Looking for extra counter space and storage? An island can do both. The thick oak veneer countertop of TORNVIKEN kitchen island is a durable natural material that can be sanded and surface treated when required. Oak is an exceedingly strong and durable hardwood with a prominent grain. It darkens beautifully with age, acquiring a golden-brown undertone. 10-year limited warranty. See pages 122-123

Life in the kitchen goes a lot smoother when your drawers open up fully to help you reach everything. With interior fittings and organizers inside cabinets and drawers, finding what you're looking for will be easy-peasy. See page 46

Steps to buying an IKEA kitchen

IKEA kitchens are designed so that you can install them yourself. To the right are some steps to ensure the process goes well for you. Should you have any questions, don't hesitate to talk to our kitchen experts at your local IKEA store or visit us at: [IKEA.us](https://www.ikea.us)

Find your style

It's time to dream a little, look at some ideas, consider your needs and decide what an ideal kitchen means for you. This buying guide is made to give you an overview of some of the possibilities but there is so much more. You can find more ideas and inspiration on our website, in the kitchen brochure or by visiting your local IKEA store.

Measure

When measuring it's important to take your time and get your measurements correct. This will form the foundation of all your planning. To see exactly what to measure, take a look at the planning guide, *IKEA Kitchen Planning Guide*, at [IKEA.us/buyingguide](https://www.ikea.us/buyingguide)

→ **We can do it for you**
To learn more about our Measuring services see [page 6](#)

Plan

Planning your kitchen is when your dreams and ideas take shape. Use the online IKEA Home Planner tool to start planning your kitchen. We have trained coworkers who can review your design, answer your questions, and provide advice. Or, we can do it for you in the store or online.

→ **We can do it for you**
To learn more about our Kitchen planning services, view [page 6](#)

Order

When you're satisfied with your planning, visit your local IKEA store and talk to our kitchen experts. They will go over your kitchen plan with you, and help you with anything you're not sure about. When you are ready you can order and we can help with delivery.

→ **We can do it for you**
To learn more about our Delivery service, see [page 7](#)

Install

IKEA kitchens are designed to be installed by you, but we're here to offer as much help as you feel you need. You can start by picking up the kitchen installation guide from the store which gives step-by-step instructions on installing your kitchen.

Services

You can do it yourself, but you don't have to

Our service offer gives you the freedom to design your own price tag by choosing not only the products that suit your budget but also by deciding how much you want to do yourself and how much you want us to do for you. On this page you'll find the different services that are available to help and support you. For more details about our services, talk to a co-worker at your local IKEA store or visit us at [IKEA.us/kitchenservices](https://www.ikea.us/kitchenservices)

Kitchen Measurement Service

It's important to have your kitchen accurately measured before planning begins. An experienced IKEA Measurement Technician will come to your home, take all of the essential measurements, and enter the data in the IKEA Home Planner. Your Measurement Service fee is refunded when you have IKEA install your kitchen. Available for customers living within our service area.

IKEA Home Planner

You can plan your kitchen on your computer with our online 3D IKEA Home Planner at [IKEA.us/kitchenplanner](https://www.ikea.us/kitchenplanner). It's free, it's fun and it calculates your price as you click along. You can PRINT, SAVE and CHANGE your kitchen plan as many times as you want. Then come to the store and get advice — you can access the same plan you've been working on — and share it with our IKEA Kitchen Specialists.

Free Kitchen Planning Service

We offer two **no cost** options to have your kitchen professionally planned. You will receive a detailed layout of your kitchen including cabinets, appliances, and countertops, and a parts list to make it easy to order.

Most Convenient & available to everyone in the continental US:

Planning from Your Home Make a 90-minute appointment, online or in your local IKEA store. Allow time for you to measure your kitchen and select products before your appointment. A professional IKEA Kitchen Planner will work with you interactively online to plan your dream kitchen. You will be able to discuss every detail and view your plan being created. Your planner will follow-up with a second session to make any changes.

Visit an IKEA store:

Planning from the Store You can make an appointment online or at your local IKEA store for a two-hour in-store appointment with one of our professional IKEA Kitchen Planners. Allow time for measuring your kitchen and selecting products before your planning appointment.

Prior to your appointment, you will need to:

- **Measure your space** – The first step is getting your kitchen measurements. Instructions will be provided if you want to do this yourself. But if you live in an IKEA service area, a professional IKEA measurement technician can visit your home to measure your kitchen for you.
- **Choose your products** – Start browsing our kitchen products now to get a better understanding of what you want. You must know this before your planning session to make it productive.

