

BUYING GUIDE

BETYDLIG/RÄCKA/HUGAD

Curtain rod system

PARTS

Wall/ceiling bracket
Curtain rod holder
Curtain rod
Finial
Curtain rod corner connector

Simplicity and variety hand in hand

We all have different needs and preferences when it comes to dressing the windows in our home. But no matter what style you choose, you will need basic hardware like brackets, rods and finials to complete the job.

You can combine the different hardware in our range to create just the solution to suit your needs. You may want to mount a rod on the wall or the ceiling to create a simple one-layer curtain or a magnificent triple-layer curtain for your large windows.

The bracket and rod come in two colors: black and white. If you would like to give your window a new look, simply change finials. And you can change them any time you like — it's fun, easy and makes a big difference!

A high standard of accuracy has been sought in the preparation of this buying guide. We apologize for, but will not be bound by or responsible for, errors and omissions in this buying guide.

Not all products may be available in all stores. See what is available at your local store by visiting IKEA-USA.com. For more detailed product information, see the price tag or visit IKEA-USA.com. All products shown require assembly. All textiles shown are imported.

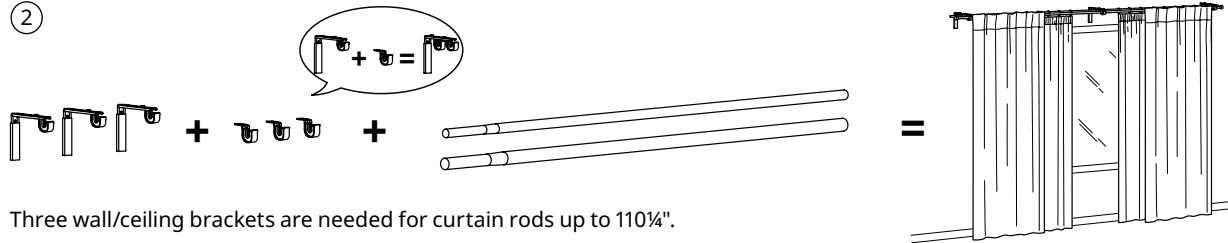

HOW TO BUILD

1

Two wall/ceiling brackets are needed for curtain rods up to 55½".

2

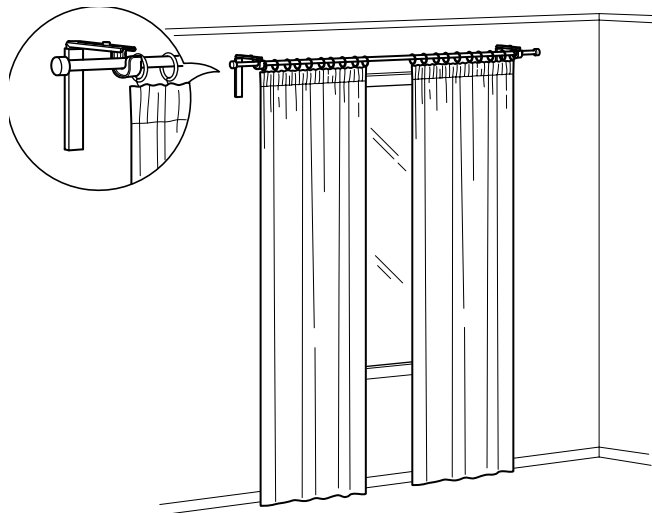

Three wall/ceiling brackets are needed for curtain rods up to 110¼".

1. The brackets can be mounted on the wall or the ceiling. And the position of the curtain rod holder can be adjusted, allowing curtains to be hung either close to the window or farther out.

The curtain rods come in 2 diameters, 3 lengths and 2 colors. All are extendable in length. You can complete the expression easily with finials from the IKEA range.

2. To create a layered solution, you just need to buy extra curtain rod holders and mount them on the brackets. Then add extra curtain rods.

COMBINATIONS

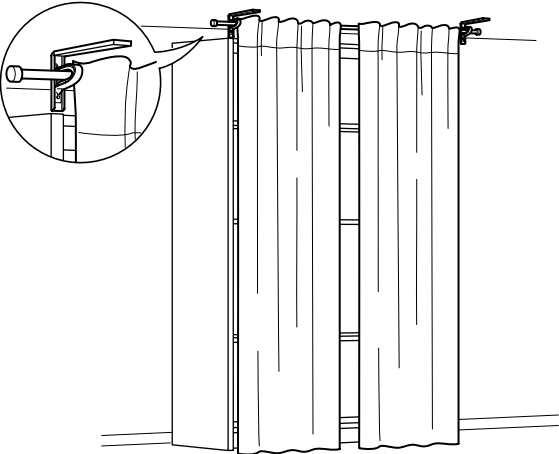

A single window, for example 36", with a single-layer solution.

