Buying guide

SMÅSTAD

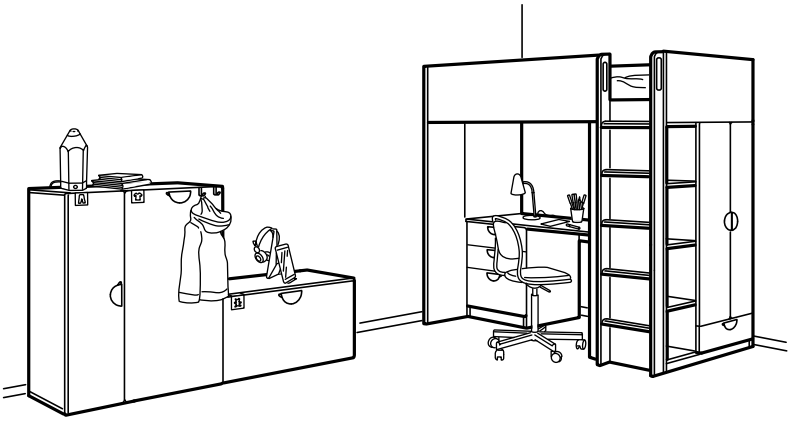

System

Safety

Children are curious and imaginative and can sometimes be difficult to predict. That's why we always perform risk analyses and test our children's furniture to ensure the pieces are suitable for children. Don't forget to use the included safety fittings and secure furniture properly to the wall which has a height of 23⅜" or more.

Secure It! Prevent tip-over injury. Furniture with included restraints must be secured to the wall according to the assembly instructions.

Different wall materials require different types of hardware. Use hardware (sold separately) suitable for the walls in your home.

Storage for growing children

SMÅSTAD is a storage system developed based on a child's perspective. We want to make it easier and more fun to get dressed on their own and keep things organized. After all, children are not small-sized adults, they interact with their surroundings differently and are also constantly developing. The system comprises of a changing table, bench, twin loft bed with a desk, as well as various wardrobes and chests of drawers. Smart accessories will help you easily update the pieces of furniture so that they keep up with the times over many years — making them a little kinder to your wallet.

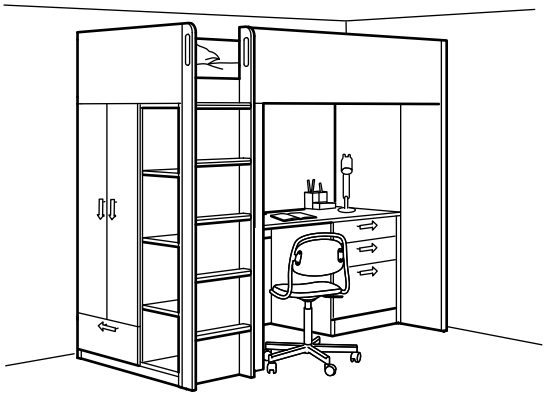

A high standard of accuracy has been sought in the preparation of this buying guide. We apologize for, but will not be bound by or responsible for, errors and omissions in this buying guide.

Not all products may be available in all stores. See what is available at your local store by visiting IKEA-USA.com. For more detailed product information, see the price tag or visit IKEA-USA.com. All products shown require assembly. All textiles shown are imported.

SMÅSTAD grows with your child

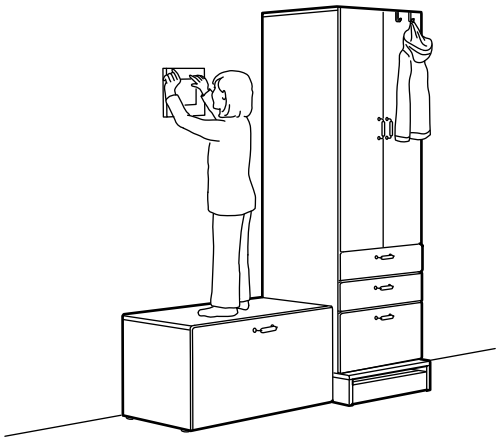

Smart solutions for limited space
Children grow, but the space at home doesn't always get bigger. With SMÅSTAD you can maximize the use of space since the units can be used in different ways and also change over time. SMÅSTAD loft bed turns into a room within the room — with a desk, shelves and a wardrobe. SMÅSTAD changing table can grow with the child and eventually transforms into a desk.