In-Home Planning Service

Dreaming of a new kitchen but don't have the time to plan yourself? Our new in-home planning service has you covered! IKEA kitchen experts will come to your home, measure and assess your space and handle all the planning. The initial appointment may last up to four hours and requires a follow-up session (in-store or online) to finalize your design and complete your purchase. Best of all, the \$199 fee is applied toward your qualifying Kitchen Installation service.

IKEA Kitchen Installation Service

Professional IKEA kitchen installation makes your dream kitchen come true. Installation services are available in most areas. Check with your local store or the Kitchen Installation Services page on [IKEA.com](https://www.ikea.com) to see if installation is available in your area.

Kitchen installation includes:

What type of kitchen are you looking for?

Whether you're looking for a complete kitchen system like SEKTION that you can personalize any way you want, or a simpler kitchen that you can install in a day, we have what you're looking for. Here you have four different types of IKEA kitchens to suit different needs and wishes.

SEKTION kitchen system

Our SEKTION kitchen system includes cabinets in several different sizes to fit your room layout as well as your kitchen routines. The flexibility of the system offers endless choices, giving you the freedom to build a kitchen that's ideal for you and your space. We've also developed an extensive range of kitchen organizers and interior fittings allowing you to quickly see and reach even the things farthest back in the corner cabinets. In addition you have a vast choice in front expressions, countertops, lighting, sinks, faucets, knobs, handles and much more to personalize every inch of your kitchen. **See pages 10-85**

KNOXHULT kitchen

KNOXHULT kitchen cabinets make it easy to create a practical kitchen. The selection of cabinets in different shapes and sizes come with pre-coordinated fronts and countertops and offer smart storage that help you stay organized, so all you have to do is combine them to suit your needs, space and preferences. When you're happy with the result, personalize with your favorite sink, faucet, appliances, knobs or handles and lighting to create a kitchen that works for you. **See pages 96-99**

KITCHENETTES

Not all of us have a lot of space or money for a traditional kitchen - and sometimes, we are just looking for a practical solution that isn't so complicated. Our kitchenettes offer all the ingredients for this very important function in clever, compact designs. Simply add TILLREDA small space appliances to customize your culinary space according to your needs. It's all there, personal, functional, affordable and easy to install. And guess what? Its easy to take it with you when you move. Simple as that. **See pages 100-105**

SEKTION KITCHEN SYSTEM

Endless possibilities

The modular design of SEKTION kitchen system is easy to install and gives you endless possibilities when designing your kitchen. Whether you have a taste for the traditional, love the minimalism in modern style or land somewhere in between, you'll surely find something that fits you.

To become truly beautiful, the kitchen has to be functional and take care of all your kitchen needs, too. With SEKTION you have the freedom to get the look you

want on the outside and keep everything in perfect order on the inside. Start by deciding the style of your dream kitchen by choosing the doors and drawer fronts, lighting, countertop, sink, faucet, knobs, handles and accessories that you like.

Door and drawer front styles

Flat front doors and drawer fronts

Fat front doors offer you straight lines and smooth, easy to clean surfaces, simplicity in its truest form. Choose from a wide variety of finishes, colors and materials.

Frame doors and drawer fronts

Frame doors and drawer fronts are rich in detail, with a crafted look and feel—they create a kitchen with a rustic and traditional look. All our frame door families have a matching glass door.

High-gloss doors and drawer fronts

Glossy surfaces suit everyone from the minimalist to the wild family with kids. Stains are no problem as they are just as easy to wipe clean as they were to make.

Doors and drawer fronts with integrated handles

You might not notice them at first glance — and that's the idea! Integrated handles lend a minimalistic and modern feeling to your kitchen.

Decorative moldings

Decorative moldings provides the finishing touch to your kitchen. They come in many different styles, but we have something for all of our door and drawer families. Use them to tie your style together, hide lighting or just as a decorative element.

You can choose how to mount them on your cabinets. Below we show the entire range and some different ways of mounting them, both above as moldings and below your cabinet, either wrapped around the whole cabinet or just between your cover panels.

MAXIMERA Drawers and drawer accessories

MAXIMERA drawers fully extend, and thanks to a built-in damper they always close softly and quietly. You have a complete view and you can easily reach the smallest of utensils even at the back of the drawer. MAXIMERA drawers are available in different sizes to give you plenty of options depending on your storage needs. You can also add inner drawers to fully utilize the cabinet space.

