jars and coffee cups.
4. ENHET rails, hooks and SKATTÅN containers allow you to utilize every inch under the wall frame.
5. The wide base cabinet with drawers gives you plenty of space to organize and store kitchen utensils and larger items like chopping boards, bowls, pots and pans.
6. To complete your fully functional kitchen, simply place a refrigerator at the end of the run.

Storage combinations

Add space for activities

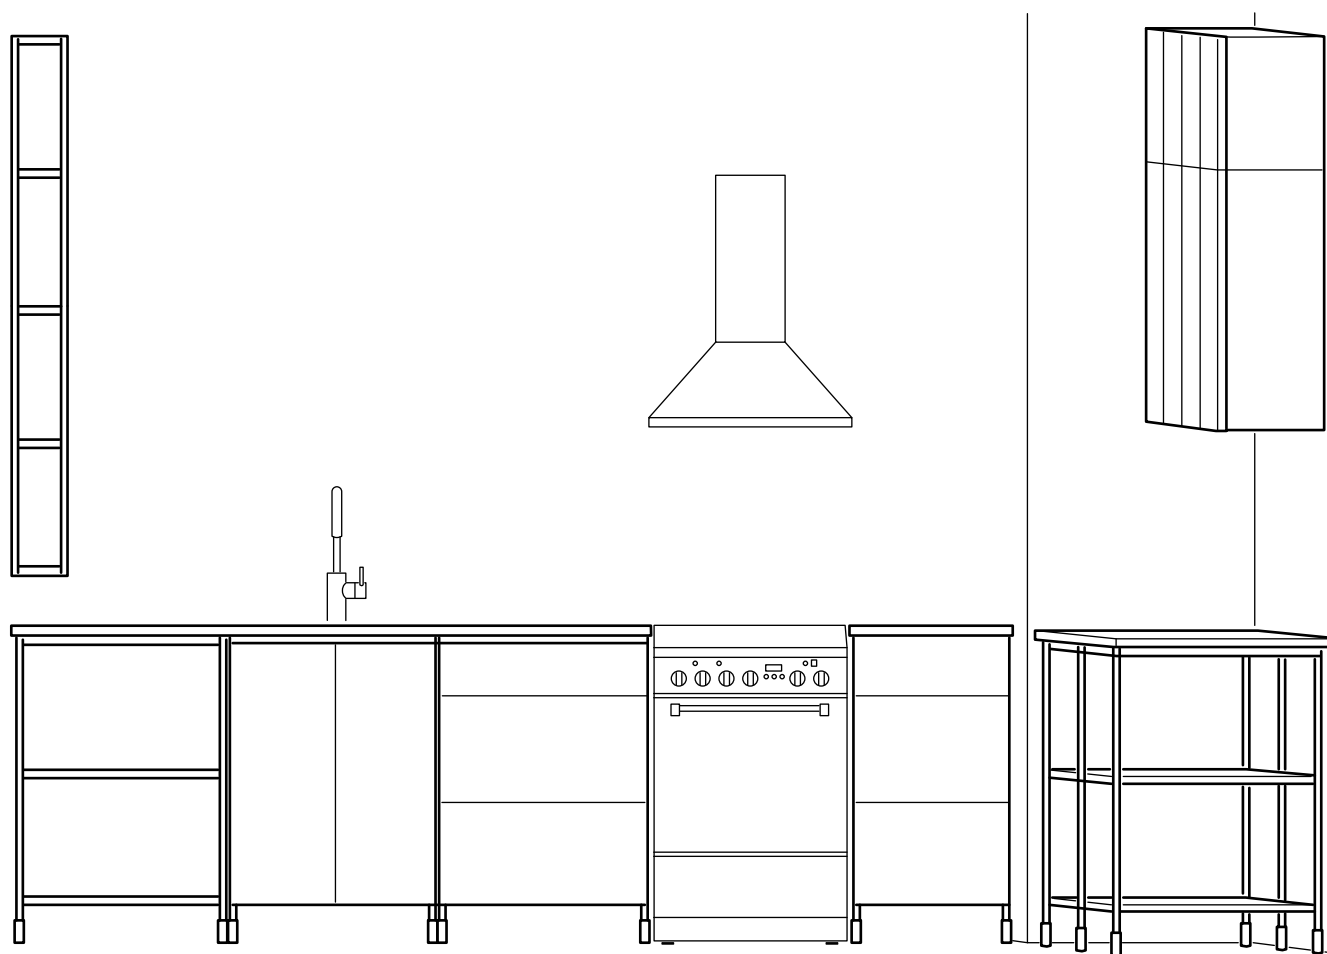

Your kitchen is the heart of your home and has to be both beautiful and functional over time. ENHET can easily be extended with units that offer more storage opportunities and maybe room for dining or simply hanging out. Cooking is also easier when you have plenty of workspace.

With this in mind we have created several storage combinations, all of which suit different needs and help you use your space efficiently.

A small-space home inspires smarter living. By adding a wall storage combination you gain extra countertop space that can be used for food preparation and presentation. This unit also provides valuable closed storage along the wall, allowing you to hide any clutter. The open unit beneath can be used to store items you use more often.

With everything in its place, in a combination of open and closed storage, you can create a calm and inviting atmosphere even in a smaller kitchen.

ENHET Swivel shelf Tired of looking for those things that tend to disappear in the kitchen? You can easily solve this by attaching this handy swivel shelf to any of the wall frames in the ENHET series. You can find and reach the things you need by turning the shelf. Perfect to have as a spice rack to keep all the flavors close at hand when you are cooking. 16×8".

Anthracite	205.145.60
------------	------------

ENHET Hooks You can hang these hooks in the grooves under the ENHET frames — or on ENHET rail for hooks that is sold separately. With these hooks, you turn unused space into practical storage space. Perfect for everything from utensils to towels in the kitchen. Hang SKATTÅN containers on the hooks to make room for even more. Sold separately.

Complete your combination with lighting

How to build

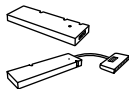

SKYDRAG LED cabinet lighting is easy to install by yourself.

- When you start building your system, you must first consider the widths of your cabinets. For example, for a cabinet with a width of 24", you'll need the SKYDRAG lighting strip 24" too.
 - Choose the number of SKYDRAG lighting strips, not to exceed 10W or 30W. TRÅDFRI drivers need to be connected to the plug with an ANSLUTA power supply cord.
- Add TRÅDFRI or STYRBAR wireless dimmer to dim your lighting. Pair the dimmer to the TRÅDFRI driver and the entire combination will dim at the same time.
 - Add the DIRIGERA hub to control SKYDRAG connected lighting from the IKEA Home smart app in different ways together with other TRÅDFRI lighting in your home.