Endless possibilities
SMÅSTAD is a super flexible system. You can choose between different frames, fronts, handles, details and accessories to create a combination that suits the needs and space at home. If you don't want to fully plan the storage, we offer a selection of ready-made combinations that you can easily take home with you right away.

Designed for children
When we developed the SMÅSTAD storage system, we based it on the needs of children and how they're constantly evolving. With features like hooks at a height that's just right, it will be easier for them to take down and hang up their clothes on their own instead of the clothes ending up in a pile on the floor. Children's needs are also about safety. SMÅSTAD has soft edges, rounded corners and the door hinges have built-in dampers that reduce the risk of small fingers being jammed.

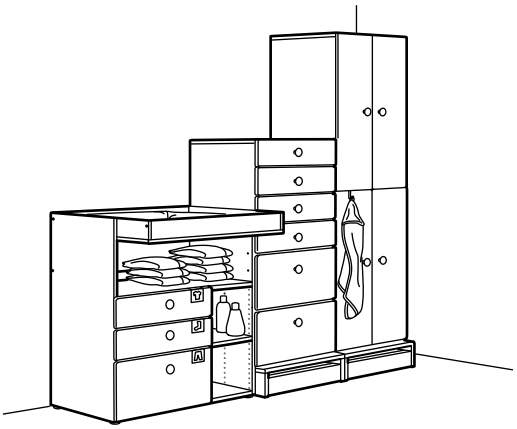

Safety and maintenance
Children rarely do what we adults expect. They play and use things in ways that can be difficult to predict, so that's why we perform risk analyses and safety tests for all of our children's furniture. For pieces of furniture with a height 23⅝" or more, you also need to ensure an important safety measure: follow the assembly instructions and anchor the furniture to the wall with the included safety fittings to prevent it from tipping over. You clean the frames and fronts of the furniture with a damp cloth and mild detergent, then wipe dry with a clean cloth.

Good to know

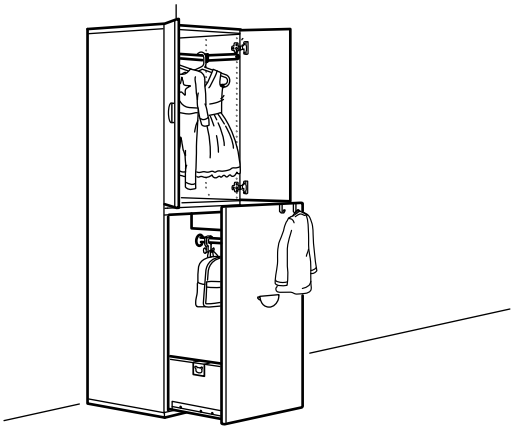

Living with children is a world of constant change — something most parents around the globe probably agree with. That's why we made SMÅSTAD as flexible and changeable as possible. Then the storage furniture can keep up with the times and change based on the child's age and needs.

For all UPPFÖRA frames you can add a drawer on wheels to fit in the space at the very bottom. The uses can change as your child grows, and become quite numerous over time. Here you can put their first safe toys so that the little child can reach them on their own. After a few years, maybe the drawer contains building blocks, toy animals or cars — and when you roll it out, it transforms into a perfect stall or garage. When your child has outgrown the toys, it turns into a secret box for all the things that a teenager doesn't want lying around.

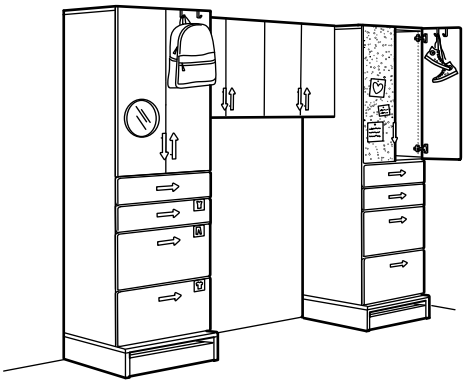

Ages 0–2 years — calm start with safe routines

With a combination of SMÅSTAD changing table and storage, you can create a cozy, safe and practical place for changing diapers and storing clothes and other things related to caring for your baby. As your child develops and understands more of their surroundings, you can put up colorful pictures around the changing table and hang up a baby mobile that grabs their attention.

Ages 3–7 years — full speed ahead and a lot can-do spirit

The storage in SMÅSTAD can be divided into different levels. In the upper part you can hang garments that are not used every day, and in the lower part your child can reach just the right amount of clothes on hooks or in drawers. Being able to take responsibility for their things and get dressed on their own helps the child grow and feel independent.