Hidden helpers

With SEKTION interior fittings and organizers, you can get the look you want on the outside without revealing what's inside. The cabinets can be hiding all sorts of kitchen surprises. Behind a door you can find pull-out organizers for your cleaning equipment, organizers keeping all your pots, pans and lids in perfect order, or a great bunch of fully extendable drawers making everything easy to reach. Not to mention drawers inside drawers allowing you to utilize the cabinet space to a maximum. It's really up to you what goes inside your kitchen cabinets.

On the following pages you'll find numerous handy helpers making your daily work in the kitchen so much easier.

Lighting and sound for SEKTION

A brighter kitchen life

Good lighting is an essential part of any kitchen. That's why we have different families of integrated lighting that are perfectly designed to fit into our kitchen cabinets. Including integrated lighting in your kitchen is the best way to show off your favourite dinnerware, behind glass doors or in drawers.

Worktop lighting helps you focus on function and makes kitchen work less of a chore. Preparing and cooking meals becomes safer, easier and more fun when you have a good, even light across your worktop.

Enjoy an even better kitchen life with the ability to light turn on and off wirelessly, or soften the light when you dine or socialise. All you need is a wireless dimmer or remote control. Or connect your smart lighting to DIRIGERA and connect all your lights together with other smart products in the IKEA Home Smart app.

You can choose the features and functions that are most important to you and add products to create your perfect kitchen atmosphere.

Drawer lighting simplifies finding what you need even during those midnight kitchen raids. Opening and closing the drawer turns the light on and off automatically.

Countertop lighting should give you a clean, clear view of all the work you're doing in the kitchen.

Spotlights provide a focused light that is good for lighting smaller areas and behind glass doors.

MITTLED series

MITTLED has a compact design for both under cabinets and inside drawers. And **hardwiring is not necessary**

Countertop lighting

Drawer lighting

Cabinet lighting

when installed with TRÅDFRI LED driver(s) and ANSLUTA power supply cord.

MITTLED LED dimmable countertop lighting Matches your cabinet sizes and features a compact design. LED life time approx. 25,000 hrs. Lamps are able to connect together for a seamless look and even task lighting across a run of connected wall cabinets. Lights are dimmable with TRÅDFRI LED driver, TRÅDFRI dimmer, and DIRIGERA hub, sold separately. **Note:** The VAGDAL connection cord is not included with MTTLED countertop lights, it must be purchased separately according to the number of connected lights you are using.

Only one VAGDAL connection cord is required per group of MTTLED countertop lights connected together. If installing a single MTTLED countertop light, one VAGDAL connection cord is needed for that unit. If connecting 3 MTTLED lights, 1 VAGDAL cord is needed.

The VAGDAL connection cords then connect to TRÅDFRI LED driver(s). The LED driver then connects to an electrical outlet using an ANSLUTA power supply cord, all sold separately.

MITTLED LED lighting strip for drawers In an IKEA kitchen you can have lighting inside all your drawers. Opening and closing the drawer turns the light on and off automatically. Must be completed with an LED driver. For drawer lighting, it is best to use a dedicated driver not connected to other lighting. Use either a TRÅDFRI driver coupled with ANSLUTA power supply cord or an ANSLUTA LED driver which already includes the power cord. All sold separately.

Why a dedicated driver? Drawer lighting must stay in an 'on' position so that the MTTLED lights on/off sensors operate properly. A dedicated LED driver for drawer lighting ensures there is no interference by other smart devices connected to TRÅDFRI drivers, such as dimmers, remote controls or wireless controls.

Cabinet lighting

TVÄRDRAG Cabinet lighting A lovely traditional cabinet lamp. The metal shade creates a direct light that illuminates your cabinets. If you want the lamp's light to be directed into your display cabinet, just angle the lamp head inwards. You can turn up to 6 light sources on and off simultaneously if you complete with ANSLUTA driver. If you also want to be able to dim, choose TRÅDFRI driver and STYRBAR remote control instead, sold separately.

Black	1.5W	405.168.41

YTBBERG Cabinet lighting The lamp's slim and neat design goes with most styles and is perfect if space is limited between the top of your cabinet and the ceiling. You can easily direct the light where you like since the arm can be bent 180° and the lamp head angled 90°. You can turn up to 6 light sources on and off simultaneously if you complete with ANSLUTA driver. If you also want to be able to dim, choose TRÅDFRI driver and wireless dimmer instead. Sold separately.

Cabinet lighting illuminates your favorite kitchen doors and creates a cozy mood light in the entire kitchen.

