

NÄMMARÖ

Outdoor living furniture series

Sometimes it's good to be square

When we developed NÄMMARÖ, we asked ourselves: what's the best way to create really comfy and affordable outdoor furniture? We found one answer to the question in the design. By basing the whole series on a simple geometric shape, the square, we gave NÄMMARÖ a uniform look and managed to lower the manufacturing costs. That, in turn, is good news for your wallet.

Create your own oasis

In the NÄMMARÖ family, you find sun loungers and chairs for long and lazy days, sofas for many guests and tables for intimate dinners or big families. It's about finding what suits you and your needs. NÄMMARÖ creates possibilities – for both different outdoor spaces and wallets. The furniture is relatively light, so you can easily move it if you need to make room for more guests or stow everything away when the outdoor season is over. It's one of those small but important things that makes the everyday life on your terrace or balcony more convenient.

Durable material with natural feel

All products in the NÄMMARÖ series are made of solid, sustainably sourced, hardwood acacia, commonly used in outdoor furniture because of its durability. All pieces come pre-treated with several layers of wood stain so they will stay fresh and new looking longer before any maintenance is needed.

Protecting and caring for NÄMMARÖ

The best way to extend the life of your wooden outdoor furniture is by cleaning it regularly, not leaving it outdoors unprotected more than necessary and to re-stain it on a regular basis.

Cleaning

Wipe clean with a soft cloth dampened in water and a mild soapy solution. Wipe dry with a clean and dry cloth.

Maintenance

To prevent the surface from drying out and cracking and moisture from penetrating into the wood we recommend you to re-stain the furniture on a regular basis, for example once a year. How often you will need to do this will depend on how exposed the furniture is to wear and tear.

For furniture that stands in the open air, a good indication that you need to re-stain is if raindrops are absorbed directly into the wood and no longer form small beads on the surface.

Storing

If possible, store your outdoor furniture in a cool and dry place indoors off season. If the furniture is left outdoors, make sure to protect it with a waterproof cover and if possible tilt the furniture to make it easier for any water to drain away. After a rain or snowfall, wipe off excess water or snow from flat surfaces. Allow air to circulate, to avoid condensation.