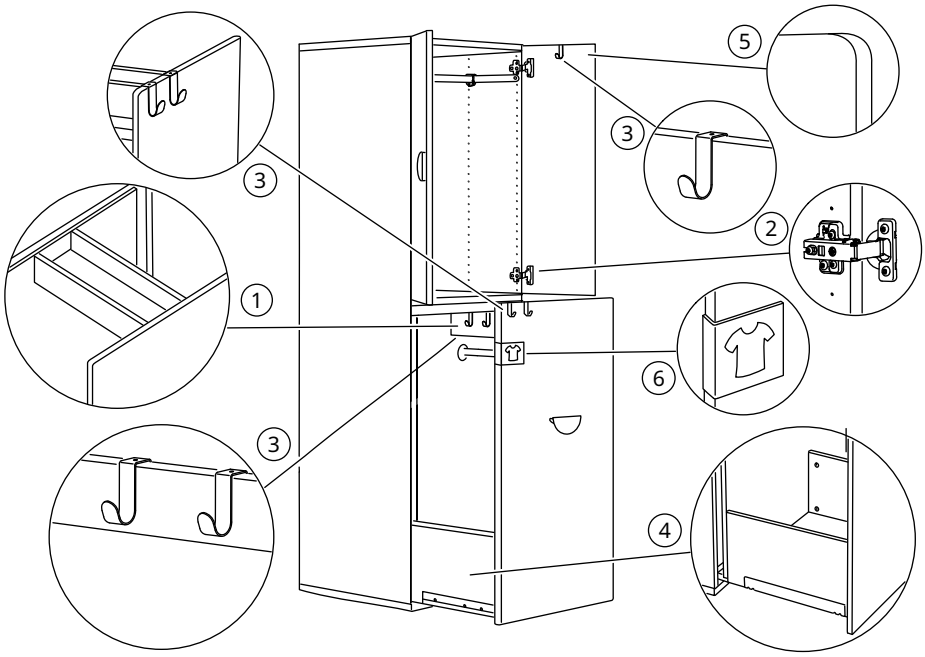

Ages 8–14 years — personality takes its prominent role

At this age, the child fully explores his or her identity and is happy to show it. That's why, among other things, we've created a cork door, where they can freely display their style and interests — without the wall being dotted with holes. Use hooks on both the inside and outside of SMÅSTAD to make it faster to hang clothes, backpacks and other things that easily end up on the floor.

Good to know about the pull-out wardrobe

In the pull-out lower part of the wardrobe, your child has a full overview and can reach hooks and drawers from two sides. The hooks make it easy to both take down and hang clothes and other belongings up again. In the upper part you can store clothes and other things that are not used every day.

1. At the top there is a fixed drawer with space for all the small things that easily get displaced.
2. The hinges have built-in dampers so that the doors close softly and do not risk jamming any fingers.
3. Hooks on the inside and outside make it easier for your child to hang up clothes, backpacks and other things off the floor.
4. The high edges of the bottom are used to strengthen the structure, while also creating a storage box.
5. It hurts to hit a sharp edge. That’s why the corners of all doors and drawers in SMÅSTAD are softly rounded.
6. With symbols in HÄNGIG label holder, it will be easier for both children and adults to organize the insides of drawers and wardrobes.

How to build SMÅSTAD

We have a wide range of ready-made SMÅSTAD combinations to choose from. You can find them in the store or on our website at IKEA-USA.com. If you like, you can adapt the ready-made combination to better suit your needs and style. Use SMÅSTAD planning tool to change the interior or the size of your storage solution. You can also use the planning tool to customize your own unique SMÅSTAD combination from scratch.

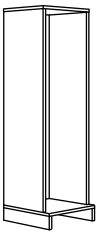

Here we illustrate the process with the example of the storage solution with pull-out.

There are four simple steps to follow:

1. Choose frames based on your needs and how much space there is in the room.
2. Choose the style of doors and drawer fronts. Does it look best with neutral white or a color?
3. When planning the interior of your SMÅSTAD, it is good to first think about what the daily routines are like and what needs to be stored. Complete the wardrobe with drawers, wire baskets, hooks and other details from our wide range of accessories.
4. Think about which handles or knobs you want on the doors and drawer fronts. Choose from our various options to create the style you want.