SKYDRAG Countertop lighting series

SKYDRAG LED countertop lighting with sensor Must be completed with TRÅDFRI LED driver and ANSLUTA power supply cord, sold separately. You can connect as many LED light strips as you like, as long as the total wattage of the products does not exceed the maximum wattage of the connected driver(s). Add the DIRIGERA hub and IKEA Home smart app for wireless control through Amazon Alexa, Apple HomeKit or Google Home. Dimmable with TRÅDFRI wireless dimmer, sold separately.

SKYDRAG LED lighting is dimmable and long lasting. Lighting creates atmosphere in homes and makes everyday life easier. This LED worktop lighting has been specially designed for ENHET kitchen series, but is of course just as easy to install in an existing kitchen or also works great in AURDAL and BOAXEL wardrobe systems!

Countertops

Your kitchen is the heart of your home, it's a room for everyone! How it performs and how it looks are two important factors. Even though doors and drawer fronts are the main style decision you make when updating your kitchen, your countertop can have a big impact on the overall look. However, the perfect countertop is not just about completing the look of your kitchen, it has an impact on its functionality too. When picking the right countertop there are many factors to consider, including your style, durability, maintenance, lifestyle and cost. Our countertops are available in pre-cut and custom-made as well as in durable materials, finishes and thicknesses. Each surface has unique properties, with differing levels of water, wear and heat resistance.

How to choose your countertop:

1

What's your budget?
A stylish look does not have to cost a fortune, our countertops are available in wide range of materials and expressions, pre-cut as well as custom-made to perfectly fit your style, needs and wallet.

2

What kind of material do you prefer? When deciding on material, consider how robust you need your countertop to be, how much you are prepared to look after it, and how you want it to look in your kitchen environment.

3

Custom-made countertops are made-to-fit your kitchen layout, you can order the exact size you need, as well as cut-outs for your sink, faucet and cooktop. Pre-cut countertops are available in different sizes, you can take them home today and cut to desired length.

Built to last

When we test our countertops we put them up against everything they'll face in your kitchen: liquids, oil, steam, heat, thumps, bumps and scratches. Once we're done we're so sure our countertops will last for many years to come.

25
Year Limited
Warranty
Included

Countertops have a free 25-year limited warranty. Exclusions apply. See pages 122-123 or [IKEA.us.com/warranty](https://www.ikea.us.com/warranty) for details.

Materials

Laminate

Laminate countertops are durable, affordable and easy to maintain, with lots of colors and expressions to choose from. Spills and grease are easy to wipe clean and the countertop keeps its beauty over time, making it a practical solution.

Wood

Countertops with a top layer of wood have all the qualities of solid wood, enhanced by modern technology. They are made with 1/8" layer of solid wood wrapped on particleboard. This increases the stability and makes them less likely to split or crack. They can be sanded down to remove minor scratches, and will keep their natural beauty over the years.

Recycled glass

Countertops made of recycled glass offer a sleek and expressive look inspired by beautiful materials found in nature. The easy to care for, durable, non-porous surface is both stain- and moisture-resistant.

Color overview

We offer pre-cut laminate countertops in two lengths. Choose between the many colors and expressions to find the perfect look. The laminate countertops can be cut into the length you need and finished with the edge strip included in the package.

Pre-cut thick veneer wood countertops

Natural and durable, wood brings a warm feeling to your kitchen and makes each countertop unique. It ages beautifully and you just sand and treat it to keep it looking great.

Pre-cut thick veneer wood countertops have a layer of solid wood covering a particleboard core. They feel and look the same as solid wood. With this technique we can create new unique expressions, using less wood and reducing the impact on the environment. We pre-treat them with a hard wax oil, so you don't have to oil them when you get them or treat them at all until the surface starts to wear. They're available to take home today.

Natural and durable, wood brings a warm feeling to your kitchen and makes each countertop unique. With thick veneer, a 1/8" layer of wood covers a particleboard core to add excellent stability.

Thick veneer countertops come in the following crafted patterns: full plank, butcher-block, fine line and chevron.

The countertops are pre-treated with hard wax oil to create an easy-care surface for immediate use. Over time, it will only look better, gaining in character. They can be sanded and treated when needed, meaning that they will age gracefully.

Thick veneer countertops are available in pre-cut sizes that you take home today. They can be cut into the exact length you need and finished with the edge strip included in the package.