Window hardware

RÄCKA Curtain rod 28-47". Black	002.171.65	\$1.99/ea	1 pc
BETYDLIG Wall/ceiling bracket. Black	602.172.28	\$1/ea	2 pcs
RAFFIG Finials. Black, 2pk	202.199.36	\$2/2pk	1 pc

This rod configuration \$6
(Curtains, rings and hooks are sold separately.)

COMBINATIONS

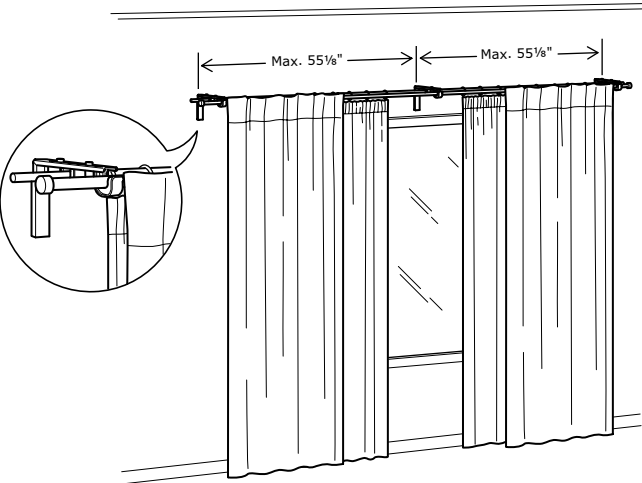

Ceiling mounted:

To create a cover for an open storage solution or to create a simple room divider, the brackets can be mounted on the ceiling.

Window hardware

RÄCKA Curtain rod 47-83". Black	302.171.59	\$2.99/ea	1 pc
BETYDLIG Wall/ceiling bracket. Black	602.172.28	\$1/ea	2 pcs
RAFFIG Finials. Black, 2pk	202.199.36	\$2/2pk	1 pc

This rod configuration \$7
(Curtains are sold separately.)

For a wide window:

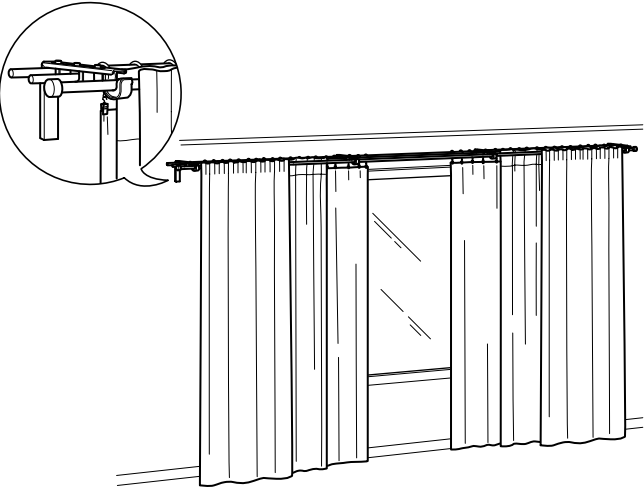

96", with a double-layer solution using a sheer curtain inside and a thick curtain outside. Remember, for curtain rods extending between 55-110", you will need **3** BETYDLIG wall/ceiling brackets to ensure stability.

Window hardware

RÄCKA Curtain rod 83-152". Black	702.171.57	\$4.99/ea	1 pc
HUGAD Curtain rod 83-152". Black	502.171.39	\$5.99/ea	1 pc
BETYDLIG Wall/ceiling bracket. Black	602.172.28	\$1/ea	3 pcs
BETYDLIG Curtain rod holder. Black	502.198.93	50¢/ea	3 pcs
RAFFIG Finials. Black, 2pk	202.199.36	\$2/2pk	1 pc

This rod configuration \$17.48
(Curtains, rings and hooks are sold separately.)

COMBINATIONS

An extra large window solution:

120", using a triple-layer solution. There is room to hang panels, sheer curtains and heavy curtains at the same time. For curtain rods longer than 110", you will need **4** BETYDLIG wall/ceiling brackets to ensure stability.

MEASURE YOUR WINDOW

Start by taking the measurements of your window.

Step 1: Measure the width of the window. This determines the width of the curtain rod or track rail you will need.

- a** Measure the width of your window from edge to edge of the wood frame.
- Measure where to mount the brackets: Add at least 6" on each side to the measurement. This is to ensure the window will be fully covered *and* to allow the curtain to fully open.

Step 2: Measure the height of the window. This determines the length of your curtains or panel curtains.

- b** Measure from the top of the window frame and stop where you want your curtains or panel curtains to end.

As a general rule, adding 6" to the upper measurement gives space to your curtain rod or track rail, and creates a visual appearance that the ceilings are higher by mounting the curtain rod closer to the ceiling. Wash curtains before use to account for shrinkage or add an inch or so to your measurement to allow for the shrinkage of the curtains.