SMÅSTAD changing table/desk

1. Initially, the changing table is a practical and safe place for many cozy moments with your baby.
2. When your child is slightly bigger, you can lower the top to create a practical table for games and drawing.
3. Sooner than you think, your child is ready to start school. Then you can raise the top again so that it turns into a comfortable desk for homework with practical storage underneath.

SMÅSTAD loft bed with desk and storage

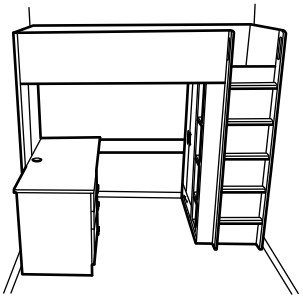

The illustrations below show how SMÅSTAD loft bed can be assembled in several different ways depending on the shape of room and the needs. Add doors, drawers and details based on your needs and style. The smart cable management of the desk adds to the orderliness. The non-slip ladder has space for hands at the edges of each step and two handles at the top make it easy to climb up and down.

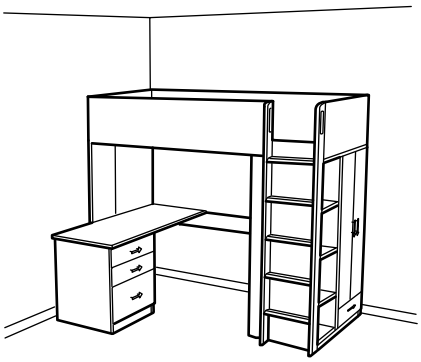

- Bunk and loft beds are recommended for children from the age of 6 years.
- Minimum ceiling height is 94½".
- We recommend a mattress that is max. 8¼" thick.
- The ladder can be mounted on the right or the left side of the bed.

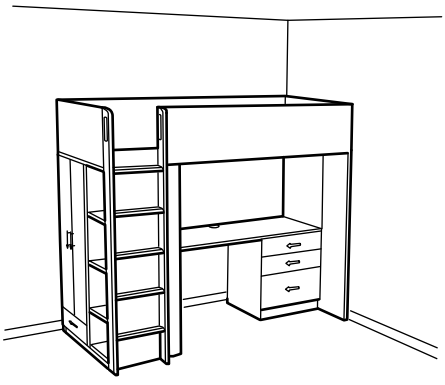

The desk is mounted parallel to the bed and the wardrobe doors are on the outside. If you mount your SMÅSTAD loft bed like this, with the wardrobe doors on the outside, you have a perfect space for the desk under the bed.
Overall dimensions: 77½×44⅞×71⅝".

The desk is mounted perpendicular to the bed and the wardrobe doors are on the inside. If space in the room is tight, you can mount the desk perpendicular to the bed, with the wardrobe doors so that they open from the inside.
Overall dimensions: 77½×54¾×71⅝".

The desk is mounted perpendicular to the bed and the wardrobe doors are on the outside. If the space in the room is very generous, you can choose to mount the desk perpendicular to the bed, with the wardrobe doors so that they are accessed from the outside.
Overall dimensions: 77½×54¾×71⅝".

The ladder is mounted on the left side of the bed.
SMÅSTAD loft bed becomes even more flexible thanks to the option to mount the ladder on either the right or the left side of the bed. Choose the solution that best suits your room and your needs.
Overall dimensions: 77½×44⅞×71⅝".

SERVICES

IKEA products are designed to be taken home and assembled by you. That way, you'll save the most money. But if you would like some help, we can offer a range of services. Assembly and delivery services fulfilled by an Independent Service Provider.
Contact your local IKEA store or visit the IKEA website for details: IKEA-USA.com/services

DELIVERY SERVICE

Most of our products are designed and packaged so that you can take them home yourself. If you prefer, we can arrange for delivery of your purchases directly to your home or business. Same day, next day, or same week deliveries are available.

TASKRABBIT ASSEMBLY SERVICE

All IKEA products are designed to be assembled by you, but you don't have to. We've partnered with TaskRabbit to connect you with a network of independent 'Taskers' who can provide quick and convenient assembly and mounting services for your IKEA purchases made online and in stores. You can schedule assembly service for as soon as the same day, with the Tasker of your choice. Visit TaskRabbit.com/IKEA or see a co-worker for more details.

Services and prices may vary. For more information about our services, visit IKEA-USA.com/services or your local IKEA store.

© Inter IKEA Systems B.V. 2020
Valid as of April 1, 2024 posting. Prices and availability of products are subject to change without notice. Please see IKEA-USA.com or your local IKEA store for the most up to date pricing.