Ash

Ash is a blonde hard wood with a beautiful grain pattern. Ash is a tough and strong, yet elastic material with great resilience and finishing properties. It gets gradually darker with age. In its natural form it is heavy and gives a very solid feel.

Walnut

Walnut wood is relatively heavy, hard and resilient. The natural color light brown to dark chocolate brown adds warmth to your kitchen decor. Walnut gets lighter in color with age. It has a rich variation in color and a decorative, curved grain pattern.

Oak

Oak wood is exceedingly strong, heavy and durable. It is an attractive light color with a prominent grain. Its color ranges from light brown to a rich reddish-brown and it darkens beautifully with age.

Big advantages of a custom-made countertop

Your custom-made countertop is made to fit your kitchen layout perfectly, with the least number of seams. You can order the exact length and depth you need for your kitchen island or bar solution as well as cut-outs for your sink, faucet and cooktop.

How to buy a custom-made countertop

1

Material and color

Choose a color that makes the kitchen your own.

2

The countertop profiles

Choose the desired profile for the edges. Depending on the material you've chosen for your countertop, you have different options.

3

Choose your sink

Choose the sink you want and if you want it top mounted or under-mounted.

4

Take measurements

Then start to measure to see what size and shape of countertop you need. If you would like help with this, or with anything to do with measuring your kitchen, our measuring service can come to your home.

5

We're here to help

To design your custom-made countertop get help from an IKEA co-worker in the kitchen department at your local store.

6

Order

To order your custom-made countertop, please contact an IKEA co-worker in the kitchen department at your local store.

How to measure your countertop

Start by measuring your countertop from the corner where it attaches to the wall. Make sure to make your measurements alongside the wall and always start from the same point. When measuring the depth, start from the wall and measure out. Don't forget to add 1½" for an overhang too.

If you need to measure for a freestanding countertop (for a kitchen island for example), simply start from one end and add 1½" extra for an overhang.

To measure for a sink start from the same point where you've taken your previous measurements and measure to the center of where you would like your sink to sit.

LOCKEBO glass composite custom-made countertops

When you choose a LOCKEBO glass composite custom countertop you get a work surface that's extremely durable as well as sustainable. It is made with at least 80% recycled materials. It's scratch, stain, and heat resistant and withstands heavy impacts. The special high tech process results in a beautiful, low maintenance, and sustainable material that is easy to keep clean. You can also order coordinating backsplashes to complement your countertop.

Sinks

A busy place in the kitchen

The sink and the area around it is one of the busiest places in the kitchen. You use it for everything from preparing food and rinsing vegetables, to storing dirty dishes and cleaning up. To make the activities as easy as possible, choose a sink and sink accessories that match your needs and the way you work in the kitchen.

How to choose your sink

01

How much space have you allocated for the sink? Our sink cabinets are 24, 30 or 36" wide.

02

Think about how you prepare food, but also how you clean up. Do you have a dishwasher or do you wash the dishes by hand? Do you need one bowl, two bowls or a sink with drainboard?

03

Complete your sink with sink accessories that help you organize the area in and around the sink, both when you prepare food and when you clean up. **See pages 77, 101-107.**

25

We test our sinks to ensure they can withstand the demands of everyday life in the kitchen. That's why all our sinks come with a free 25-year limited warranty (except FYNDIG). Find out more on [page 112-113](#).

Our range of sinks

Single bowl sinks

If space is an issue, one single bowl is a good option. Plus, in a big single bowl you can easily wash large pots and pans. Combine with sink accessories to make the bowl as functional as possible. **See pages 79, 111-117.**

Double bowl sinks

Having two bowls is ideal if you have a lot going on at the same time. For example, if one of the bowls is piling up with dirty dishes, you can still rinse off vegetables and the like in the other.

1½ bowl sinks

A one and a half bowl sink gives you the same advantages as a double bowl sink, but in a smaller area.

Sinks with drainboard

A sink with a drainboard is ideal for drying dishes as the sloping surface make excess water flow back into the bowl. Our sink with drainboard is reversible, so you can choose if you want the drainboard to the left or to the right.

Saving water at every step

Earth may be covered in a lot of water, but very little of it is drinkable and even less is accessible. No organism can survive without it, and no new water is created. It's constantly recycled, but our freshwater supply is overused; not evenly distributed; and impacted by pollution, contamination and climate change. That's why we equip all our kitchen faucets with a water saving aerator that reduces water use up to 40%—while maintaining the same pressure. We didn't invent aerators, but think they are an important example of how we can work together to save water for everyone's benefit.

