How long is the warranty valid?

The limited warranty for kitchen faucets purchased at IKEA remains in force for ten (10) years and is valid from the date of purchase. The original purchase receipt is required as proof of purchase.

What is covered under this warranty?

The 10-year limited warranty is valid for all kitchen faucets at IKEA.

This limited warranty applies to domestic use only and covers defects in material and workmanship in all kitchen faucets. Our kitchen faucets are tested well beyond all relevant international standards and we use only top brand components to secure our 10-year limited warranty promise.

What is not covered under this warranty?

This limited warranty does not cover normal wear and tear, cuts or scratches, or damage caused by impacts, accidents or waterborne debris. It also does not apply to the filter/aerator which should be cleaned regularly or replaced when worn out.

Follow our assembly instructions and care instructions carefully. This limited warranty does not apply to products that have been stored, assembled or installed incorrectly, used inappropriately, abused, misused, altered, or cleaned with wrong cleaning methods or wrong cleaning products.

This limited warranty does not apply if the products have been used for public use, outdoors or in a corrosive environment. It also does not cover accidental damage.

For customers in the US only: some states do not allow the limitation or exclusion of incidental or consequential damage, so this limitation or exclusion may not apply to you.

What will IKEA do to correct the problem?

IKEA will examine the product and decide, at its sole discretion, if it is covered under this warranty. If considered covered, IKEA through its own service operations, will then, at its sole discretion, replace it with the same or a comparable product. If it is covered by this warranty, IKEA will pay the costs of replacing it, labor and travel for staff, that IKEA incur, provided that the product is accessible for replacement without special expenditure. This does not apply to any work not authorized by IKEA. Replaced faucet becomes the property of IKEA. If the item is no longer sold by IKEA, IKEA will provide an appropriate replacement. It is IKEA that determines, at its sole discretion, what constitutes an appropriate replacement.

Care instructions

Let water run through the kitchen faucet before using it for the first time. Screw off the filter/aerator and run water through it for about 5 minutes. Then screw it back on again.

For daily cleaning of your kitchen faucet, use a soft cloth dampened with water and a mild detergent or soap, if necessary. Never use scouring powder, steel wool or a detergent that is calcium-dissolving, a strong acid, alkalis or contains alcohol or an abrasive. Rinse with water and dry/polish with a clean dry cloth.

To remove calcium deposits, use ordinary white vinegar diluted in water and rinse with plain water. At IKEA, we recommend removing the filter/aerator on the kitchen faucet and cleaning it now and then. If the filter/aerator has a build-up of calcium, wash it in a vinegar solution. Read more in the care and advice instruction that comes with the product.

Certification

Certain countries have introduced statutory requirements for the approval and certification of kitchen faucets. Our faucets have been approved and certified to meet the relevant demands in every market.

The certificate number is stated on the assembly instructions that are supplied in the faucet packaging.

How country and state law applies

This limited warranty gives you specific legal rights, and is in addition to your statutory legal rights.
