Choice of cover

PÄRUP sofa is a simple yet elegant sofa with features like edging around the armrests. The wooden legs leave space under the sofa — which give it an airy look and make cleaning easy. Pocket springs provide the seat cushions with an even and supporting comfort, and ensure that they retain their shape. All covers are also removable and washable — so both children and adults can relax and avoid worrying about spills and dirt.

Good to know

Our fabrics have been tested

At IKEA we test the fabric covers on our sofas and armchairs so you can be sure they're durable. The fabric's ability to resist abrasion is tested by using a machine to rub it against another fabric while applying firm pressure. A fabric that can take 15,000 cycles is suitable for furniture that must withstand everyday life at home — and if it can take more than 30,000 cycles, it is very resistant to abrasion. All fabrics are sensitive to sunlight, which is why we also check that our fabrics resist fading effectively.

Durable in different ways

Tough tests are an important way to check the durability of our fabric covers, but they don't tell the whole story. Durability also depends on materials, construction and manner of use. Heavy, tightly woven fabrics with a flat surface are most resistant to abrasion. Fabrics with a mixture of natural and synthetic fibers can withstand abrasion better than fabrics with only natural fibers. Yarn-dyed fabrics are more durable than fabrics with printed patterns. And a dirty cover wears out faster than a clean one. The fabric is also affected by how you use your sofa of course.

	Washing instructions	Resistance to abrasion (cycles)	Light-fastness (1-8)
Vissle 100% polyester (min. 90% recycled)	Machine washable warm	50,000	6
Gunnared 100% polyester (min. 90% recycled)	Machine washable warm	50,000	6