Complete your combination with lighting

How to build

SKYDRAG LED cabinet lighting is easy to install by yourself.

- When you start building your system, you must first consider the widths of your cabinets. For example, for a cabinet with a width of 23%", you'll need the SKYDRAG lighting strip 23% too.
- Choose the number of SKYDRAG lighting strips that you need.
- Add the TRÅDFRI driver. You can connect up to three or nine units to the driver, as long as the total wattage does not exceed 10W or 30W. TRÅDFRI drivers need to be connected to the plug with an ANSLUTA power cable.

- Add TRÅDFRI wireless dimmer or STYRBAR remote control to dim your lighting. Pair the dimmer to the TRÅDFRI driver and the entire combination will dim at the same time.
- Add the DIRIGERA hub to control SKYDRAG connected lighting from the IKEA Home smart app in different ways together with other TRÅDFRI lighting in your home.

Kitchen islands, carts, stools and accessories

A kitchen easy to live in

Your kitchen isn't fully functional until everything in it has found a place of its own. With smart organizers and accessories, you'll find what you need, when you need it.

Utilize the full area in the kitchen, even the walls. With smart wall storage often-used items can be close at hand, at the same time you free up workspace.

Your best kitchen friends

Our carts and islands boost your storage space and kitchen functionality while adding a social focal point in your kitchen at the same time.

The sink area is a busy place. We have accessories with multiple purposes that can help you utilize the area in and around the sink, supporting the workflow both when preparing food and washing up.

LIMITED WARRANTY

GENERAL CONDITIONS

What is limited warranted?

The extent of the limited warranty given for each product is described alongside each product.

Duration of limited warranty

Each limited warranty lasts for the number of years stated against each product starting from the date of purchase.

What will IKEA do to correct the problem?

IKEA will examine the product and decide if it's covered under this limited warranty. IKEA will then, at its choice, either repair the defective product or replace it with the same or a comparable product. In these cases, IKEA will be responsible for the costs of repairs, spare parts, labor and travel for repair staff that IKEA incurs, provided that the product is accessible for repair without IKEA incurring additional expenditure to gain access. This will not apply in cases where repair work has not been authorized by IKEA. Any defected parts removed in the course of repair works will become the property of IKEA. If the item is no longer sold by IKEA, IKEA will provide an appropriate replacement. IKEA will decide at its discretion, what will constitute an appropriate replacement.

Conditions for the limited warranties

The limited warranties are valid from the date of purchase at IKEA. The original purchase receipt is required as proof of purchase.

Exclusions

The limited warranties do not apply to products that have been stored or assembled incorrectly, used inappropriately, abused, misused, altered or cleaned with wrong cleaning methods or wrong cleaning products. Follow our assembly instructions and care instructions carefully.

The limited warranties do not cover normal wear and tear, cuts or scratches or damage caused by impacts, accidents or waterborne debris.

The limited warranties do not apply if products have been placed outdoors, in a humid environment, in a corrosive environment or if the products have been used for non-residential purposes (unless otherwise stated).

The limited warranties do not cover consequential or incidental damages. Some states do not allow the limitation or exclusion of incidental or consequential damage, so this limitation or exclusion may not apply to you.

For details see the limited warranty conditions and description for every product.

Care instructions

To be able to rely on this limited warranty you need to follow the specific care instructions for every product.

► You will find all care instructions in the IKEA stores and on the IKEA website: IKEA.us

General legal rights

This limited warranty gives you specific legal rights. This limited warranty does not, in any way, affect the rights given to you by law.

How to reach us if you need service:

Contact your local IKEA store.

► You will find the address and phone number in the IKEA catalog or at IKEA.us. Save your sales receipt as proof of purchase.

► Proof of purchase is required for the limited warranties to be valid.

► For more information, see the IKEA Kitchen limited warranty booklet at IKEA.us/warranty.

LOCKEBO GLASS COMPOSITE COUNTERTOPS

Limited residential lifetime warranty

- Thickness of LOCKEBO is 3mm.
- Color may vary slightly from in-store samples.
- Glass composite is not perfectly smooth, minor pitting is common and does not affect the performance or constitute a material defect.

Conditions for the limited warranty

- Owner must register warranty on or before 30 days of installation at www.Caesarstoneus.com.
- Original proof of purchase receipt is required.

What is covered under this limited warranty?

- Warranty against any manufacturing performed by the supplier, as well as the correct installation of the product.
- The warranty is effective only if the owner of the countertop is the occupant of an indoor single-family residence.

What is not covered under this limited warranty?
