Safety

Secure It! Prevent tip-over injury. Furniture with included restraints must be secured to the wall according to the assembly instructions.

Furniture must be attached to the wall with the enclosed wall fastener. Different wall materials require different types of hardware. Use hardware (sold separately) suitable for the walls in your home.

Ensure that the walls in your bathroom can support the weight of the sink cabinet, and if not, then use legs.

Care and cleaning

Wipe furniture clean with a cloth dampened in water or a nonabrasive detergent, then wipe dry with a clean cloth.

The sink and faucet should be wiped clean with a cloth dampened in water or a nonabrasive detergent.

Sinks made of ceramic are resistant to most chemicals, except for strong acids and strong alkalis.

Sinks made of crushed marble should not come in contact with ammonia, acids, strong detergents, hair dye or chlorine.

Perfection, no matter the size of your bathroom

With ÄNGSJÖN family you can go for sleek expression with a high gloss finish or choose a warm wood look to create a relaxed, at-home wellness retreat. The contemporary design is emphasised with integrated handles, minimizing any unnecessary details and underlining the refined look.

The family includes single and double, soft-closing drawer units and the possibility to be complete with HAGAÅN open cabinet, giving you the opportunity to show or hide your things. This, and your choice of countertop, sink, faucet and legs will form your own unique expression.

The included suspension rail makes it easier to mount the cabinet on the wall and the unique wedge dowels make assembly easy and the fittings nearly invisible.

ÄNGSJÖN furniture will withstand years of splashes and humidity and we guarantee it.

A high standard of accuracy has been sought in the preparation of this buying guide. We apologize for, but will not be bound by or responsible for, errors and omissions in this buying guide.

How to plan

What do you want to store?

Start by thinking what storage needs you have in your bathroom. Think of the activities that happen in your bathroom like laundry, shower, clean and care. How many people use the bathroom and when is the rush hour usually? Based on the activities and amount of people you can plan how many storage units that will best suit your needs.

Think about the wall space you have available for a sink cabinet and sink, since this is the center of most bathroom activities. The ÄNGSJÖN series comprises sink cabinets of different sizes, wall cabinet and high cabinet.

The drawers in ÄNGSJÖN sink cabinet are smooth running and pull out fully so you can easily see and reach what's inside. Pull-out stops prevent the drawers from being pulled out too far and falling, which is especially practical if you have children. All doors and drawers are equipped with soft closing function which makes the mornings and evenings quiet. The included fixed dividers that are perfect fit together with our VISSLÅN organizers.

Choose the expression

After you have decided on the size of the sink cabinet, you can choose between different colors and find the one that suits your style. The sink cabinets need to be mounted to the wall, and you have the choice to have it with or without supporting legs.

Next, choose a sink that fits your needs and space: single, double, semi-recessed or countertop. The sinks are made of ceramic or crushed marble. Ceramic sinks have a glazed finish and are easy to clean. They have excellent scratch resistance and are very durable. Crushed marble is comprised mainly of crushed minerals with binding agents. Crushed marble sinks are smooth, durable and easy to clean.

For ease of shopping, as each integrated and semi-recessed sink requires a water trap (sold separately), we've shown them as a part of each complete combination. The water trap comes with a flexible pipe.

A pop-up plug is always included with the integrated and semi-recessed sinks.

All countertop sinks come with the water trap included.

If you choose a semi-recessed or countertop sink you need to combine a sink cabinet with the countertop. IKEA countertops have been developed with special attention to quality, so they are water resistant, durable and will last a long time. They come in different sizes that match the sink cabinets perfectly. Choose the look that suits you and your bathroom best.

You can find a wide selection of faucets at IKEA. Choose your faucet based on function and design. All faucets have a flow regulator that uses less water but ensures that the water flow feels the same.

The last thing to decide is what to put above and around your sink: mirror, mirror cabinet, high cabinet or wall cabinet. The combination possibilities are endless. Make your choice based on your bathroom storage needs, space and style.

How to combine

Here is a guide to explain how you can put together your very own ÄNGSJÖN bathroom solution.
For all the parts and pieces see page 15. If you want to browse our ready-made solutions visit [IKEA.us](https://www.ikea.us)

Sink cabinet with integrated sink

To build a sink cabinet with an integrated sink you need a sink cabinet, sink, water trap and faucet.

If you like the look of legs or are unsure how much weight your wall can hold, add legs at the front of each cabinet.
Complete your bathroom solution with a mirror, mirror cabinet, wall cabinet or high cabinet – all according to your need.

Sink cabinet with countertop sink

To build a sink cabinet with a countertop sink* you need a sink cabinet, countertop, sink, water trap and faucet.

If you like the look of legs or are unsure how much weight your wall can hold, add legs at the front of each cabinet.
Complete your bathroom solution with a mirror, mirror cabinet, wall cabinet or high cabinet – all according to your need.

* Countertop sink has the water trap included.
